

**DATE:** August 15, 2013

**TO:** All Local Health Departments  
Attn: Chief Food Inspection Officer

**FROM:** A. Scott Gilliam, MBA, CP-FS  
Director, Food Protection Program

**SUBJECT:** The Procter & Gamble Company Recall [Animal Health]

**SUGGESTED ACTION:** Unclassified Recall; Specific lots of dry pet food because they have the potential to be contaminated with *Salmonella*; Recommend notification of affected stores via phone, fax or e-mail.

From the information provided by FDA, the recalled products may have been distributed in the State of Indiana. These lots were distributed in the United States. Detail store information is not available at this time. In addition, if any recalled products are found, please notify this office at 317-233-8475.

**FOR IMMEDIATE RELEASE** - August 14, 2013 - The Procter & Gamble Company (P&G) has voluntarily recalled specific lots of dry pet food because they have the potential to be contaminated with *Salmonella*. These lots were distributed in the United States and represent roughly one-tenth of one percent (0.1%) of annual production. No *Salmonella*-related illnesses have been reported to date in association with these product lots.

*Salmonella* can affect animals eating the products and there is risk to humans from handling contaminated pet products, especially if they have not thoroughly washed their hands after having contact with the products or any surfaces exposed to these products.

Healthy people infected with *Salmonella* should monitor themselves for some or all of the following symptoms: nausea, vomiting, diarrhea or bloody diarrhea, abdominal cramping and fever. Rarely, *Salmonella* can result in more serious ailments, including arterial infections, endocarditis, arthritis, muscle pain, eye irritation, and urinary tract symptoms. Consumers exhibiting these signs after having contact with this product should contact their healthcare providers.

Pets with *Salmonella* infections may be lethargic and have diarrhea or bloody diarrhea, fever, and vomiting. Some pets will have only decreased appetite, fever and abdominal pain. Infected but otherwise healthy pets can be carriers and infect other animals or humans. If your pet has consumed the recalled product and has these symptoms, please contact your veterinarian.

This issue is limited to the specific dry pet food lot codes listed below. This affects roughly one-tenth of one percent (0.1%) of total annual production. The affected product was distributed to select retailers across the United States. These products were made during a 10 day window at a single manufacturing site. P&G's routine testing determined that some products made during this timeframe have the potential for *Salmonella* contamination. As a precautionary measure, P&G is recalling the potentially impacted products made during this timeframe. No other dry dog food, dry cat food, dog or cat canned wet food, biscuits/treats or supplements are affected by this announcement.

P&G is retrieving these products as a precautionary measure. Consumers who purchased a product listed below should stop using the product and discard it and contact P&G toll-free at 800-208-0172 (Monday – Friday, 9:00 AM to 6:00 PM EST), or via website at [www.iams.com](http://www.iams.com)<sup>1</sup> or [www.eukanuba.com](http://www.eukanuba.com)<sup>2</sup>. Media Contact: Jason Taylor 513-622-1111.

Products affected by this announcement:
