

# Latino Summit

## "The Extraordinary Impact of Latinos in the United States"

Presented by M. G. Robinson, Inc.

September 27, 2013

Latinos buying power is worth \$1 trillion now in the United States, according to a new Nielsen report.

The Latino Summit is bringing speakers from around the country to address their views, research and experiences dealing and planning with the ongoing growth of the Latino population in the United States. The topics include politics, economics, religion, education, health, workforce, social services and cultural awareness.

Latinos are the fastest growing segments of the Evangelical movement, the Catholic Church, and the Church of Latter Day Saints (LDS).

A panel discussion will follow the presentations with community leaders from the tri-state area to reflect on local concerns, challenges and opportunities working and serving Latinos.

The nation's 50 million Latinos make up the largest minority group and the fastest growing segment of the American electorate.

*"The Latino population is growing rapidly due to births and immigration." For those reasons, the Pew Hispanic Center projections indicate that Latinos "will account for three-quarters of the growth in the nation's labor force from 2010 to 2020."*

Latinos are not just large in population size, they have the double distinction of being the youngest and fastest-growing group in the nation.
