

Retirement Market Facts

Fresh ingredients for a healthy retirement

Tracking my ASA value and contributions

PERF's new *Retirement Market*, launching this summer,

is the first step toward bringing members powerful new tools for planning their retirements and managing their investments.

Step 1: Beginning this summer, you have the opportunity to manage your

Annuity Savings Account (ASA) investments daily, rather than quarterly.

Step 2: Coming next year, you will be able to view and manage new contributions to your ASA on a payroll basis, rather than the quarterly basis now in place.

With the completion of these two steps, PERF members will have gained a real-time means of tracking their ASA account values, contributions, and trading activity.

If you have questions, please contact our customer service center. We can be reached Monday through Friday from 8 a.m. to 5 p.m. EST at (888) 526-1687, or feel free to e-mail us at questions@inprs.in.gov with your concerns.
