

Right-of-Way Plan Development Class

The Right of Way Plan Development Class is set for Tuesday, June 14th.

The class will be held from 9:00am to 12:00pm (noon) in IGCS Conference Room B. This classroom has a capacity of 100 attendees.

There will also be an optional “Hands on LRS Assistance” for those interested in brushing up or becoming more acquainted with our Land Records System. This will provide assistance for both INDOT and LPA projects and is scheduled to take place in the North Tower of the Government Center at the 9th Floor Training Room and run from 1:00-4:00pm. This portion will operate more like an “open house” event, thus allowing those attending to ask a few specific questions, or remain for a longer period should they be new to the system.

We are sending out an advertisement in a Newsletter format to our consultants, but it may be beneficial to utilize other means if you should have any suggestions.

Donald R. West, PS
