Beth - Embarq does not have any additional comments other than the Spanish requirement listed under 11(c). Currently Embarq does not have lifeline applications or brochures in the Spanish language therefore developing this would be an added cost. We have taken the approach that making the forms available through a third party website (ie OUCC) would be a desired option. To that end Embarq offers the following language for 11(c)

11(c) Applications shall be available in Spanish or an applicant may be directed to an alternant website which contains the application in Spanish.

Thanks
