2. General Regulations (Cont'd)

2.3 Obligations of the Customer (Cont'd)

2.3.11 Jurisdictional Report Requirements (Cont'd)

(B) Jurisdictional Reports (Cont'd)

- (7) Effective on the first of January, April, July and October of each year, the customer shall provide a revised jurisdictional report showing the interstate and intrastate percentage of use for the past three months ending the last day of December, March, June and September, respectively, for each service arranged for interstate use. The customer shall forward the revised report to the Telephone Company, to be received no later than 15 days after the first of each such month, (i.e., January, April, July and October). The revised report will serve as the basis for the next three months billing (i.e., beginning the first of February, May, August and November) and will be effective on the customer's bill date for that service. No prorating or back billing will be done based on the report.

If the customer does not supply the revised reports, the Telephone Company will assume the percentages to be the same as those provided in the last quarterly report. For those cases in which a quarterly report has never been received from the customer, the Telephone Company will assume the percentages to be the same as those provided in the order for service as set forth in (1), (4) and (5) preceding.

- (8) When a customer orders Common Channel Signaling/Signaling System 7 (CCS/SS7) Interconnection Service from the CenturyLink Operating Companies Tariff F.C.C. No. 9 as specified in Section 6.1.2(B)(6), the customer shall provide to the Telephone Company in its order for the service a CCS/SS7 Interconnection Service Percent Interstate Usage (PIU) Report for the state from which the service is ordered. Common Channel Signaling/Signaling System 7 (CCS/SS7) Interconnection Service is not offered in Indiana's interstate or intrastate jurisdiction.

13. Additional Labor and Miscellaneous Services (Cont'd)

13.3 Miscellaneous Services (Cont'd)

13.3.7 Blocking and Screening Services (Cont'd)

(C) International DDD Blocking provides a central office blocking service that blocks all calls dialed 011+ and 101XXXX011+. This service is available only to business customers and to certain line classes such as are used by hotels, hospitals, pay telephones, etc.

International blocking and screening services may also be available under the Telephone Company's general or local exchange tariffs or general terms and conditions. The services are available to all customers where technically feasible.

The following nonrecurring charges will be applied on a per line or per trunk basis. These rates are not intended to be duplicative with blocking and screening services provided under the Telephone Company's general or local exchange tariffs or general terms and conditions. For example, a customer may request International DDD Blocking from either the general/local exchange tariff, general terms and conditions, I.U.R.C. No. T-3 Access Service Tariff or CenturyLink Operating Companies Tariff F.C.C. No. 9.

15. Common Channel Signaling/Signaling System 7 (CCS/SS7) Data Base Services (Cont'd)

15.1 Line Information Data Base (LIDB) Access Service (Cont'd)

15.1.2 Description (Cont'd)

The requested billing validation data, in the form of signaling information, is passed back via either one of the two Telephone Company interconnecting STPs to the customer's designated OSS where the LIDB query was originated. The Telephone Company LIDB will receive and respond to Calling Card Service and Billed Number Screening queries as defined in Technical Reference Publications GR-246, FR-271, GR 905 and GR-954.

LIDB Access Service will provide the following functions on a per query basis:

- Validation of a telecommunications calling card stored on LIDB.
- Determination of whether the billed line automatically rejects certain calls billed as collect or third number.
- Determination of whether the billed line in the Billed Number Screening Query is a public telephone number using the "Service or Equipment Indicator" in the LIDB.

All access to the Telephone Company's LIDB will occur through two Telephone Company interconnecting STPs located in Johnson City, Tennessee and Bristol, Tennessee. The Telephone Company will provide customer interconnection to the Telephone Company interconnecting STPs through its Common Channel Signaling/Signaling System 7 (CCS/SS7) Interconnection Service provided in Section 6.8.2(G) of CenturyLink Operating Companies Tariff F.C.C. No. 9.
