TITLE

(X6) DATE

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (see instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

	<p>to continue to eat and drink his fluids.</p> <p>Review of client B's record on 6/11/14 at 10:45 AM, indicated he had lived at the facility since 1/24/1991. The review indicated he was 90 years of age and his diagnoses included, but were not limited to, severe reflux, Esophagitis, mild Parkinson's (disease), dementia, EPS (medication side effects), cataracts, skin cancers, anxiety, schizophrenia, and an enlarged prostate. The record contained an IPP/Individual Program Plan dated 6/13/13 which indicated client B was his own guardian and both his parents were deceased. The IPP included the following information concerning client B:</p> <p><u>Medical/Nursing Care:</u> Consumer requires 24 hour nursing supervision for medications and appropriate medical care. He requires someone to monitor and give medication daily. He also requires one-on-one supervision when eating regular foods (see dining plan).</p> <p><u>Assistance with Personal Care and Travel:</u> [Client B] can do most personal care with verbal prompts. Staff is present to insure safety. [Client B] enjoys traveling, but is monitored in the community due to confusion related to Alzheimer's.</p> <p><u>Behavioral management:</u> [Client B] has a behavior plan that addresses diagnoses of schizophrenia, Parkinson's disease,</p>

	<p>assessments or reassessments as needed to supplement the preliminary evaluation conducted prior to admission.</p> <p>Based on observation, record review and interview for 4 of 4 sampled clients, (A, B, C and D), the facility failed to ensure clients were reassessed when a change in status occurred for their needs in regards to repositioning methods or adaptive equipment needs (elevation of beds/adaptive devices) to ensure therapeutic position to treat/prevent skin breakdown.</p> <p>Findings include:</p> <p>Observations were conducted at the facility on 6/09/14 from 1:15 PM until 6:30 PM.</p> <p>Client A required assistance from 2 staff to transfer from his bed to a wheelchair and exhibited no weight bearing. Client A was observed to sleep on his stomach and had no adaptive equipment to ensure therapeutic positioning in bed. He received no oxygen via nasal cannula. The mattress/head of the bed was not elevated and client A was in flat position. During observations at the facility on 6/9/14 from 4:00 PM until 6:30 PM the evening meal and its preparation were observed. Client B accessed the facility by means of a roller walker and</p>	W000210	<p>W210</p> <p>In-home assessments by Home Health Depot have been done. Recommendations for adaptive devices/equipment were made. We continue to pursue OT assessments in the area for these clients. Client A and Client C have appointments on Monday. Previous appointments had been cancelled by the OT department. Staff continue to follow positioning schedule as outlined by agency nurse. Improvement is being seen for Client A and no new incidents of skin breakdown for any client have occurred. Once OT assessments are obtained, all recommendations will be implemented and plans will be revised as needed. All staff will be trained on revised plans and recommendations in order to continue to prevent skin breakdown. QIDP or designee, and/or Agency nurse will continue to observe daily to ensure the health and safety of each resident until all OT assessments have been completed and new recommendations are in place. QIDP or designee will then continue to observe, at minimum, 2 -3 times monthly to ensure compliance.</p>	07/24/2014

	<p>1:45 PM, client A was to be checked for incontineny/toileted every 2 hours. Client A's MARs contained wound center treatment directions dated 4/17/14 which indicated "mepilex (dressing) with border to wound...change dressing every other day after shower." The 4/17/14 wound center directions also indicated: "...keep pressure off coccyx/buttocks area as much as possible, change position every 2 hours." The record review indicated a positioning schedule for client A. Client A's record indicated an IPP/Individual Program Plan dated 11/3/13 which indicated his diagnoses included, but were not limited to, Down's Syndrome, a pacemaker, seizure disorder and Progressive Dementia. There was no re-assessment of client A's positioning needs as his condition changed (progressive dementia).</p> <p>Review of client B's record on 6/11/14 at 10:45 AM, indicated he was 90 years of age and his diagnoses included, but were not limited to, severe reflux, Esophagitis, mild Parkinson's (disease), dementia, EPS (medication side effects), cataracts, skin cancers, anxiety, schizophrenia, and an enlarged prostate.</p> <p>Review on 6/11/14 at 10:45 AM of client B's record indicated a Dining Plan/DP dated 1/31/14. 	<p>schizophrenia, Osteoarthritis of right knee, and a seizure disorder. The record review also indicated client C was 79 years old and he had a DP dated 12/02/13. The DP indicated client C was at moderate risk for choking secondary to delayed initiation of swallowing, decreased chewing and backflow. He was a silent aspirator. His diet was mechanical soft with nectar thickened liquids and his meat and bread should be moistened. The client was to sit up 2 hours after eating and the head of his bed was to be elevated 4 to 6 inches. Client C was edentulous and did not wear dentures. "Staff should supervise him closely at mealtime to ensure that he does not show signs of choking (per the 12/02/13 DP)." Client C's record review of his 6/14 MARs/TARs indicated a history of skin breakdown on his buttocks (bilaterally) and a rash in his groin area. The 6/14 MARs/TARs indicated the primary care physician had ordered client C should be assisted to "turn every 2 hrs (hours) when in bed...use pillows to prop over." There was no assessment by a health care professional to ensure client C was positioned in a therapeutic manner while in bed or throughout his waking hours.</p> <p>According to review of client D's record on 6/11/14 at 3:30 PM, she had a 6/13/13</p>

	<p>6:30 PM. Client A did not ambulate independently and required assistance from 2 staff to transfer from his bed to a wheelchair and exhibited no weight bearing. Client A was observed to take an afternoon nap. While seated in the living area, client A chewed on his fingers. He did not participate in any activities of daily living without total assistance from staff. During the evening meal at 5:50 PM, client A required total assistance to consume his meal. Staff were observed to spoon feed him.</p> <p>Client A's 11/04/13 IPP/Individual Program Plan was reviewed and indicated the following: He now requires physical assistance with most self-care tasks. Client A must be supervised in the bathroom. He needs direct assistance to shower and will often resist staff during this activity. Staff should remain calm but firm with Client A when assisting him, as he will often scream out during this task. Client A's dementia affects his care. Client A needs assistance to shave and brush his teeth. Client A needs total assistance with dressing and has been using Depends undergarments. Client A is incontinent of the bladder and bowel, especially at night. Client A needs to be toileted every two hours to assist in reducing</p>		<p>improvement in Client A's medical status and an OT assessment is scheduled for recommendations on therapeutic positioning. The team will meet again in August to review the current status and any new recommendations. The team will continue to meet at least quarterly but likely more often to continually assess his status and the appropriateness of placement.</p> <p>QIDP/Social Services Coordinator/SGL Manager/Agency Nurse</p>
