

The designer shall provide to the Office of Environmental Services (OES) the following information for Rule 5 submittal processing:

- a signed cover letter identifying the project and stating this is a Rule 5 submittal,
- a completed Page 1 of the NOI application form,
- a half size set of the Construction Plans,
- a half size set of Storm Water Prevention Plans (storm water prevention plans can be a part of the construction plans),
- erosion control elements in the plan shall be highlighted, and
- provide all information as outlined on the checklist (see Appendix J6).
