

Background

The Opportunity Index includes measures of income, poverty, unemployment, and health within given areas and represents IHCD's attempt to assess the economic and wellness opportunities available to residents of proposed developments. This index directly connects to our vision for an Indiana with a sustainable quality of life for all Hoosiers in the community of their choice and is designed to provide access to affordable housing in all areas of the state.

Note: The categories of Access to post-secondary education and Access to employment will be determined on a case-by-case basis, according to the one-mile radius surrounding each proposed development and, therefore, the scores are not included in these maps.

An explanation and mapping visualization of the following Opportunity Index criteria are included at [this link](#) to our maps on the mySidewalk website:

- Census tracts at the top quartile of median income based upon the most recent data from the [US Census](#)
- Census tracts at the bottom quartile for poverty rate based upon the most recent data from the [US Census](#)
- Counties with unemployment rates below the State average based on data from [STATS Indiana](#)
- Counties with life expectancy above the State average of 76.5 based on data from the [2023 County Health Rankings](#)
- County ratios for population to primary care physicians as gathered from [County Health Rankings](#)
- The R/ECAP status of census tracts according to the [HUD R/ECAP site](#)

R/ECAP Map

The map provided at the [HUD R/ECAP site](#) indicates the R/ECAP status of all Indiana census tracts.

Following is a list of those census tracts which qualify as R/ECAPS.

Current R/ECAP Census Tracts

Allen 13	Elkhart 26
Allen 16	Elkhart 27
Allen 17	Lake 102.01
Allen 23	Lake 102.03
