## Report on the Schedules

We have audited the accompanying Schedule of Non-Employer Allocation of the Indiana Public Retirement System Teachers' Pre-1996 Defined Benefit Account (Plan) as of and for the years ended June 30, 2020 and 2019 and the related Notes. We have also audited the total for all entities of the columns titled beginning net pension liability, ending net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense (specified non-employer column totals) included in the accompanying Schedule of Non-Employer Pension Amounts of the System as of and for the year ended June 30, 2020 and the related notes. We have also audited the Schedule of Employer Allocation of Special Funding Situation Pension Amounts of the Plan, including the weighted proportionate share factor and the total for all entities of the columns titled employer's share of nonemployer contributing entity contributions, employer's share of pension expense, and net pension liability associated with employer (specified special funding situation column totals) included in the Schedule of Employer Allocation of Special Funding Situation Pension Amounts as of and for the year ended June 30, 2020, and the related notes, collectively the Schedules (Schedules).

## Management's Responsibility for the Schedules

Management is responsible for the preparation and fair presentation of these Schedules in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the Schedules that are free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility

Our responsibility is to express opinions on the Schedule of Non-Employer Allocation, the specified nonemployer column totals included in the Schedule of Non-employer Pension Amounts and the Schedule of Employer Allocation of Special Funding Situation Pension Amounts, including the weighted proportionate share factor and the specified special funding situation column totals included in the Schedule of Employer Allocation of Special Funding Situation Pension Amounts based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Schedule of Non-Employer Allocation, the specified non-employer column totals included in the Schedule of Non-employer Pension Amounts and the Schedule of Employer Allocation of Special Funding Situation Pension Amounts, including the weighted proportionate share factor and the specified special funding situation column totals included in the Schedule of Employer Allocation of Special Funding Situation Pension Amounts are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Schedule of Non-Employer Allocation, the specified non-employer column totals included in the Schedule of Non-employer Pension Amounts and the Schedule of Employer Allocation of Special Funding Situation Pension Amounts, including the weighted proportionate share factor and the specified special funding situation column totals included in the Schedule of Employer Allocation of Special Funding Situation Pension Amounts. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Schedule of Non-Employer Allocation, the specified non-employer column totals included in the Schedule of Non-employer Pension
amounts and the Schedule of Employer Allocation of Special Funding Situation Pension Amounts, including the weighted proportionate share factor and the specified special funding situation column totals included in the Schedule of Employer Allocation of Special Funding Situation Pension Amounts, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the Schedule of Non-Employer Allocation, the specified non-employer column totals included in the Schedule of Non-employer Pension Amounts and the Schedule of Employer Allocation of Special Funding Situation Pension Amounts, including the weighted proportionate share factor and the specified special funding situation column totals included in the Schedule of Employer Allocation of Special Funding Situation Pension Amounts in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the Schedule of Non-Employer Allocation, the specified non-employer column totals included in the Schedule of Non-employer Pension Amounts and the Schedule of Employer Allocation of Special Funding Situation Pension Amounts, including the weighted proportionate share factor and the specified special funding situation column totals included in the Schedule of Employer Allocation of Special Funding Situation Pension Amounts.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Opinions

In our opinion, the Schedules referred to above present fairly, in all material respects, the non-employer allocation as of and for the years ended June 30, 2020 and 2019, and the total for the non-employer entity of the columns titled beginning net pension liability, ending net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense included in the accompanying Schedule of Non-Employer Pension Amounts as of and for the year ended June 30, 2020 and the employer allocation, by weighted proportionate share factor as of and for the year ended June 30, 2020 and the total for the employer entities of the columns titled employer's share of the total nonemployer contributing entity contributions, total employer's share of pension expense, and total net pension liability associated with employer included in the accompanying Schedule of Employer Allocation of Special Funding Situation Pension Amounts as of and for the year ended June 30, 2020, in accordance with accounting principles generally accepted in the United States of America.

## Other Matters

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of the Indiana Public Retirement System as of and for the year ended June 30, 2020, and our report thereon, dated December 10, 2020, expressed an unmodified opinion on those financial statements.

## Restriction on Use

Our report is intended solely for the information and use of the management and the Board of Trustees of Indiana Public Retirement System, and System employers and their auditors and is not intended to be, and should not be, used by anyone other than these specified parties.

# Indiana Public Retirement System 

Teachers' Pre-1996 Defined Benefit Account
Notes to the Schedules of Non-Employer Allocation and Non-Employer Pension Amounts and Employer Allocation of Special Funding Situation Pension Amounts
Year Ended June 30, 2020

## Summary

The purpose of this report is to provide the non-employer contributing entity and the participating employers of the Teachers' Pre-1996 Defined Benefit Account Plan the information needed for their financial statements as it relates to reporting for GASB Statement No. 68. As of the measurement date, the Schedule of Non-Employer Allocation and Non-Employer Pension Amounts provide the non-employer contributing entity with its proportionate share of the collective net pension liability, collective deferred outflows and inflows of resources, and collective pension expense. The collective net pension liability as of the previous measurement date is provided as a beginning balance. Collective deferred outflows and inflows of resources, and collective pension expense include the non-employer contributing entity's proportionate share of plan level amounts such as differences between expected and actual experience, the net difference between projected and actual investment earnings on pension plan investments and changes in assumptions. Additionally, the Schedule of Employer Allocation of Special Funding Situation Pension Amounts provide the participating employers with the amount of the non-employer contributing entity's net pension liability, collective pension expense and non-employer contributions associated with each participating employer.

## Plan Description

The Teachers' Pre-1996 Defined Benefit Account (Plan) is a pay-as-you-go, cost-sharing, multipleemployer defined benefit pension plan administered by the Indiana Public Retirement System (INPRS). Membership is closed to new entrants. For additional details about this plan, refer to Note 1 - Descriptions of System and Funds in the Comprehensive Annual Financial Report located on the System's webpage.

## Basis of Presentation

The Schedule of Employer Allocation of Special Funding Situation Pension Amounts present amounts that are elements of the financial statements of the Plan or of its participating employers and the State of Indiana as a non-employer contributing entity. Accordingly, it does not to be a complete presentation of the financial position or changes in financial position of the Plan or its participating employers or the State of Indiana. The accompanying Schedule was prepared in accordance with accounting principles generally accepted in the United States of America. Such preparation requires management of INPRS to make several estimates and assumptions related to the reported amounts. Due to the inherent nature of these estimates, actual results could differ from those estimates.

## Special Funding Situation

GASB Statement No. 68 states that special funding situations are defined as circumstances in which a nonemployer entity is legally responsible for making contributions directly to a pension plan that is used to provide pensions to the employees of another entity or entities and the amount of contribution is not dependent upon one or more events unrelated to pensions. Based on this definition, the Plan does have a special funding situation, as the State of Indiana, is a non-employer contributing entity legally responsible for making contributions that are used to provide pension benefits to members of the pension plan on-behalf of the Plan's participating employers. The non-employer Contributing Entity's contributions are appropriated to cover the State's actuarial liability for each member covered by the Teachers' Pre-1996 Defined Benefit Account by the State of Indiana in accordance with IC 5-10.4-2-4. Contributions from a participating employer may occur in specific cases when an active member is paid from federal funds. These contributions are based on a rate which was estimated to be the normal cost for the period covered and all future contributions toward pension benefits are the responsibility of the non-employer contributing entity.

## Teachers' Pre-1996 Defined Benefit Account <br> Notes to the Schedules of Non-Employer Allocation and Non-Employer Pension Amounts and Employer Allocation of Special Funding Situation Pension Amounts <br> Year Ended June 30, 2020

## Special Funding Situation (Continued)

Due to the fact that participating employers do not contribute directly to the past unfunded liability of the Plan, there is no actuarially measured net pension liability, deferred outflows of resources or deferred inflows of resources to report on the participating employers' respective financial statements. However, the notes to the financial statements must disclose the portion of the non-employer contributing entity's total proportionate share of the collective net pension liability associated with them as an employer in the Plan. In addition, each employer must recognize their share of pension expense as well as revenue in an amount equal to the non-employer contributing entity's total proportionate share of the collective pension expense associated with the employer.

## Basis of Allocation

## Non-employer:

In determining the proportionate share of the net pension liability and corresponding pension amounts for a cost-sharing plan, the basis should be consistent with the manner in which contributions to the Plan are determined, excluding those to separately finance specific liabilities of an individual employer. The System has determined that the actual contributions made to the Plan during the fiscal year are appropriate as they are representative of future contributions.

## Special Funding Situation:

The basis to determine participating employer's proportionate share of the various pension related amounts associated with the Special Funding Situation is a weighted calculation using a combination of wages reported by employers relative to the collective wages of the Plan, and benefits paid to retirees of employers relative to total benefits paid by the Plan. The weighted calculation is determined by the non-retirees and retirees respective of net pension liabilities as reported by the actuary based on the Plan's census data as of 2020. This method provides a more equitable distribution between employers with active employees and employers with no active employees of the pension amounts. For 2020 the weighted calculation is $28.3 \%$ for wages and $71.7 \%$ for benefits paid.

## Collective Net Pension Liability

The components of the collective net pension liability of the non-employer contributing entity at June 30, 2020 are as follows:

> Total pension liability
> Plan fiduciary net position
> Net pension liability

| 2020 |  |
| ---: | ---: |
| $\$$ | $13,968,702,829$ |
|  | $3,661,150,972$ |
| $\$$ | $10,307,551,857$ |

## Actuarial Assumptions

The collective total pension liability for the June 30, 2020 measurement date was determined by actuarial valuations as of June 30, 2020, and based on the assumptions utilized at the time of the valuations as reported within the System's Comprehensive Annual Financial Report (Annual Report) as of June 30, 2020. For details, please refer to Note 8 of the System's June 30, 2020 Annual Report, which can be found on the INPRS website at:
https://www.in.gov/inprs/annualreports.htm

## Actuarial Assumptions (Continued)

As a result of the 2014-2019 Experience Study completed in February 2020, there were changes to many assumptions from the June 30, 2019 valuation made in 2020. Details concerning the Experience Study on the INPRS webpage can be found at:
https://www.in.gov/inprs/files/INPRSExperienceStudy 2020.pdf
Actuarial Assumptions that changed which impact the liability are as follows:

- The future salary increase assumption changed from a table ranging from 2.50 percent to 12.50 percent to a table ranging from $2.75 \%$ to $12.00 \%$.
- The mortality assumption changed from the RP-2014 White Collar Mortality Table with Social Security Administration generational projection scale from 2006 to the Pub-2010 Public Retirement Plans Mortality Tables with a fully generational projection of mortality improvements using SOA Scale MP-2019. Specific mortality table variants and adjustments are used for different subpopulations.
- The retirement assumption was updated based on recent experience and was updated from an age-based table split by regular retirement, rule of 85 retirement, and early retirement to an agebased table dependent on eligibility for a reduced benefit or unreduced benefit. Additionally, for actives who are eligible for early retirement (reduced benefit), $30 \%$ are now assumed to commence benefits immediately and $70 \%$ are assumed to commence benefits at unreduced retirement eligibility. Previously, all active retirements were assumed to commence benefits immediately.
- The termination assumption was updated based on recent experience. The age-based table and service-based tables which were used previously were replaced by one service-based table.
- The disability assumption was updated based on recent experience.
- The marital assumption was updated based on recent experience. 80\% of male members and $75 \%$ of female members are assumed to be married or to have a dependent beneficiary. Previously, 100\% of members were assumed to be married or to have a dependent beneficiary. Additionally, for female members, the assumption for their spouse's age changed from 2 years older to 3 years older.
- The load placed on the final average earnings to account for additional wages received upon termination, such as severance pay or unused sick leave, decreased from $\$ 400$ to $\$ 200$.

The following major assumptions remain the same after the experience study:

- Funding at a long-term rate of return of 6.75\%, net of administrative and investment expenses.
- Inflation at 2.25\% per year.
- Cost of Living Increases: A service based $13^{\text {th }}$ check will be paid in the 2020 and 2021 fiscal years. Thereafter, the following COLAs, compounded annually, are assumed: 0.4\% beginning on January 1, 2022, 0.5\% beginning on January 1, 2034, and 0.6\% on January 1, 2039.

## Teachers' Pre-1996 Defined Benefit Account <br> Notes to the Schedules of Non-Employer Allocation and Non-Employer Pension Amounts and Employer Allocation of Special Funding Situation Pension Amounts Year Ended June 30, 2020

## Actuarial Assumptions (Continued)

The changes in the collective net pension liability for June 30, 2020 are calculated as set forth in the following table:

Net pension liability - beginning

| June 30, 2020 |  |
| ---: | ---: |
| $\$ \quad 10,630,018,922$ |  |
|  | $538,944,742$ |
|  | $35,462,818$ |
|  | $76,613,305$ |
|  | $(971,132,000)$ |
|  | $(2,355,930)$ |
| $\$ \quad 10,307,551,857$ |  |

## Amortization of Collective Deferred Outflows and Inflows of Resources

Annual changes to the net pension liability (asset) resulting from differences between expected and actual experience with regard to economic and demographic factors, and from changes of assumptions about future economic or demographic factors or other inputs are deferred and amortized over the average of the expected service lives of all Plan participants.

The average expected remaining service lives of the members of the pension plan are determined by taking the calculated total future service years of the Plan divided by the number of people in the Plan including retirees. The total future service years of the Plan are determined using the mortality, termination, retirement and disability assumptions associated with the Plan.

|  | $\frac{\text { Years }}{}$ |
| :--- | :---: |
| June 30, 2020 | 1 |
| June 30, 2019 | 1 |

The average expected remaining service lives is used to amortize all deferred outflows and inflows of resources, except for the difference between expected and actual investment earnings, which is amortized over five years.

## Collective Pension Expense

The components of the collective pension expense, for the period ended June 30, 2020, comprises the following:
Service cost
Interest on the total pension liability
Projected earnings on plan investments
Miscellaneous expenses
Pension plan administrative expenses
Recognition of outflow (inflow) of resources due to amortization
Total pension expense

|  | 2020 |
| :---: | ---: |
| $\$$ | $33,749,389$ |
|  | $933,927,084$ |
|  | $(246,798,520)$ |
|  | $(25,121)$ |
|  | $5,341,285$ |
|  | $(187,249,375)$ |
| $\$$ | $538,944,742$ |
