Grants for Recycling Businesses

The State's Recycling Market Development Program (RMDP) has been authorized to release \$500,000 in grant funds to aid recycling businesses and boost economic development in Indiana.

Recycling businesses have until June 3 to apply for the grants that are aimed at helping purchase equipment for manufacturing recycled materials into new products.

The program's grants are awarded for business recycling projects that reduce solid waste disposal, increase Indiana's capacity for recyclable material manufacturing, and increase the use of recycled content products. Financially supporting

Airport Business Opportunity

Meet with aviation entities looking to engage with diverse businesses and learn what procurement opportunities exist within the airport, airline, and other aviation support related industries at the Indianapolis International Airport Business Opportunity Fair May 15.

During the opportunity fair there will be a brief program featuring Mayor Ballard and IAA Leadership.

The event is free to attend as is parking at the Republic Airways hangar.

Vendors will be able to meet with as many exhibitors as they wish and refreshments will be provided.

The event is hosted by the Indianapolis Airport Authority and the City of Indianapolis. Register Online at <http://goo.gl/1mX1q>

the development and marketing of recyclables can lead to the creation of more Hoosier jobs.

“**Providing financial assistance to recycling businesses makes good sense for the environment and the economy,**”

said Indiana Department of Environmental Management (IDEM) Commissioner Thomas Easterly. “We are pleased to offer grants to help businesses that are giving a second life to materials.”

Recycling involves finding uses for existing materials and developing consumer markets for recycled-content products. Commissioner Easterly explained that a Recycling Market Development Grant should be considered if a business is looking for equipment to help reduce waste streams, expand manufacturing, or use recycled-content material in the manufacturing process.

Grants will range from \$25,000 up to \$200,000 with a required 50 percent match. Businesses that have current RMDP projects will not be eligible to apply for this round. The Recycling Market Development Board will make final funding determinations of eligible projects by August.

For additional information about the Recycling Market Development Program or to apply, call (800) 451-6027 or visit IDEM's Recycle Indiana website at www.recycle.IN.gov.

About RMDP

The Recycling Market Development Program operates under the Recycling Market Development Board as established by IC 4-23-5.5. The monies for the RMDP come from the Recycling Promotion and Assistance Fund, an account generated by a per-ton fee on solid waste disposed at Indiana landfills. The fund supports source reduction, reuse, recycling and composting to prevent solid waste from permanent disposal.

About IDEM

IDEM (www.idem.IN.gov) implements federal and state regulations regarding the environment. Through compliance assistance, incentive programs and educational outreach, the agency encourages and aids businesses and citizens in protecting Hoosiers and the environment.
