PRESERVE PRECIOUS FARMLAND
and
SAVE HUNDREDS OF MILLIONS OF TAXPAYER DOLLARS

HEC Hoosier Environmental Council
ACTION FUND

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund's efforts to replace the proposed new-terrain I-69 extension by upgrading US 41 to interstate standards and using existing I-70. The US 41/I-70 alternative will save hundreds of millions of taxpayer dollars that can be used to upgrade and repair existing highways and to bring rail transit back to Indiana, save thousands of acres of prime farmland and forest, and protect existing jobs in Terre Haute and Vincennes and the property rights of farmers.

STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund's efforts to replace the proposed new-terrain I-69 extension by upgrading US 41 to interstate standards and using existing I-70. The US 41/I-70 alternative will save hundreds of millions of taxpayer dollars that can be used to upgrade and repair existing highways and to bring rail transit back to Indiana, save thousands of acres of prime farmland and forest, and protect existing jobs in Terre Haute and Vincennes and the property rights of farmers.

PRESERVE PRECIOUS FARMLAND
and
SAVE HUNDREDS OF MILLIONS OF TAXPAYER DOLLARS

HEC Hoosier Environmental Council
ACTION FUND

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund's efforts to replace the proposed new-terrain I-69 extension by upgrading US 41 to interstate standards and using existing I-70. The US 41/I-70 alternative will save hundreds of millions of taxpayer dollars that can be used to upgrade and repair existing highways and to bring rail transit back to Indiana, save thousands of acres of prime farmland and forest, and protect existing jobs in Terre Haute and Vincennes and the property rights of farmers.

HECAF Rep: Steve Jackson City: Indianapolis Date: May 19, 1999

PRESERVE PRECIOUS FARMLAND
and
SAVE HUNDREDS OF MILLIONS OF TAXPAYER DOLLARS

HEC Hoosier Environmental Council
ACTION FUND

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund's efforts to replace the proposed new-terrain I-69 extension by upgrading US 41 to interstate standards and using existing I-70. The US 41/I-70 alternative will save hundreds of millions of taxpayer dollars that can be used to upgrade and repair existing highways and to bring rail transit back to Indiana, save thousands of acres of prime farmland and forest, and protect existing jobs in Terre Haute and Vincennes and the property rights of farmers.

PRESERVE PRECIOUS FARMLAND
and
SAVE HUNDREDS OF MILLIONS OF TAXPAYER DOLLARS

HEC Hoosier Environmental Council ACTION FUND

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund's efforts to replace the proposed new-terrain I-69 extension by upgrading US 41 to interstate standards and using existing I-70. The US 41/I-70 alternative will save hundreds of millions of taxpayer dollars that can be used to upgrade and repair existing highways and to bring rail transit back to Indiana, save thousands of acres of prime farmland and forest, and protect existing jobs in Terre Haute and Vincennes and the property rights of farmers.

SMART GROWTH FOR INDIANA
SAVING FARMS AND FORESTS WHILE MAKING CITIES LIVABLE

HEC Hoosier Environmental Council ACTION FUND

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the HECAF's efforts to convince Governor O'Bannon to choose the Interstate 70/US 41 alternative to the new-terrain I-69 highway and an Indiana Smart Growth Policy that limits suburban sprawl and redirects tax subsidies to areas that are already developed.

FROM: THE CITIZENS OF INDIANA

HEC Hoosier Environmental Council ACTION FUND

With my signature and donation I support the Hoosier Environmental Council Action Fund and my fellow citizens in supporting the wise use of our limited tax dollars for transportation. Accordingly I reject the proposed I-69 Draft Environmental Impact Statement which fails to consider reasonable alternatives which will save taxpayers money and preserve rural communities as well as natural areas.

I support the study and selection of more efficient, less damaging alternatives to the proposed I-69 extension from Indianapolis to Evansville, such as upgrading US 41 to interstate standards, and emphasizing maintaining and upgrading our existing roads, revitalizing energy efficient rail service, and improving other modes of transportation.

FROM: THE CITIZENS OF INDIANA

HEC Hoosier Environmental Council ACTION FUND

With my signature and donation I support the Hoosier Environmental Council Action Fund and my fellow citizens in supporting the wise use of our limited tax dollars for transportation. Accordingly I reject the proposed I-69 Draft Environmental Impact Statement which fails to consider reasonable alternatives which will save taxpayers money and preserve rural communities as well as natural areas.

I support the study and selection of more efficient, less damaging alternatives to the proposed I-69 extension from Indianapolis to Evansville, such as upgrading US 41 to interstate standards, and emphasizing maintaining and upgrading our existing roads, revitalizing energy efficient rail service, and improving other modes of transportation.

HEC
Hoosier Environmental Council
ACTION FUND

PRESERVE PRECIOUS FARMLAND
and
SAVE HUNDREDS OF MILLIONS OF TAXPAYER DOLLARS

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund in their effort to preserve thousands of acres of prime farmland and forests and save taxpayers hundreds of millions of dollars by using existing I-70 and upgrading US 41 to interstate standards as the **Conservationist Alternative** to the controversial I-69 proposal.

We oppose the porkbarrel new-terrain I-69 and strongly urge our elected officials to support the **Conservationist Alternative** which saves natural resources and tax dollars that should be spent on fixing the roads we have and bringing rail transit back to Indiana.

PRESERVE PRECIOUS FARMLAND
and
SAVE HUNDREDS OF MILLIONS OF TAXPAYER DOLLARS

HEC Hoosier Environmental Council
ACTION FUND

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund's efforts to replace the proposed new-terrain I-69 extension by upgrading US 41 to interstate standards and using existing I-70. The US 41/I-70 alternative will save hundreds of millions of taxpayer dollars that can be used to upgrade and repair existing highways and to bring rail transit back to Indiana, save thousands of acres of prime farmland and forest, and protect existing jobs in Terre Haute and Vincennes and the property rights of farmers.

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund in their effort to preserve thousands of acres of prime farmland and forests and save taxpayers hundreds of millions of dollars by using existing I-70 and upgrading US 41 to interstate standards as the **Conservationist Alternative** to the controversial I-69 proposal.

We oppose the porkbarrel new-terrain I-69 and strongly urge our elected officials to support the **Conservationist Alternative** which saves natural resources and tax dollars that should be spent on fixing the roads we have and bringing rail transit back to Indiana.

HEC Hoosier Environmental Council
ACTION FUND

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund's efforts to replace the proposed new-terrain I-69 extension by upgrading US 41 to interstate standards and using existing I-70. The US 41/I-70 alternative will save hundreds of millions of taxpayer dollars that can be used to upgrade and repair existing highways and to bring rail transit back to Indiana, save thousands of acres of prime farmland and forest, and protect existing jobs in Terre Haute and Vincennes and the property rights of farmers.

PRESERVE PRECIOUS FARMLAND
and
SAVE HUNDREDS OF MILLIONS OF TAXPAYER DOLLARS

HEC Hoosier Environmental Council
ACTION FUND

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund's efforts to replace the proposed new-terrain I-69 extension by upgrading US 41 to interstate standards and using existing I-70. The US 41/I-70 alternative will save hundreds of millions of taxpayer dollars that can be used to upgrade and repair existing highways and to bring rail transit back to Indiana, save thousands of acres of prime farmland and forest, and protect existing jobs in Terre Haute and Vincennes and the property rights of farmers.

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund in their effort to preserve thousands of acres of prime farmland and forests and save taxpayers hundreds of millions of dollars by using existing I-70 and upgrading US 41 to interstate standards as the **Conservationist Alternative** to the controversial I-69 proposal.

We oppose the porkbarrel new-terrain I-69 and strongly urge our elected officials to support the **Conservationist Alternative** which saves natural resources and tax dollars that should be spent on fixing the roads we have and bringing rail transit back to Indiana.

PRESERVE PRECIOUS FARMLAND
and
SAVE HUNDREDS OF MILLIONS OF TAXPAYER DOLLARS

HEC Hoosier Environmental Council
ACTION FUND

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund's efforts to replace the proposed new-terrain I-69 extension by upgrading US 41 to interstate standards and using existing I-70. The US 41/I-70 alternative will save hundreds of millions of taxpayer dollars that can be used to upgrade and repair existing highways and to bring rail transit back to Indiana, save thousands of acres of prime farmland and forest, and protect existing jobs in Terre Haute and Vincennes and the property rights of farmers.

STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund's efforts to replace the proposed new-terrain I-69 extension by upgrading US 41 to interstate standards and using existing I-70. The US 41/I-70 alternative will save hundreds of millions of taxpayer dollars that can be used to upgrade and repair existing highways and to bring rail transit back to Indiana, save thousands of acres of prime farmland and forest, and protect existing jobs in Terre Haute and Vincennes and the property rights of farmers.

With my signature and donation, I support the Hoosier Environmental Council Action Fund's efforts to replace the proposed new-terrain I-69 extension by upgrading US 41 to interstate standards and using existing I-70. The US 41/I-70 alternative will save hundreds of millions of taxpayer dollars that can be used to upgrade and repair existing highways and to bring rail transit back to Indiana, save thousands of acres of prime farmland and forest, and protect existing jobs in Terre Haute and Vincennes and the property rights of farmers.

With my signature and donation, I support the Hoosier Environmental Council Action Fund in their effort to preserve thousands of acres of prime farmland and forests and save taxpayers hundreds of millions of dollars by using existing I-70 and upgrading US 41 to interstate standards as the **Conservationist Alternative** to the controversial I-69 proposal.

We oppose the porkbarrel new-terrain I-69 and strongly urge our elected officials to support the **Conservationist Alternative** which saves natural resources and tax dollars that should be spent on fixing the roads we have and bringing rail transit back to Indiana.

HEC Hoosier Environmental Council
ACTION FUND

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund's efforts to replace the proposed new-terrain I-69 extension by upgrading US 41 to interstate standards and using existing I-70. The US 41/I-70 alternative will save hundreds of millions of taxpayer dollars that can be used to upgrade and repair existing highways and to bring rail transit back to Indiana, save thousands of acres of prime farmland and forest, and protect existing jobs in Terre Haute and Vincennes and the property rights of farmers.

PRESERVE PRECIOUS FARMLAND
and
SAVE HUNDREDS OF MILLIONS OF TAXPAYER DOLLARS

HEC Hoosier Environmental Council
ACTION FUND

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund's efforts to replace the proposed new-terrain I-69 extension by upgrading US 41 to interstate standards and using existing I-70. The US 41/I-70 alternative will save hundreds of millions of taxpayer dollars that can be used to upgrade and repair existing highways and to bring rail transit back to Indiana, save thousands of acres of prime farmland and forest, and protect existing jobs in Terre Haute and Vincennes and the property rights of farmers.

PRESERVE PRECIOUS FARMLAND
and
SAVE HUNDREDS OF MILLIONS OF TAXPAYER DOLLARS

HEC Hoosier Environmental Council
ACTION FUND

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund's efforts to replace the proposed new-terrain I-69 extension by upgrading US 41 to interstate standards and using existing I-70. The US 41/I-70 alternative will save hundreds of millions of taxpayer dollars that can be used to upgrade and repair existing highways and to bring rail transit back to Indiana, save thousands of acres of prime farmland and forest, and protect existing jobs in Terre Haute and Vincennes and the property rights of farmers.

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund's efforts to replace the proposed new-terrain I-69 extension by upgrading US 41 to interstate standards and using existing I-70. The US 41/I-70 alternative will save hundreds of millions of taxpayer dollars that can be used to upgrade and repair existing highways and to bring rail transit back to Indiana, save thousands of acres of prime farmland and forest, and protect existing jobs in Terre Haute and Vincennes and the property rights of farmers.

SAVE HUNDREDS OF MILLIONS OF TAXPAYER DOLLARS

HEC Hoosier Environmental Council
ACTION FUND

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund's efforts to replace the proposed new-terrain I-69 extension by upgrading US 41 to interstate standards and using existing I-70. The US 41/I-70 alternative will save hundreds of millions of taxpayer dollars that can be used to upgrade and repair existing highways and to bring rail transit back to Indiana, save thousands of acres of prime farmland and forest, and protect existing jobs in Terre Haute and Vincennes and the property rights of farmers.

Hoosier Environmental Council
ACTION FUND

TO: GOVERNOR FRANK O'BANNON AND THE INDIANA GENERAL ASSEMBLY

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the **Hoosier Environmental Council Action Fund's** work to protect Indiana's groundwater, surface water and/or drinking water. Our state policy makers should ensure that Indiana has the highest possible water quality standards that accomplish the following:

* Maintains Indiana's water quality standards at a level that results in our state's streams, rivers, and lakes being fishable and swimmable and oppose such legislation as **SB 296** that will not protect these uses.

* Establish a moratorium on new factory livestock operations that contain more than 300 cattle, 600 hogs, and 1200 poultry until the state adopts strong groundwater quality standards.

* Protect water quality by prohibiting unregulated disposal of waste including Coal Combustion Waste.

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund's efforts to replace the proposed new-terrain I-69 extension by upgrading US 41 to interstate standards and using existing I-70. The US 41/I-70 alternative will save hundreds of millions of taxpayer dollars that can be used to upgrade and repair existing highways and to bring rail transit back to Indiana, save thousands of acres of prime farmland and forest, and protect existing jobs in Terre Haute and Vincennes and the property rights of farmers.

ACTION FUND

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund's efforts to replace the proposed new-terrain I-69 extension by upgrading US 41 to Interstate standards and using existing I-70. The US 41/I-70 alternative will save hundreds of millions of taxpayer dollars that can be used to upgrade and repair existing highways and to bring rail transit back to Indiana, save thousands of acres of prime farmland and forest, and protect existing jobs in Terre Haute and Vincennes and the property rights of farmers.

HECAF Rep: Brian Wolfe City: Cicero Date: 12/10/98

PRESERVE PRECIOUS FARMLAND
and
SAVE HUNDREDS OF MILLIONS OF TAXPAYER DOLLARS

HEC Hoosier Environmental Council
ACTION FUND

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund's efforts to replace the proposed new-terrain I-69 extension by upgrading US 41 to interstate standards and using existing I-70. The US 41/I-70 alternative will save hundreds of millions of taxpayer dollars that can be used to upgrade and repair existing highways and to bring rail transit back to Indiana, save thousands of acres of prime farmland and forest, and protect existing jobs in Terre Haute and Vincennes and the property rights of farmers.

STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the HECAF's efforts to convince Governor O'Bannon to choose the Interstate 70/US 41 alternative to the new-terrain I-69 highway and an Indiana Smart Growth Policy that limits suburban sprawl and redirects tax subsidies to areas that are already developed.

PRESERVE PRECIOUS FARMLAND
and
SAVE HUNDREDS OF MILLIONS OF TAXPAYER DOLLARS

HEC Hoosier Environmental Council
ACTION FUND

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund's efforts to replace the proposed new-terrain I-69 extension by upgrading US 41 to interstate standards and using existing I-70. The US 41/I-70 alternative will save hundreds of millions of taxpayer dollars that can be used to upgrade and repair existing highways and to bring rail transit back to Indiana, save thousands of acres of prime farmland and forest, and protect existing jobs in Terre Haute and Vincennes and the property rights of farmers.

STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the HECAF's efforts to convince Governor O'Bannon to choose the Interstate 70/US 41 alternative to the new-terrain I-69 highway and an Indiana Smart Growth Policy that limits suburban sprawl and redirects tax subsidies to areas that are already developed.

PRESERVE PRECIOUS FARMLAND
and
SAVE HUNDREDS OF MILLIONS OF TAXPAYER DOLLARS

HEC Hoosier Environmental Council
ACTION FUND

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund's efforts to replace the proposed new-terrain I-69 extension by upgrading US 41 to interstate standards and using existing I-70. The US 41/I-70 alternative will save hundreds of millions of taxpayer dollars that can be used to upgrade and repair existing highways and to bring rail transit back to Indiana, save thousands of acres of prime farmland and forest, and protect existing jobs in Terre Haute and Vincennes and the property rights of farmers.

SMART GROWTH FOR INDIANA
SAVING FARMS AND FORESTS WHILE MAKING CITIES LIVABLE

HEC Hoosier Environmental Council ACTION FUND

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the HECAF's efforts to convince Governor O'Bannon to choose the Interstate 70/US 41 alternative to the new-terrain I-69 highway and an Indiana Smart Growth Policy that limits suburban sprawl and redirects tax subsidies to areas that are already developed.

PRESERVE PRECIOUS FARMLAND
and
SAVE HUNDREDS OF MILLIONS OF TAXPAYER DOLLARS

HEC Hoosier Environmental Council ACTION FUND

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund's efforts to replace the proposed new-terrain I-69 extension by upgrading US 41 to interstate standards and using existing I-70. The US 41/I-70 alternative will save hundreds of millions of taxpayer dollars that can be used to upgrade and repair existing highways and to bring rail transit back to Indiana, save thousands of acres of prime farmland and forest, and protect existing jobs in Terre Haute and Vincennes and the property rights of farmers.

SMART GROWTH FOR INDIANA
SAVING FARMS AND FOREST WHILE MAKING CITIES LIVABLE

HEC Hoosier Environmental Council ACTION FUND

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the HECAF's efforts to convince Governor O'Bannon to choose the Interstate 70/US 41 alternative to the new-terrain I-69 highway and an Indiana Smart Growth Policy that limits suburban sprawl and redirects tax subsidies to areas that are already developed.

and
SAVE HUNDREDS OF MILLIONS OF TAXPAYER DOLLARS

HEC Hoosier Environmental Council
ACTION FUND

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund's efforts to replace the proposed new-terrain I-69 extension by upgrading US 41 to interstate standards and using existing I-70. The US 41/I-70 alternative will save hundreds of millions of taxpayer dollars that can be used to upgrade and repair existing highways and to bring rail transit back to Indiana, save thousands of acres of prime farmland and forest, and protect existing jobs in Terre Haute and Vincennes and the property rights of farmers.

PRESERVE PRECIOUS FARMLAND
and
SAVE HUNDREDS OF MILLIONS OF TAXPAYER DOLLARS

HEC Hoosier Environmental Council
ACTION FUND

TO: GOVERNOR FRANK O'BANNON and
STATE AND FEDERAL SENATORS AND REPRESENTATIVES

FROM: THE CITIZENS OF INDIANA

With my signature and donation, I support the Hoosier Environmental Council Action Fund's efforts to replace the proposed new-terrain I-69 extension by upgrading US 41 to interstate standards and using existing I-70. The US 41/I-70 alternative will save hundreds of millions of taxpayer dollars that can be used to upgrade and repair existing highways and to bring rail transit back to Indiana, save thousands of acres of prime farmland and forest, and protect existing jobs in Terre Haute and Vincennes and the property rights of farmers.
