Footnotes:

1 A community must submit a complete Preliminary Engineering Report to the WWSRF Loan Program in order for the project to be scored and ranked on the PPL.

2 Additional subsidization may be provided to participants who have a low MHI and/or high post-project user rates as outlined in the Intended Use Plan. The amount of the additional subsidization shall be determined and set forth in the financial assistance agreement.

3 **Estimated Total Project Cost** includes the total cost of the project as proposed by the applicant. This amount may include cost share, prior committed funding, and cost overruns. It does not include any additional subsidization.

4 **Application Only** indicates that the project was not scored but was submitted as part of the application process.

5 **Category** indicates the category of the project as proposed by the applicant. This category may be used to prioritize projects for funding.

6 **Estimated Post-Project User Rate** includes the amount of the estimated post-project user rate that will be charged by the applicant.

7 **Estimated Project Cost Reserve** includes the amount of the estimated project cost reserve that will be set aside for future maintenance and repairs.

8 **Estimated Green Project Reserve Cost** includes the amount of the estimated green project reserve that will be set aside for future maintenance and repairs.

9 **Estimated Green Project Reserve** includes the amount of the estimated green project reserve that will be set aside for future maintenance and repairs.

10 **Estimated Total Project Cost Reserve** includes the amount of the estimated total project cost reserve that will be set aside for future maintenance and repairs.

11 **Estimated Total Project Reserve** includes the amount of the estimated total project reserve that will be set aside for future maintenance and repairs.

12 **Estimated Total Project** includes the amount of the estimated total project that will be funded by the WWSRF Loan Program.
