HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

Fair 9.6

The proposed highway from Bloomington to Evansville, using new roadways, would take the homes, land, and farms of many citizens.

This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

We call upon public officials to support appropriate road improvements that will preserve rural environments.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

M.C. Fair 2004

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

MC Fair 2001

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

Citizens threatened with loss of homes and land !

A plea for public hearings

Indiana taxpayers' money is now being spent for a 4-lane, limited-access highway from Bloomington to Newberry to Evansville despite a 1990 federal study which concluded that this route, as well as other routes, is not economically feasible.

The proposed routes will take the homes, land, and farms of many citizens in Monroe and Greene Counties, but public hearings on the impact of these routes have not been held in these counties.

WE, THE UNDERSIGNED, ASK THAT ALL EXPENDITURES OF TAXPAYER MONEY FOR THIS HIGHWAY BE STOPPED IMMEDIATELY. WE FURTHER ASK THAT PUBLIC HEARINGS BE HELD IN ALL THE AFFECTED COUNTIES BEFORE SPENDING IS RESUMED.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

Citizens threatened with loss of homes and land !

A plea for public hearings

Indiana taxpayers' money is now being spent for a 4-lane, limited-access highway from Bloomington to Newberry to Evansville despite a 1990 federal study which concluded that this route, as well as other routes, is not economically feasible.

The proposed routes will take the homes, land, and farms of many citizens in Monroe and Greene Counties, but public hearings on the impact of these routes have not been held in these counties.

WE THE UNDERSIGNED ASK THAT ALL EXPENDITURES OF TAXPAYER MONEY FOR THIS HIGHWAY BE STOPPED IMMEDIATELY. WE FURTHER ASK THAT PUBLIC HEARINGS BE HELD IN ALL THE AFFECTED COUNTIES BEFORE SPENDING IS RESUMED.

Citizens threatened with loss of homes and land !

A plea for public hearings

Indiana taxpayers' money is now being spent for a 4-lane, limited-access highway from Bloomington to Newberry to Evansville despite a 1990 Federal study which concluded that this route, as well as other routes, is not economically feasible.

The proposed routes will take the homes, land, and farms of many citizens in Monroe and Greene Counties, but public hearings on the impact of these routes have not been held in these counties.

WE THE UNDERSIGNED ASK THAT ALL EXPENDITURES OF TAXPAYER MONEY FOR THIS HIGHWAY BE STOPPED IMMEDIATELY. WE FURTHER ASK THAT PUBLIC HEARINGS BE HELD IN ALL THE AFFECTED COUNTIES BEFORE SPENDING IS RESUMED.

Citizens threatened with loss of homes and land !

A plea for public hearings

Indiana taxpayers' money is now being spent for a 4-lane, limited-access highway from Bloomington to Newberry to Evansville despite a 1990 federal study which concluded that this route, as well as other routes, is not economically feasible.

The proposed routes will take the homes, land, and farms of many citizens in Monroe and Greene Counties, but public hearings on the impact of these routes have not been held in these counties.

WE THE UNDERSIGNED ASK THAT ALL EXPENDITURES OF TAXPAYER MONEY FOR THIS HIGHWAY BE STOPPED IMMEDIATELY. WE FURTHER ASK THAT PUBLIC HEARINGS BE HELD IN ALL THE AFFECTED COUNTIES BEFORE SPENDING IS RESUMED.

HEC Hoosier Environmental Council ACTION FUND

With my signature and donation I support the Hoosier Environmental Council Action Fund and my fellow citizens in supporting the wise use of our limited tax dollars for transportation. Accordingly I reject the proposed I-69 Draft Environmental Impact Statement which fails to consider reasonable alternatives which will save taxpayers money and preserve rural communities as well as natural areas.

I support the study and selection of more efficient, less damaging alternatives to the proposed I-69 extension from Indianapolis to Evansville, such as upgrading US 41 to interstate standards, and emphasizing maintaining and upgrading our existing roads, revitalizing energy efficient rail service, and improving other modes of transportation.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

Earth Day 2000

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

Owen County Fair 2000

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

Courtney Day Sunday. 2001

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

I-69 Public Meetings
Draft Purpose and Need Statement
May 7 - 9, 2001

Indiana Department of Transportation
I-69 Evansville to Indianapolis
Tier 1 Environmental Impact Statement (EIS)

Owen County Fair

Thank you for your interest in the I-69, Evansville to Indianapolis Study. This form is provided to allow you to give comments to INDOT and its consultants.

We have published for public comment a Draft Purpose and Need (P & N) Statement. This Purpose and Need Statement will become a chapter in the Draft Environmental Impact Statement (EIS) for this project, which will be published in 2002.

The Purpose and Need Statement is an important foundation of the EIS. It identifies the transportation, economic, and National I-69 needs in the project study area. It also proposes goals and evaluation criteria to identify how well alternative routes would satisfy those needs.

We invite your comments on the Draft Purpose and Need Statement.

PLEASE ENTER YOUR COMMENTS BELOW. USE THE REVERSE SIDE, IF NECESSARY. YOU MAY GIVE YOUR NAME, BUT IT IS NOT REQUIRED.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

MCFri 2000

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

MC Fair 2000

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

MC Fair 2050

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

Sunshine Gardens 6-2000

INDOT meeting 6-2000

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.
THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

STOP HIGHWAY ROBBERY!

✓ Owen Co Fair 2002

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

Elkhart IN 2002

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

2007 AM Daviess Co.

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

Eiden 2004

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

STOP HIGHWAY ROBBERY!

EA047 #04 06

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

MC Fair 2005

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
~~STOP~~ HIGHWAY ROBBERY!

MC Fair 2005

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

Earth Day Indy '05

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

Sec 6

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

MC Fair '07

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

Morgan Co Fair ✓

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

MC 7th

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

HELP SAVE OUR RURAL LANDS
STOP HIGHWAY ROBBERY!

8-9/02

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.

The proposed highway from Indianapolis to Evansville, using new roadways, would take the homes, land and farms of many citizens. This highway would place an unacceptable tax burden on small communities and would be extremely damaging to the environment. We call upon public officials to support appropriate road improvements that will preserve rural environments.

THEREFORE, WE THE UNDERSIGNED REJECT THIS PROPOSED HIGHWAY.
