

The mission of the Indiana Procurement Technical Assistance Center (IN PTAC) is to enhance national defense and economic development in the State of Indiana by assisting Hoosier businesses in obtaining and performing on federal, state and local government contracts. Put simply, IN PTAC helps companies identify, compete for, and win government contracts.

Administered by the Department of Defense, Defense Logistics Agency (DLA), the program provides matching funds through a cooperative agreement with the State of Indiana to provide procurement assistance. IN PTAC counselors help bridge the gap between buyer and supplier, bringing to bear our knowledge of both government contracting and the capabilities of contractors to maximize fast, reliable service with better quality and lower costs. Ensuring a broad base of capable suppliers for the defense industry and other agencies, increases competition, which supports better products and services at lower costs.
