

Hamilton County Council on Alcohol and Other Drugs

RE: Valle Vista Health
System

To whom it may concern:

We are pleased to provide a letter of recommendation for Valle Vista Health System as a trusted healthcare partner.

For almost 40 years, Valle Vista Health System has provided mental health and addiction care services to thousands of individuals. Collaboration and joining efforts with other community partners has proven to create a robust continuum of care, which is germane in reducing the impact of mental health conditions and addiction, reducing overdose and death rates, and helping thousands to regain their health and wellness.

Valle Vista Health System is focused on facilitating access to care for those in need, providing a stable and solid presence and services that our communities can trust with their mental health needs. Hamilton County Council on Alcohol and Other Drugs understands that we can be more successful at our shared mission if we work together with community resources and health providers, leaders and patient advocates to reduce overdose numbers.

Hamilton County Council on Alcohol and Other Drugs trust Valle Vista Health System and encourage them to extend their services to Hamilton County.

Sincerely,

A handwritten signature in black ink, reading "Monica Greer". The signature is written in a cursive, flowing style.
