(b) The bureau shall plan, coordinate, and administer the provision of individualized, integrated community based services for individuals with a developmental disability and their families, within the limits of available resources. The planning and delivery of services must be based on future plans of the individual with a developmental disability rather than on traditional determinations of eligibility for discrete services, with an emphasis on the preferences of the individual with a developmental disability and that individual's family.

(c) Services for individuals with a developmental disability must be services that meet the following conditions:

- (1) Are provided under public supervision.
- (2) Are designed to meet the developmental needs of individuals with a developmental disability.
- (3) Meet all required state and federal standards.
- (4) Are provided by qualified personnel.
- (5) To the extent appropriate, are provided in home and community based settings in which individuals without disabilities participate.

The services must simulate, to the extent feasible, patterns and conditions of everyday life that are as close as possible to normal. The community based service categories include the following:

However, the head of the bureau shall waive this limitation for a setting providing residential services to more than four (4) unrelated individuals in any one (1) setting if the setting was in existence on June 30, 1999.

(f) To the extent that services described in subsection (e) are available and meet the individual's needs, an individual is entitled to receive services in the least restrictive environment possible.
