RE: Increasing certain Non-Recurring Charges for the Department of Water Works, Michigan City, Indiana.

Dear Mr. Webb,

We wish to change the tap-in fee currently charged to our customers through the 30-day filing process. This charge is currently \$910.00 and we are proposing to change it to \$1,000.00. The reason for this change is an increase in the labor and materials cost to perform customer tap-ins.

We are enclosing three (3) copies of our current water tariffs - Appendix B Non-Recurring Charges approved May 21, 2003, three (3) copies of Appendix B showing the new rate being requested, and the resolution as adopted by the Water Board of Directors at their regular meeting of January 27, 2009, to increase the 1" tap fee.

Also enclosed is a work sheet showing figures that were taken off of the Work Orders after the jobs were completed, totaled, and averaged with the actual number of taps installed for 2008; and five tap and corresponding meter & turn on work orders with cost breakdown.

Please call me at (219) 874-3228 if you have any questions or additional information is needed.

Very truly yours,

DEPARTMENT OF WATER WORKS

PUBLIC NOTICE
 The Department of Water Works filed with the Indiana Utility Regulatory Commission, a change in Rates and Charges to our Non-Recurring Charges. The purpose for the change in rate is due to increased material and labor cost to install a new one-inch (1") tap, to \$1,000.00. The current charge of \$910.00 was approved in 2003. The charge will apply to new customers who want to have municipal water service to their residence or business or to an existing customer wanting to enlarge their water service from an older three-quarter inch (3/4") tap to a new one-inch (1") tap. The Department filed this through the 30-day filing procedures pursuant to 170 IAC 1-6, on January 28, 2009 and would hope to have this approved by the commission by April 28, 2009. To file an objection to this increase it

The Department of Water Works filed with the Indiana Utility Regulatory Commission, a change in Rates and Charges to our Non-Recurring Charges. The purpose for the change in rate is due to increased material and labor cost to install a new one-inch (1") tap, to \$1,000.00. The current charge of \$910.00 was approved in 2003. The charge will apply to new customers who want to have municipal water service to their residence or business or to an existing customer wanting to enlarge their water service from an older three-quarter inch (3/4") tap to a new one-inch (1") tap. The Department filed this through the 30-day filing procedures pursuant to 170 IAC 1-6, on January 28, 2009 and would hope to have this approved by the commission by April 28, 2009. PUBLIC NOTICE

The Department of Water Works filed with the Indiana Utility Regulatory Commission, a change in Rates and Charges to our Non-Recurring Charges. The purpose for the change in rate is due to increased material and labor cost to install a new one-inch (1") tap, to \$1,000.00. The current charge of \$910.00 was approved in 2003. The charge will apply to new customers who want to have municipal water service to their residence or business or to an existing customer wanting to enlarge their water service from an older three-quarter inch (3/4") tap to a new one-inch (1") tap. The Department filed this through the 30-day filing procedures pursuant to 170 IAC 1-6, on January 28, 2009 and would hope to have this approved by the commission by April 28, 2009. To file an objection to this increase if
