

**CONFERENCE COMMITTEE REPORT
DIGEST FOR HB 1060**

Citations Affected: IC 25-22.5.

Synopsis: Experimental and nonconventional medical treatment. Conference committee report for EHB 1060. Entitles an individual to medical treatment that includes any experimental or nonconventional medical treatment if a licensed physician has personally examined the individual and agrees to treat the individual. Requires that, before providing such treatment, the physician must determine that the treatment, when administered as directed, does not pose an unreasonable and significant risk of danger to the individual receiving the treatment. Also requires the physician to provide specific information to the individual and to receive the written informed consent of the individual or the individual's legal representative before providing the treatment. Provides that if the treatment is provided on an inpatient or outpatient basis at a licensed hospital the governing board of the hospital must have specifically approved the medical treatment. Provides that if the treatment is provided in a setting other than an inpatient or outpatient hospital setting a protocol developed by the medical licensing board must be followed. Provides that health insurers are not required to provide coverage, or make payment beyond the terms and conditions of the contract, for the treatment. Provides that no person nor organization be required to provide an individual with access to medical treatment not otherwise commercially available to that individual. This conference committee report adds a requirement that if the treatment is provided on an inpatient or outpatient basis in a licensed hospital then the treatment must have been specifically preapproved by the governing board of the hospital. Provides that if the treatment is provided in a setting other than an inpatient or outpatient hospital setting a protocol developed by the medical licensing board must be followed. Removes a provision regarding malpractice. Provides that health insurers are not required to make payment for the treatment beyond the terms and conditions of the contract.

Effective: July 1, 1998.
