(b) The bureau shall plan, coordinate, and administer the provision of individualized, integrated community based services for individuals with a developmental disability and their families, within the limits of available resources. (2) Beginning July 1, 2012, the bureau shall ensure that an entity approved to provide residential habilitation and support services under home and community based services waivers is accredited by an approved national accrediting body. However, if an entity is accredited to provide home and community based services under subdivision (1) other than residential habilitation and support services, the bureau may extend the time that the entity has to comply with this subdivision until the earlier of the following:

The services must simulate, to the extent feasible, patterns and conditions of everyday life that are as close as possible to normal. The community based service categories include the following:

(1) Supervised group living programs, which serve at least four (4) individuals and not more than eight (8) individuals, are funded by Medicaid, and are licensed by the community residential facilities council.

(f) To the extent that services described in subsection (e) are available and meet the individual's needs, an individual is entitled to receive services in the least restrictive environment possible.

(g) Community based services under subsection (e)(1) or (e)(2) must consider the needs of and provide choices and options for:

- (1) individuals with a developmental disability; and
- (2) families of individuals with a developmental disability.

(h) The bureau shall administer a system of service coordination to carry out this chapter.

(i) The bureau may issue orders under IC 4-21.5-3-6 against a provider that violates rules issued by the bureau for programs in which the provider is providing services in accordance with section 11 of this chapter.
