Request: NIPSCO requests to modify the language on its Rider 625 – Rate for Electric Service Metal Melting Service to clarify the eligibility requirements. The changes include insertion of the clarifying words (in bold):

Under the Heading: TO WHOM AVAILABLE

...This Rate Schedule is available to Industrial Customers with electric metal melting and/or holding equipment and a **maximum thirty (30) minute** on peak Demand for a **billing period** that is less than 50% of their **maximum thirty (30) minute** off-peak **Demand for that same billing period** and is located adjacent to existing electric facilities adequate to meet the Customer's requirements.

Similar changes are made to the definition under General Terms and Conditions of Service of "2. *On-peak Demand*." The changes include insertions of the clarifying words (in bold):

To the extent Customer has a **maximum thirty (30) minute** on-peak Demand for a **billing period** that is greater than 50% of their **maximum thirty (30) minute** off-peak **Demand for that same billing period** for three consecutive **billing periods** then Customer shall not be eligible for this rate schedule and Company shall provide service under another applicable rate schedule.

Customer Impact: NIPSCO industrial customers participating in Rate 625.
Tariff Pages Affected: Rate 625, First Revised, Sheet No. 6 and First Revised, Sheet No. 64
Staff Recommendations: Staff had asked, and NIPSCO complied with specifically notifying all current customers on Rate 625 of the proposed changes. Staff understands that the proposed changes are necessary for a proposed settlement in a docketed proceeding (Cause No. 44291). Staff believes the changes comport with what the types of filings allowed through the Commission's 30-Day Filing rules and recommends approval.
