Pipeline Facility

Facility Type: Natural Gas

Facility Function: Service/Drop

Investigation regarding: Harvey Construction

UPPAC Database Record ID: 977

Damage Impact

Product release: Yes

Ignition: No

Service Interruption: False

Number of Customers Affected: 0

Injuries: 0

Fatalities: 0

Repair Cost (if known): \$545

Excavator Activities/Cause of damage information:

Excavator request locates: Yes Indiana 811 ticket Number: 1005062013

Type of Equipment: Backhoe/Trackhoe

Type of work performed: Sewer (Sanitary/Storm)

Synopsis: A natural gas service line stub to a demolished home or building was damaged by excavator during work to upgrade sewer system.

Findings: Reported by Indiana 811; excavator response received 09/19/2011. Operator reports that they were unaware of this stub, as there was no record of it. USIC was at the site numerous times during the length of the project, based on multiple tickets submitted by excavator, including one, 1005202091, that was requested for Main St. and S CR 450 W. Had the operator possessed a record of the live stub there was opportunity to locate it.

Conclusion: Operator failed to locate the damaged facility.

Violation: IC 8-1-26-18(f): Operator failed to locate or provided incorrect locate markings.

Harvey Construction currently has 8 reports of damages in the record between 10/07/2009 and 07/12/2011.

Pipeline Division Case No. 977

RECEIVED

SEP 23 2011

INDIANA UTILITY
REGULATORY COMMISSION

Dear Ms. Kulhanek:

Pursuant to Indiana Code 8-1-26, the *Indiana Damage to Underground Facilities Act*, the Pipeline Safety Division of the Indiana Utility Regulatory Commission ("Pipeline Division") is required to investigate reported incidents of alleged statutory violations involving underground pipeline safety. The purpose of this statute is to promote excavation and pipeline safety and to reduce the imminent danger to life, health, property, or loss of service associated with unsafe digging practices. Please note that the investigation does not entail determining criminal liability or a civil determination of fault or damages; however, it does determine whether any statutory violations were committed regarding public safety.

The Pipeline Division received information regarding potential statutory violations regarding the date and location referenced above. You were identified as a person or entity that might have information that would assist the Pipeline Division in its investigation. Therefore, we have contacted you in order to receive the full account of information in order to make a fair determination related to the circumstances of this incident.

We have asked all involved parties, entities and witnesses to provide *written* information within *30 days* in order to meet legal deadlines to conclude our investigation. **Please consider this letter as a formal request to receive any and all information and evidence (including a narrative, documentation, maps, photographs or any other written information) you can access regarding anything you may know about the incident referenced above.**

Please promptly provide your information to: Pipeline Safety Division – Case No. 977, Indiana Utility Regulatory Commission, 101 West Washington Street, # 1500E, Indianapolis, IN 46204. Also, please include the Investigation Number referenced above on your materials. In the alternative, if you would prefer to scan the materials and send them electronically, please send the documents to: *PipelineDamageCase@urc.in.gov*.

Although you are not a formal party in this investigation, please treat this request for information seriously, because the potential civil penalties for violations include: a potential civil fine up to \$10,000.00; mandatory education and training for employees regarding pipeline safety; a required development plan to avoid future violations; or a warning letter for certain homeowner/tenants who are first time offenders. Consequently, your input will assist the Pipeline Division with its determination and may have a substantial impact on the case.

After the investigation is completed, the Pipeline Division will prepare an Investigation Report with findings and forward it to the Underground Plant Protection Advisory Committee (“Advisory Committee”). This is a statutory committee, comprised of excavators, facility operators, investor and municipal utilities, the 811 Association and facility locate marking companies, whose role is to evaluate the Pipeline Division’s findings and make a recommendation for a civil penalty. In the event there is disagreement regarding the Advisory Committee’s recommendation to the Commission, parties are entitled to request a hearing before the full Commission. If there is a violation, the Indiana Utility Regulatory Commission (“Commission”) will impose the penalty. Any fines imposed are statutorily required to be spent funding the Commission’s training and educational programming to promote excavation and pipeline safety.

Thank you for your *prompt* assistance in providing written information to the Pipeline Division regarding the previously referenced incident. Any information received after the deadlines will not be considered in the investigation, will be unavailable to the Advisory Committee and will result in a lack of full information being made available; hence, your participation is vital to serving the interests of justice and enhancing the public’s safety. In an effort to assist you, please find an enclosure entitled “Information Request.” Should you have procedural or legal questions regarding the Underground Plant Protection Advisory Committee or the Indiana Utility Regulatory Commission, please contact David L. Welch, Assistant General Counsel, at (317) 234-4715. Should you have questions regarding the pipeline damage identified above, or our investigation, please contact me at (317) 232-2718. Thank you for your assistance.

Sincerely,

William Boyd
Director, Pipeline Safety Division

Pipeline Safety Division Case No. 977

To Whom It May Concern:

On behalf of the Indiana Utility Regulatory Commission ("Commission"), I am writing to inform you that information has been filed with our Pipeline Safety Division ("Pipeline Division") regarding an alleged violation of Indiana Code 8-1-26 ("I.C. 8-1-26"), the *Indiana Damage to Underground Facilities Act*. You are receiving this letter because you have been identified as the Respondent or responsible party.

The purpose of this statute is to promote excavation and pipeline safety and to reduce imminent danger to life, health, property, or loss of service associated with unsafe digging practices. Based upon the information received, the Pipeline Division is commencing an investigation into the event concerning you or your business. Please note that the investigation does not entail determining criminal liability or a civil determination of fault or damages; however, it does determine whether any statutory violations were committed regarding public safety.

Although the law was enacted in 1991, enforcement measures went into effect in July 2009. The Commission was tasked with completing a formal rulemaking on how to determine whether a violation occurred, as well as how the subsequent penalties should be determined. Due to the

amount of time required for the rule to become effective and for the Underground Plant Protection Advisory Committee to be appointed and convened, you are now receiving this notification. This means that your case will be handled according to the recently approved administrative rule, which can be found here: http://www.in.gov/iurc/files/rm0903_051111.pdf.

The Pipeline Division has preliminarily identified that the following statutory violation(s) may have occurred:

Property Damage Violations:

IC 8-1-26-16(g): Failure to provide notice of excavation.

Should you disagree with the aforementioned violation(s), you have an opportunity to file documentation in support of your position. In order for this information to be considered, you must provide a written response to each allegation(s) and provide written evidence (e.g., maps, photographs, narrative statements, or other evidence) within thirty (30) days of the date of this letter. If you do not respond or fail to provide additional evidence for the Pipeline Division to consider, your investigation will be closed. Findings will then be forwarded to the Underground Plant Protection Advisory Committee for a recommendation to the Commission on the appropriate penalty.

If you are a business entity, please provide your full personal name and business title, as well as your legal authority to represent the business in this matter. If you lack such authority or are mistakenly named as the Respondent, you must provide the identical information requested above on behalf of your business.

Pursuant to the statute, civil penalties may include:

1. A warning letter for homeowners/tenants who are first-time offenders regarding a violation in which no one was personally injured;
2. A civil penalty up to a maximum of ten thousand dollars (\$10,000.00);
3. Required participation of employees in a mandatory education and training program sponsored by the Commission; and/or
4. Required development of a plan to avoid future violations, which must receive approval.

Depending upon the individual circumstances of each case, any combination of the civil penalties may be reduced to a Consent Agreement between the Commission and the offender.

If you believe there are other parties or witnesses with relevant information for the Pipeline Safety Division to consider in its investigation, we request that you *immediately* provide their name, address, telephone number, and email address *in writing* to the Pipeline Safety Division. Because the investigation should be completed within sixty (60) days, any delay in providing additional persons to be contacted may result in the investigation being concluded without this additional source of information.

Please forward any documentation to the following address or, in the alternative, you may scan the materials and send them electronically. Also, please be sure to include your assigned Pipeline Division Case Number on all communications.

Materials should be completed and sent via mail or email:

Mail: Pipeline Safety Division – Case No. 977
Indiana Utility Regulatory Commission
101 West Washington Street, Suite 1500 E
Indianapolis, IN 46204

Email: PipelineDamageCase@urc.in.gov

Included with this letter are the following documents: a *Summary of Procedures and Respondent's Rights* to assist in answering your questions; and an *Information Request* enclosure to assist in providing pertinent information regarding this investigation.

Should you have procedural or legal questions regarding the Underground Plant Protection Advisory Committee or the Indiana Utility Regulatory Commission, please contact David L. Welch, Assistant General Counsel, at (317) 234-4715. Should you have questions regarding the pipeline damage identified above, or our investigation, please contact me at (317) 232-2718. Thank you for your assistance.

Sincerely,

A handwritten signature in black ink that reads "William Boyd". The signature is written in a cursive style with a stylized "W" and "B".

William Boyd
Director, Pipeline Safety Division

Incident Impact Information:

Number of Outpatient Treated: none _____

Number of Inpatient Treated: none _____

Number of Fatalities: none _____

Fire Department Response: Yes / No ~~XX~~ - call to 911 was placed, no emergency agencies responded.

Police Department Response: Yes / No ~~XX~~

Ambulance Response: Yes / No ~~XX~~

Additional Information/Comments: After following required location procedures, Harvey Construction proceeded with excavation as planned. The damaged line was not marked during locate. Upon speaking with USIC rep it was explained that the locator did not have the ability to locate this line, as the home which was previously on this property had been demolished & no meter was available on site to perform locate. This was NOT disclosed to Harvey Construction representatives until AFTER the incident took place.

Upon making contact with the unmarked utility (gas) line, Harvey Construction/Richard Williams ceased work immediately; contacted 911. Matt Wilson (HC Office) contacted IUPPS/811 & Vectren aka Frankton Gas.

Per instructions provided to Richard Williams by the 911 representative upon contact; the typical evacuations were not necessary as there was no home located on the property. The line which had been damaged was a service line to only this vacant lot where only a foundation remains, therefore no evacuations took place.

Further, Mr. Williams was advised to turn off all construction equipment/vehicles on site & refrain from smoking or cell phone usage.

With regards to the potential statutory violation: IC 8-1-26-16 (g)

Harvey Construction believes it took all reasonable & required precautions to avoid damaging underground facilities.

-Per the explanation provided above by USIC & Utility provider, the area affected in this investigation had been located multiple times over the span of the project, at no time was this particular damaged utility marked during locates.

Nor would it have been on any future location requests, per the provider & explanation above.

Therefore, any rulings made with regards to statutory violations related to this particular incident would be based purely on speculation. Respondent believes it to be unjust to make such rulings and respectfully requests

that all potential violations with regards to this matter, taking place on 05/27/2010 be dismissed.

"Phone Drop" @ 4722 W Jackson
- MW contacted Mulberry Telephone & their line runs in street
- We were "zipping" pavement & line came up. We did not hit a live
