

February 1, 2021

To whom it may concern:

Every community aspires to achieve success, but each defines it differently. As the leader of Johnson County's chamber of commerce and local economic development organization, it is my job to help businesses and community partners overcome obstacles toward success, driving growth and opportunity.

Valle Vista Health System continues to collaborate with communities and other mental health and addiction treatment providers on Substance Use Disorder prevention and treatment. By joining efforts with other community partners, it works more effectively to reduce overdose and death rates related to substance abuse. Valle Vista has a 35-year history in serving Indiana in providing Mental Health and Addiction treatment services.

Valle Vista Health System will endeavor to make the ability to receive treatment easier and streamlined to the general population. Aspire understands that we can be more successful at our shared mission if we work together with community resources and health providers, leaders and patient advocates to reduce overdose numbers.

Aspire supports our partners at Valle Vista Health System in providing more inclusive support and treatment services in Hamilton County, such as Outpatient Treatment services.

Ever onward,

A handwritten signature in blue ink that reads "Christian".

Christian Maslowski  
President & CEO
