**Summary of Legislation:** This bill defines a "drive test" as a Bureau of Motor Vehicles, approved examination given either by: (1) a commercial driver training school instructor or a high school driver training instructor for the purpose of determining whether a student has sufficient physical and mental ability to operate a motor vehicle to qualify for a driver's license; or (2) a state driver examiner or a certified motorcycle operational examiner for the purpose of determining whether an applicant has sufficient physical and mental ability to operate a motor vehicle to qualify for a new or renewal driver's license. It changes the references to "operational" and "operating skills" tests for a motorcycle operator's license to "drive tests". The bill requires the Bureau to waive a drive test for a student who passes both a driver education class and a drive test given by: (1) a commercial driver training school; or (2) an instructor holding a driver and traffic safety endorsement from the Indiana Professional Standards Board.

**Effective Date:** July 1, 1999.

**Explanation of State Expenditures:** The immediate impact for the Bureau of Motor Vehicles Commission (BMVC) likely will be the reduction of the workload of certain employees who provide the road test for applicants. These applicants will be able to be tested by a commercial driving school or by an instructor holding a driver and traffic safety endorsement from the Indiana Professional Standards Board. The specific fiscal impact is indeterminable. The fund affected is the State License Branch Fund which supports the BMVC.
