Pipeline Division Case No. 37

Dear Ms. Kulhanek:

Pursuant to Indiana Code 8-1-26, the *Indiana Damage to Underground Facilities Act*, the Pipeline Safety Division of the Indiana Utility Regulatory Commission ("Pipeline Division") is required to investigate reported incidents of alleged statutory violations involving underground pipeline safety. The purpose of this statute is to promote excavation and pipeline safety and to reduce the imminent danger to life, health, property, or loss of service associated with unsafe digging practices. Please note that the investigation does not entail determining criminal liability or a civil determination of fault or damages; however, it does determine whether any statutory violations were committed regarding public safety.

The Pipeline Division received information regarding potential statutory violations regarding the date and location referenced above. You were identified as a person or entity that might have information that would assist the Pipeline Division in its investigation. Therefore, we have contacted you in order to receive the full account of information in order to make a fair determination related to the circumstances of this incident.

We have asked all involved parties, entities and witnesses to provide *written* information within *30 days* in order to meet legal deadlines to conclude our investigation. **Please consider this letter as a formal request to receive any and all information and evidence (including a narrative, documentation,**

RECEIVED

SEP 23 2011

INDIANA UTILITY
REGULATORY COMMISSION

maps, photographs or any other written information) you can access regarding anything you may know about the incident referenced above.

Please promptly provide your information to: Pipeline Safety Division – Case No. 37, Indiana Utility Regulatory Commission, 101 West Washington Street, # 1500E, Indianapolis, IN 46204. Also, please include the Investigation Number referenced above on your materials. In the alternative, if you would prefer to scan the materials and send them electronically, please send the documents to: *PipelineDamageCase@urc.in.gov*.

Although you are not a formal party in this investigation, please treat this request for information seriously, because the potential civil penalties for violations include: a potential civil fine up to \$10,000.00; mandatory education and training for employees regarding pipeline safety; a required development plan to avoid future violations; or a warning letter for certain homeowner/tenants who are first time offenders. Consequently, your input will assist the Pipeline Division with its determination and may have a substantial impact on the case.

After the investigation is completed, the Pipeline Division will prepare an Investigation Report with findings and forward it to the Underground Plant Protection Advisory Committee (“Advisory Committee”). This is a statutory committee, comprised of excavators, facility operators, investor and municipal utilities, the 811 Association and facility locate marking companies, whose role is to evaluate the Pipeline Division’s findings and make a recommendation for a civil penalty. In the event there is disagreement regarding the Advisory Committee’s recommendation to the Commission, parties are entitled to request a hearing before the full Commission. If there is a violation, the Indiana Utility Regulatory Commission (“Commission”) will impose the penalty. Any fines imposed are statutorily required to be spent funding the Commission’s training and educational programming to promote excavation and pipeline safety.

Thank you for your *prompt* assistance in providing written information to the Pipeline Division regarding the previously referenced incident. Any information received after the deadlines will not be considered in the investigation, will be unavailable to the Advisory Committee and will result in a lack of full information being made available; hence, your participation is vital to serving the interests of justice and enhancing the public’s safety. In an effort to assist you, please find an enclosure entitled “Information Request.” Should you have procedural or legal questions regarding the Underground Plant Protection Advisory Committee or the Indiana Utility Regulatory Commission, please contact David L. Welch, Assistant General Counsel, at (317) 234-4715. Should you have questions regarding the pipeline damage identified above, or our investigation, please contact me at (317) 232-2718. Thank you for your assistance.

Sincerely,

William Boyd
Director, Pipeline Safety Division
