

**To: Beth K. Roads, Esq.  
Indiana Utility Regulatory Commission**

**Re: Redline Version of “Strawman” Draft Minimum Standard Filing Requirements Rule.**

**Date: December 14, 2007**

As requested by the commission at the pre-rulemaking workshop held on Tuesday, November 13, 2007, attached is a “Redline” version of the IURC’s “Strawman” MSFR which incorporates agreed upon changes to both procedural and technical language. This version is the product of two separate workgroups, a “Technical Workgroup” and a “Procedural Workgroup”.

The changes proposed by the Technical Workgroup are in red/blue, and found primarily in the definitions section, 170 IAC 1-5-1, and in 170 IAC 1-5-5 et seq.

The procedural changes are highlighted in yellow and are found primarily in 170 IAC 1-5-4.

Parties having additional comments concerning issues upon which consensus could not be reached will file those with the commission on December 14, 2007.
