

Retirement Market Facts

Fresh ingredients for a healthy retirement

Tracking my ASA value and contributions

TRF's new "Retirement Market" launching this summer is the first step toward bringing members powerful new tools for planning their retirements and managing their investments.

Step 1: Beginning this summer, you have the opportunity to manage your

Annuity Savings Account (ASA) investments daily, rather than quarterly.

Step 2: Coming in Summer 2011, you will be able to view and manage new contributions to your ASA on a payroll basis, rather than the quarterly basis now in place.

With the completion of these two steps, TRF members will have gained a real-time means of tracking their ASA account values, contributions, and trading activity.

If you have questions, please contact our customer service center. We can be reached Monday through Friday from 8 a.m. to 5 p.m. EST at (888) 286-3544, or feel free to e-mail us at questions@inprs.in.gov with your concerns.
