

Darlene Tolbert Phillips

Consulting Advisor, Government and Regulatory Affairs
Midwest Independent Transmission System Operator, Inc. (MISO).

Ms. Phillips' provides technical leadership for the development of position papers and public statements on issues related to MISO's external environment, as well as advising the Executive team and other parties representing MISO on current and future federal and state policies. Ms. Phillips utilizes her technical and market operations expertise to synthesize MISO's complex business functions into easily understandable documents to assist external parties in better understanding MISO's market and transmission operations.

Prior to joining Government and Regulatory Affairs, Ms. Phillips served as Director of Market Operations Planning where she was responsible for all aspects of Market Operations divisional planning activities and leading the Market Advisory Committee. She also served as Director of Change Management where she was responsible for providing direction and oversight of the Change Management-Quality Assurance (CM-QA) team at MISO, which reduced the risk to MISO operations by managing the technical changes into the production environment.

Ms. Phillips came to MISO in 2004 from BearingPoint, Inc., where she served as a manager in the Electric Utilities Practice. She previously served as a manager in Arthur Andersen's National Energy and Utilities Practice as well as a control room engineer with the Michigan Electric Power Coordination Center (MEPCC).

Ms. Phillips is a licensed attorney in the State of Indiana, and holds a Juris Doctorate from Indiana University School of Law at Indianapolis (cum laude); a MBA and BSEE from the University of Michigan, Ann Arbor.
