In the BDDS report it was not in the house on 9/24 because the order was already given and discontinued by that date. He did get it for four days 9/20, 9/21, 9/22 and 9/23."</p> <p>An interview was conducted over the phone on 11/9/12 at 11:06 A.M. with the RD of the group homes. The RD stated, "We do have a system for medications ordered after hours. If it is something the nurse deems can wait until Monday, they wait until Monday. If it is something that can not wait the nurse gives authorization. Nursing judgement is practiced. If it is a long term problem they contact me. Normal practice is to fax the pharmacy, get any approvals needed and start within a day or two. Normally any appointment forms with or without medication changes are brought in on the next route. If it was a morning appointment it should have come in on the afternoon route that same day (2:00-3:00 P.M.). We were not going to report it to BDDS because the medication was not in the house, it was not an omission because it was not put in the EMAR. We did not deem it an omission because it was a nursing decision to wait until Monday."</p> <p>This Federal tag relates to complaint</p>
