INDIANA LONG TERM CARE INSURANCE PROGRAM

Statistical Summary

Period: April 1, 2012 – June 30, 2012

Report Prepared August 10, 2012

The Indiana Long Term Care Insurance Program (ILTCIP) is an innovative public/private partnership between the Indiana Medicaid Program and private long term care insurance companies, designed to help Indiana residents finance their potential long term care without fear of impoverishment. The Program began operation on May 17, 1993, with state approval of the first eight participating insurers. Actual marketing of Indiana Partnership policies by these companies began later that summer.

This report presents information for the quarter ending June 30, 2012, in the form of quarterly-specific and cumulative statistics since the Program's inception.

Highlights from this quarter include the following:

- **Policies purchased during this quarter were 297!**
- **Cumulatively, 63,710 applications have been submitted with over 52,823 policies purchased!**
- **Comprehensive policies continue to be the primary type of policy being purchased. For example, 100.00% of all policies purchased in Q2'12 were comprehensive while 0.00% were for nursing home only.**
- **Cumulatively, the number of comprehensive policies purchased has increased from 92.17% of all sales in (Q2'11) to 92.76% of all sales in (Q2'12).**
- **60% of policies purchased during Q2'12 qualify for Total Asset Protection. Cumulatively, 78.46% of all policies purchased qualify for Total Asset Protection.**
- **97.31% of all policies purchased have been by first time purchasers.**
- **The average age of policy purchasers is 60.6. Age range of purchasers is 18 to 89.**
- **Cumulatively, 75% of all policyholders were age 65 or under at the time of purchase.**
