STATE OF INDIANA

INDIANA UTILITY REGULATORY COMMISSION

PETITION OF INDIANA NATURAL GAS)
 CORPORATION FOR APPROVAL OF GAS COST) CAUSE NO. 37418 GCA 119
 ADJUSTMENT TO BE APPLICABLE IN THE)
 MONTHS OF NOVEMBER, DECEMBER 2013 AND)
 JANUARY 2014 PURSUANT TO IC 8-1-2-42 PL 43-) APPROVED:
 1983) OCT 10 2013

ORDER OF THE COMMISSION

Presiding Officers:

Kari A. E. Bennett, Commissioner
Gregory R. Ellis, Administrative Law Judge

On August 9, 2013, in accordance with Ind. Code § 8-1-2-42, Indiana Natural Gas Corporation (“Petitioner”) filed its Petition for Gas Cost Adjustment (“GCA”) with attached Schedules to be applicable during the months of November 2013 through January 2014. On September 5, 2013, Petitioner prefiled the direct testimony and revised schedules of David A. Osmon, Executive Vice President of Indiana Natural Gas Corporation, supporting the proposed GCA factor. On September 9, 2013, in conformance with the statute, the Indiana Office of Utility Consumer Counselor (“OUCC”) prefiled the statistical report and direct testimony of Sherry L. Beaumont, Utility Analyst.

Pursuant to notice given and published as required by law, proof of which was incorporated into the record by reference and placed in the official files of the Indiana Utility Regulatory Commission (“Commission”), an Evidentiary Hearing was held in this Cause at 10:00 a.m., on September 17, 2013, in Room 224 of the PNC Center, 101 West Washington Street, Indianapolis, Indiana. Petitioner and the OUCC were present and participated. The testimony and exhibits of Petitioner and the OUCC were admitted into the record without objection. No members of the general public appeared or sought to testify at the hearing.

Based upon the applicable law and the evidence presented, the Commission finds:

1. Statutory Notice and Commission Jurisdiction. Notice of the hearing in this Cause was given and published by the Commission as required by law. Petitioner is a public utility as defined in Ind. Code § 8-1-2-1(a). Under Ind. Code § 8-1-2-42(g), the Commission has jurisdiction over changes to Petitioner’s rates and charges related to adjustments in gas costs. Therefore, the Commission has jurisdiction over Petitioner and the subject matter of this Cause.

2. Petitioner’s Characteristics. Petitioner is a corporation organized and existing under the laws of the State of Indiana. Petitioner has its principal office at 1080 West Hospital Road in Paoli, Indiana. Petitioner renders natural gas utility service to the public in Bartholomew, Brown, Crawford, Dubois, Harrison, Johnson, Lawrence and Orange counties in Indiana; and owns,

operates, manages and controls plant and equipment used for the distribution and furnishing of such service.

3. **Source of Natural Gas.** Ind. Code § 8-1-2-42(g)(3)(A) requires Petitioner to make every reasonable effort to acquire long-term gas supplies so as to provide gas to its retail customers at the lowest gas cost reasonably possible.

Mr. Osmon testified that Petitioner is active in purchasing fixed contracts, purchasing contracts relating to periods well into the future, purchasing appropriately sized contracts, and planning for efficient use of storage. In addition, Mr. Osmon testified that Petitioner monitors market conditions, flexes its GCA factors both up and down as appropriate, and uses a normal temperature adjustment mechanism during the heating season. For the months of November, December 2013 and January 2014, Petitioner has fixed-price contracts in place for approximately 42% of its anticipated demand. With the exception of some small withdrawals from storage in late October, as the result of cooler weather, Petitioner plans to use storage gas as part of its supply portfolio of the proposed GCA months with the amount used dependent on weather.

The Commission has indicated that Indiana's gas utilities should make reasonable efforts to mitigate gas price volatility. This includes a program that considers market conditions and the price of natural gas on both current and forward-looking bases. Based on the evidence offered, we find that Petitioner has demonstrated that it has and continues to follow a policy of securing natural gas supply at the lowest gas cost reasonably possible in order to meet anticipated customer requirements. Therefore, we find that the requirement of this statutory provision has been fulfilled.

4. **Purchased Gas Cost Rates.** Ind. Code § 8-1-2-42(g)(3)(B) requires that Petitioner's pipeline suppliers have requested or filed pursuant to the jurisdiction and procedures of a duly constituted regulatory authority the costs proposed to be included in the GCA factor. The evidence of record indicates that the proposed gas costs include transport rates that have been filed by Petitioner's pipeline suppliers in accordance with Federal Energy Regulatory Commission procedures. We have reviewed the cost of gas included in the proposed gas cost adjustment charge and find the cost to be reasonable. Therefore, we find that the requirement of this statutory provision has been fulfilled.

5. **Earnings Test.** Ind. Code § 8-1-2-42(g)(3)(C), in effect, prohibits approval of a GCA factor that results in Petitioner earning a return in excess of the return authorized by the last Commission Order in which Petitioner's basic rates and charges were approved. Petitioner's current basic rates and charges were approved on October 8, 2008 in Cause No. 43434. The Commission authorized Petitioner to earn a net operating income of \$454,591.

Petitioner's evidence indicates that for the twelve (12) months ending June 30, 2013, Petitioner's actual net operating income was \$435,548. Therefore, based on the evidence of record, the Commission finds that Petitioner is not earning in excess of that authorized in its last rate case.

6. **Estimation of Purchased Gas Costs.** Ind. Code § 8-1-2-42(g)(3)(D) requires that Petitioner's estimate of its prospective average gas costs for each future recovery period be reasonable. The Commission has determined that this requires, in part, a comparison of prior estimates with the corresponding actual costs. The evidence presented indicates that Petitioner's estimating techniques during the reconciliation period of April 1, 2013 through June 30, 2013

("Reconciliation Period") yielded an over-estimated weighted average error of 56.54%. Petitioner explained estimated costs were higher than the actual costs by more than 10% for the Reconciliation Period because in months heading out of the winter heating season it will experience sales volumes that are greater than the purchase volumes, which is the result of a staggered billing cycle as compared to the purchase cycle. Based on Petitioner's historical accuracy in estimating the cost of gas, we find that Petitioner's estimating techniques are sound, and Petitioner's prospective average estimate of gas costs is reasonable.

7. **Reconciliations.** Ind. Code § 8-1-2-42(g)(3)(D) also requires that Petitioner reconcile its estimate for a previous recovery period with the actual purchased gas cost for that period. The evidence presented in this proceeding establishes that the variance for the Reconciliation Period is an over-collection of \$280,324 from its customers. This amount should be included, based on estimated sales percentages, in this GCA and the next three GCAs. The amount of the Reconciliation Period variance to be included in this GCA as a decrease in the estimated net cost of gas is \$115,353.

The variance from prior recovery periods applicable to this recovery period is an under-collection of \$167,063. Combining this amount with the Reconciliation Period variance, results in a total under-collection of \$51,710 to be applied in this GCA as an increase in the estimated net cost of gas.

8. **Resulting Gas Cost Adjustment Factor.** The estimated net commodity cost of gas to be recovered for November 2013 is \$277,127, for December 2013 is \$506,289, and January 2014 is \$733,762. Adjusting this total for the variance yields gas costs to be recovered through the GCA for November 2013 is \$294,364, for December 2013 is \$523,526, and January 2014 is \$750,999. After dividing that amount by estimated sales, adding demand costs, and adjusting for Indiana Utility Receipts Tax, Petitioner's recommended GCA factors are \$4.8377/Dth for November 2013, \$5.1290/Dth for December 2013, and \$5.1846/Dth for January 2014.

9. **Effects on Residential Customers – (GCA Cost Comparison).** Petitioner requests authority to approve the GCA factor of \$4.8377/Dth for November 2013, \$5.1290/Dth for December 2013, and \$5.1846/Dth for January 2014. The table below shows the commodity costs a residential customer will incur under the proposed GCA factor based on 10 Dth of usage. The table also compares the proposed gas costs to what a residential customer paid most recently (August 2013-\$5.3833/Dth) and a year ago (November 2012-\$5.1544/Dth, December 2012-\$5.0617/Dth, and January 2013-\$4.9755/Dth). The table reflects costs approved through the GCA process. It does not include Petitioner's base rates or any applicable rate adjustment mechanisms.

Month	Proposed Gas Costs (10 Dth)	Current		Year Ago	
		Gas Costs (10 Dth)	Difference from Current	Gas Costs (10 Dth)	Difference from Year Ago
November	\$ 48.38	\$ 53.83	\$ (5.45)	\$ 51.54	\$ (3.16)
December	\$ 51.29	\$ 53.83	\$ (2.54)	\$ 50.62	\$ 0.67
January	\$ 51.85	\$ 53.83	\$ (1.98)	\$ 49.76	\$ 2.09

10. Interim Rates. We are unable to determine whether Petitioner will earn an excess return while these GCA factors are in effect. Accordingly, the rates approved in this Order are interim rates subject to refund pending reconciliation in the event an excess return is earned.

11. Monthly Flex Mechanism. The Commission indicated in prior Orders that Indiana's gas utilities should make reasonable efforts to mitigate gas price volatility. Petitioner's approved monthly flex mechanism is designed to address the Commission's concerns. Therefore, Petitioner may utilize a monthly flex mechanism to adjust the GCA factor for the subsequent month. The flex applies only to estimated pricing of estimated market purchases (the initial market price) in the GCA. The flex is to be filed no later than three (3) days before the beginning of each calendar month during the GCA quarter. Market purchases in the flex are to be priced at NYMEX prices on a day no more than six (6) business days prior to the beginning of said calendar month. Changes in the market price included in the flex are limited to a maximum adjustment (higher or lower) of \$1.00 from the initial market price.

IT IS THEREFORE ORDERED BY THE INDIANA UTILITY REGULATORY COMMISSION that:

1. The Petition of Indiana Natural Gas Corporation for the gas cost adjustment for natural gas service, as set forth in Paragraph No. 8, is approved, subject to refund in accordance with Paragraph No. 10.

2. Prior to implementing the GCA factors approved above or any future flexed factor, Indiana Natural Gas Corporation shall file with the Commission under this Cause the applicable rate schedules for the factor.

3. This Order shall be effective on and after the date of its approval.

ATTERHOLT, BENNETT, LANDIS, MAYS AND ZIEGNER CONCUR:

APPROVED: **OCT 10 2013**

**I hereby certify that the above is a true
and correct copy of the Order as approved.**
