February 23, 2017

Secretary of the Commission  
Indiana Utility Regulatory Commission  
101 West Washington Street, Suite 1500 East  
Indianapolis, IN 46204

Dear Commission:

We request to increase and clarify some of our non-recurring charges, and update language and time changes to our Schedule of Rates and Charges, through the 30-day filing procedure.

Fire Protection Service (c). We need to remove the word "fire" in front of hydrant, and remove the words ~~four inch (4") or a six inch (6")~~. This is no longer applicable to our system, as we have removed all flush hydrants with 1-1/2" nozzles and improved our system to allow flow rates, to allow all our hydrants to be used for fire protection service. We are not changing the rate, only allowing all our customers to realize the benefits of fire protection.

We wish to change the 5/8" x 3/4" Connection Charge (e). The current charge is \$1,117.00. We propose a change to \$1,327.00. The reason for this change is an increase of \$210.00 in labor and material costs to perform connections. Since our last increase on January 19, 2011, costs have increased. Please see the attached cost justification for additional information.

We request the time change of the Reconnection Charge (g), Reconnection Surcharge (h), General Service Charge (j), General Service Surcharge (k), to 4:00 p.m. (instead of 4:30) to allow employees time to perform work without being on overtime, avoiding surcharge issues.

We are requesting to change the Credit/ Debit Card Processing Fee (o). We request the fee of \$2.50 shall be paid for each transaction in an increment range of \$200 to cover bank processing fees and administration of credit and/or debit card transactions. (example \$1-\$200 = \$2.50 fee, \$200.01-\$400 = \$5.00 fee, etc.)

Please see the attached justification and supporting documents and call me at (812) 246-2889, if you have any questions or comments.

Sincerely,

Scott A. Ham  
General Manager
