

Eating Local Fish in Indiana Waterways

From Indiana waterways, females under 50 and males under 18 can eat these fish species and sizes safely once per week. Males 18 and over and females over 50 can eat them more frequently.

-Largemouth Bass <13 inches

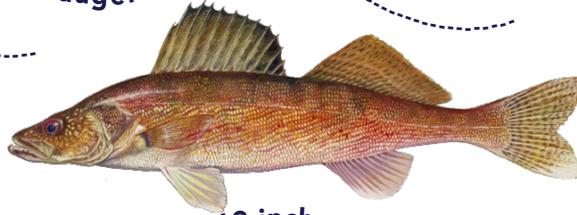

-Sauger <12 inches

-Redhorse <22 inches

-Rock Bass <10 inches

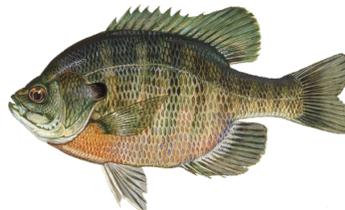

-Walleye <19 inches

-Crappie

-Smallmouth Bass <12 inches

-Sunfish

-Buffalo <19 inches

-Freshwater Drum <14 inches

-Spotted Bass <10 inches

-Channel Catfish <23 inches

-Northern Pike <20 inches

-Flathead Catfish <18 inches

Some waters present more risk when consuming these species and sizes. Please consult the Indiana Fish Consumption Advisory Website for more specific listings:
