A Message from Your State Representative

As high school graduation approaches, the question of whether to pursue further education lingers in the minds of many students. Some choose to move directly into the workforce, while others wish to attend a vocational or technical school. Some students decide that a four-year college or university is the best choice, while others attend a two-year junior college. There are many factors which go into this big decision.

Those who choose to continue their education must plan and prepare for this next chapter of their lives.

A student may find themselves asking:

- Should I choose a private or public school?
- Will I have the financial resources to complete a degree?
- How can someone find information about a certain school?
- What high school classes are needed to be accepted into a college or university?

These are all common questions to which many high school students and their parents need answers. This booklet is a guide for finding those answers through state and federal agencies, the Internet and from various Indiana schools.

Throughout this book are addresses, phone numbers and/or web sites which may be very helpful in a student's search for the right school.

If you have any further questions or concerns, please feel free to contact the Statehouse office.

Course and Credit Requirements

English/ Language Arts	8 credits Including a balance of literature, composition and speech.
Mathematics	6 credits 2 credits: Algebra I 2 credits: Geometry 2 credits: Algebra II <i>Or complete Integrated Math I, II, and III for 6 credits.</i> All students must complete a math or physics course in the junior or senior year.
Science	6 credits 2 credits: Biology I 2 credits: Chemistry I or Physics I or Integrated Chemistry-Physics 2 credits: any Core 40 science course
Social Studies	6 credits 2 credits: U.S. History 1 credit: U.S. Government 1 credit: Economics 2 credits: World History/Civilization or Geography/History of the World
Directed Electives	5 credits World Languages Fine Arts Career-Technical
Physical Education	2 credits
Health and Wellness	1 credit
Electives*	6 credits (Career Academic Sequence Recommended)

40 Total State Credits Required

Schools may have additional local graduation requirements that apply to all students

* Specifies the number of electives required by the state. High school schedules provide time for many more electives during the high school years. All students are strongly encouraged to complete a Career Academic Sequence (selecting electives in a deliberate manner) to take full advantage of career exploration and preparation opportunities.

Effective beginning with students who enter high school 2006-07

CORE40 with Academic Honors *(minimum 47 credits)*

For the **Core 40 with Academic Honors** diploma, students must:

- Complete all requirements for Core 40.
- Earn 2 additional Core 40 math credits
- Earn 6-8 Core 40 world language credits (6 credits in one language or 4 credits each in two languages).
- Earn 2 Core 40 fine arts credits.
- Earn a grade of a "C" or better in courses that will count toward the diploma.
- Have a grade point average of a "B" or better.
- Complete one of the following:
 - Complete AP courses (4 credits) and corresponding AP exams
 - Complete IB courses (4 credits) and corresponding IB exams
 - Earn a combined score of 1200 or higher on the SAT critical reading and mathematics
 - Score a 26 or higher composite on the ACT
 - Complete dual high school/college credit courses from an accredited postsecondary institution (6 transferable college credits)
 - Complete a combination of an AP course (2 credits and corresponding exam) or an IB Standard Level course (2 credits and corresponding exam) and dual high school/college credit course(s) from an accredited postsecondary institution (3 transferable college credits)

CORE40 with Technical Honors *(minimum 47 credits)*

For the **Core 40 with Technical Honors** diploma, students must:

- Complete all requirements for Core 40.
- Complete a career-technical program (8 or more related credits)
- Earn a grade of "C" or better in courses that will count toward the diploma.
- Have a grade point average of a "B" or better.
- Recommended: Earn 2 additional credits in mathematics and 4-8 credits in World Languages for four year college admission.
- Complete two of the following, one must be A or B:
 - Score at or above the following levels on WorkKeys: Reading for Information - Level 6; Applied Mathematics - Level 6; Locating Information - Level 5
 - Complete dual high school/college credit courses in a technical area (6 college credits)
 - Complete a Professional Career Internship course or Cooperative Education course (2 credits)
 - Complete an industry-based work experience as part of a two-year career-technical education program (minimum 140 hours)
 - Earn a state-approved, industry-recognized certification

What you to need know..

High school students must pass the ISTEP+ Graduation Qualifying Exam (GQE) to be eligible for a diploma. Indiana's Graduation Qualifying Exam (GQE) is designed to ensure students have mastered basic reading, writing and math skills before graduating from high school. The GQE consists of two tests that students will take after completing courses in Algebra I and English 10.

Common Questions about the GQE

What does the GQE cover?

- Algebra I
- English 10

How do I meet the GQE requirement?

- Pass the Algebra I test and the English 10 test or
- Meet one of the requirements for a GQE Waiver

What if I don't pass?

- You can retake the test at least four more times (September and March of your junior and senior year)
- Once you pass a specific part of the test, you don't have to retake that section
- Ask your teachers and guidance counselors about extra help in areas you didn't pass.

When is the GQE?

- The GQE will be given at various times during the year, depending on when a student completes Algebra I and English 10.
- For most students, that will be in late spring of their sophomore year

What if I have special needs?

- Several testing accommodations are available for students with disabilities or limited English proficiency, such as additional time and changes in test scheduling, format and setting
- Talk to your parents and guidance counselors if you have an Individualized Education Program (IEP) or Section 504 Plan; many instructional or testing accommodations included in your plan can be followed for the GQE

the SAT/ACT

Your passport to higher education

The **SAT** Reasoning Test is an aptitude test, or a measure of the critical thinking skills you'll need for academic success in college. The SAT assesses how well you analyze and solve problems; skills you learned in school that you'll need in college.

The SAT is typically taken by high school juniors and seniors. It includes three sections: math, critical reading, and writing. Each section is scored on a scale of 200-800, with two writing subscores for multiple-choice and essay. The SAT has a correction for guessing, which is to deduct a fraction of a point for each wrong answer.

The **ACT** is an achievement test, measuring what the student has learned in school. It has up to 5 components: English, Math, Reading, Science, and an optional Writing Test. It includes 215 multiple-choice questions and takes approximately 3 hours and 30 minutes to complete. Unlike the SAT, the ACT is scored based on the number of correct answers, with no penalty for guessing. ACT results are accepted by all 4-year colleges and universities in the U.S.

Financial Aid, Scholarships & Loan Info

Applying for Financial Aid

Almost all financial aid requires you and your family to complete the **Free Application for Federal Student Aid (FAFSA)**. **The deadline for completing the FAFSA form for state aid is March 10th of the year you wish to attend.** For more details contact the financial aid office at your college or on-line with the U.S. Department of Education at www.ed.gov or www.fafsa.gov

State aid in the form of grants, scholarships and work study are available. The State Student Assistance Commission offers grants based on need and on scholarship. For information contact: The State Student Assistance Commission at 150 West Market Street, Suite 500, Indianapolis, Indiana 46204 or by e-mail at www.state.in.us/ssaci. You may also contact them by phone by calling (317) 232-2350 or 1-888-528-4719

Forms of Federal Aid

- **Federal Pell Grants:** These are not loans and will not need to be repaid. They are awarded based on need and may be used towards tuition, room and board or books.
- **Federal Stafford Loans:** These are self-help loans which need to be repaid, and are both subsidized (the government pays the interest until you graduate) and unsubsidized (not need-based and you pay the interest from the beginning).
- **Federal PLUS Loans for Parents:** These are not need-based. Repayment of principal and interest begins within 60 days of disbursing the loan.
- **Federal College Work-Study Programs (CWS):** The student works "in the public interest" on campus or with a private not-for-profit or public agency.
- **Federal Perkins Loan:** These are funded at a low interest rate by the federal government and awarded by the institution. Repayment and interest begin nine months after a student leaves school.
- There are now tax credits available to parents through the HOPE Scholarship Program and Lifetime Learning credits, IRA Education Savings Accounts and Student Loan Interest Deductions.

Researching Scholarships

In addition to state and federal aid, many schools offer scholarships, as do businesses. Check with your parents' employers to see if they offer scholarships for their employees' children. Local fraternal organizations, churches and newspapers frequently offer scholarships and are worth investigating.

The State Student Assistance Commission provides online access to various sources of aid, including the College Board (SAT) Online, fastWeb (one of the best sites to start your scholarship search), FinAid, NCAA, Online Study Abroad Directory, U.S. Department of Education (for Pell Grants, Stafford Loans, etc.) and others.

Scholarship and grant money is available for most post-secondary education. Students might also decide to work and go to school part-time. Some assistance is even available to part-time students. Talk with your financial aid officer for direction in getting started.

State Student Assistance Commission Scholarships

• **The Frank O'Bannon Grant Program** is a need-based program for Indiana students attending Indiana post-secondary institutions which receive funding from the General Assembly.

• **The Hoosier Scholar Award** is a \$500 non-renewable scholarship awarded to high school seniors on the basis of academic merit.

• **The Twenty-First Century Scholars Program** is for families of low to moderate income and is based on a pledge made by 7th and 8th graders to stay drug and alcohol free, maintain at least a "C" average, and attend an Indiana college or university.

• **The Nursing Scholarship Award** is available to Hoosier students choosing nursing as a career and who sign a contract to work in nursing in Indiana for at least two years after graduation.

• Finally, Indiana has a **Summer State Work Study Program** for students who have used a Frank O'Bannon Grant the previous academic year. The work may be performed at state, city and local government offices, post-secondary schools or private not-for-profit organizations.

TOP 10 Mistakes Made on Scholarship Applications

1. Forgetting to include your name and address
2. Submitting an incomplete application
3. Being rude or abrasive to administration
4. Submitting an application with smudges or stains
5. Applying when you do not meet the minimum requirements
6. Sending it "postage due"
7. Mailing the envelope without the application
8. Submitting inappropriate supporting documentation (i.e. your baby picture)
9. Using messy handwriting or an illegible font
10. Misspellings and grammatical errors

• Also available is a **Minority Teacher Scholarship** available to minority students who major in education, special education, occupational or physical therapy. This scholarship may not be based solely on merit. Need may be considered but is not required. Students must make a pledge to teach in an Indiana school or practice in an accredited school, vocational rehabilitation center or other developmental disabilities center for a certain period of time.

Accessing Information

The Internet can be a very helpful tool in answering questions about financial aid, loans and scholarships. Many Web sites provide detailed explanations of the process of applying for assistance. They also may provide links to other informative and credible websites. These are only a few of the hundreds of websites available to students and their parents. If you do not have access to the Internet, try your local library or call one of the phone numbers provided below.

Indiana's Savings Plan for College: College Choice 529

An adult (over 18 years old) can establish a College Choice account for a child as soon as he or she has been assigned a Social Security number. Accounts can be established for newborns or for any aged child.

Whoever opens the account is considered the "owner", while the student is the "beneficiary."

When you have received confirmation that the account has been opened, you can begin making contributions. The minimum contribution to open an account is \$50 per portfolio. After the account has been established, the minimum investment is \$25 per portfolio. All money deposited and earned will remain in the account until the student is enrolled in a post-high school educational institution.

Once the enrollment is verified, the money can be distributed to pay all or a portion of the student's tuition and/or room and board expenses. Institutions eligible to receive this money include most accredited four-year colleges and universities, many accredited two-year institutions and certain proprietary or vocational schools.

Have Questions:

Call Toll-Free:
1-866-485-9415

or visit:
www.collegechoiceplan.com

Federal and state income and capital gains taxes on the account's earnings are deferred until the money is used to pay higher education expenses. Also, the savings

are taxable to the student, who usually has a lower tax rate than an adult.

Indiana tax payers are eligible for a state income tax credit of 20% on contributions for their College Choice 529 account up to a \$1,000 credit per year.

The Voice of Experience

These tips can make the process of financing your education a bit easier:

- Answer ALL the questions on the forms.
- Be sure to sign your name on each of the appropriate spaces.
- If you take out loans, be sure to borrow only as much as you really need.
- Turn in your financial aid paper work early to ensure that it will be processed on time.
- Be patient when attempting to straighten out any miscommunication with the financial aid office.
- Keep a file folder of all documents and information concerning your loans, scholarships and grants.

CHOOSING YOUR CAREER

Choosing which career is best for you is a big decision. No one expects you to set your life's plan in stone as soon as you graduate from high school. However, as you decide which college classes to take, or as you decide which vocational program to pursue, you may want to think about the types of jobs which interest you.

There are many points to consider when choosing a career path.

To help narrow your choices, set some guidelines for deciding. Find a field which truly interests you, one at which you can excel and one that will help you achieve your personal goals. You may want to choose a career that is in a growing industry where there is a greater chance of job openings, new positions to fill, opportunities to advance and/or higher pay.

Fastest Growing Occupations

1. Computer software engineers and support specialists
2. Database administrators
3. Medical assistants
4. Medical records and health information technicians
5. Physical therapist assistants
6. Fitness trainers and aerobics instructors
7. Veterinary technologists, assistants and technicians
8. Speech-language pathologists
9. Mental health and substance abuse social workers
10. Dental assistants

Fields with Promise

1. Healthcare
2. Computer/Information Technology
3. Criminal Justice
4. Education
5. Accounting and Finance
6. Social Assistance

Although it is not absolutely crucial, it is very helpful to start planning as early as possible because it may take time to learn enough about yourself to know what type of job is best for you. It is also likely that you will change your mind several times before settling into the right career.

Talking to people who work in the field you find interesting can help you get an idea of the types of jobs available. Sometimes job shadowing is an option.

Job shadowing is a chance to spend time in the workplace with someone who has a career about which you want to know more. Your guidance counselor may know of a program or company that provides an opportunity for job shadowing.

“Your imagination is your preview of life's coming attractions.”

-Einstein

Jump start your career with an Indiana House of Representatives Internship

Eligibility

Both the Democratic and Republican internships welcome students of all majors who exhibit proficient skill in writing and communication. Internships are open to college juniors, seniors, graduate students and recent graduates. Sophomores will be evaluated on a case by case basis. As interns, you will be part of a partisan staff, so please apply to either the Democratic or Republican program. We will not schedule interviews for applicants who apply to both caucuses.

Time Commitment

The internship is a full time position and lasts from January through approximately late April, with regular working hours varying slightly between the programs.

The work day for all interns is 7.5 hours Monday-Friday, varying between 8 a.m. to 5 p.m., depending on the caucus. Interns are highly encouraged to stay if the House session runs beyond regular office hours.

Benefits

This internship provides an opportunity to work closely with the representatives and make valuable contacts while building your resumé. Interns will be paid \$700 biweekly, with the ability to earn college credit for completing the internship. (Please see your school's academic advisor for details.) Free parking is also provided.

Location

Interns work alongside the members and staff of the House of Representatives and will have office space in the Statehouse in downtown Indianapolis.

The chamber of the Indiana House of Representatives

Rep. Frizzell works with an intern in the House Chamber

Application are usually accepted between August 1st and October 31st.

To find out more about this internship visit:
<http://www.in.gov/legislative/index.htm>

There are four different types of internships available with the Indiana House of Representatives on the Democrat and Republican staffs.

- Member Services
- Media
- Computer/Technology
- Policy/Fiscal.

IVY TECH

Community College

Ivy Tech Community College is the nation's largest state-wide community college with single accreditation. It is the state's largest public post-secondary institution serving more than 130,000 students a year.

Students enjoy the benefits of a large institution, with 23 campuses throughout the state, but an average class size of 22. This allows students to find personal attention close to home at Ivy Tech Community College.

Ivy Tech is the state's most affordable college. Students can earn a degree for around \$3,000 a year. And with credits that transfer, students can save money by completing the first two years of a four-year degree at Ivy Tech.

Ivy Tech Community College's Department of Workforce and Economic Development offers local, affordable solutions for Indiana

Who Should Attend

The Community College of Indiana?

The Community College of Indiana is for virtually anyone offering something for people of any age and any background. Those desiring to improve themselves by learning new skills, earning a degree or exploring possible avenues for their futures are all potential Community College of Indiana students.

What are the Requirements?

The Community College of Indiana has an open enrollment policy, which means that enrollment is open to everyone. To apply, students must complete three steps:

- 1) Fill out an admissions application (available online)
- 2) Submit a high school or college transcript
- 3) Take an academic skills assessment test

Ivy Tech offers degree programs at 23 campuses in 14 administrative regions. You can also take courses at many other sites around Indiana.

What Are the Advantages of Attending The Community College of Indiana?

- Ivy Tech is Indiana's most affordable college- costing about half the average annual cost of other schools for tuition and books.

Ivy Tech offers higher education at the lowest cost, giving you the perfect value for your investment. That investment could lead to an associate degree that could result in a good-paying job after graduation.

Or if you chose to transfer your credits, it will result in a big cost-saving on your way to earning a bachelor's degree.

- Ivy Tech Community College offers more than 150 programs and concentrations statewide.

Each campus provides a wide variety of options that let you hit the ground running, whether you want to continue your education at a four-year school or start your career as soon as possible.

- All 23 Ivy Tech campuses offer online courses. In fact, you can do more than just take a class – you can earn a degree through online learning.

Information provided by the Ivy Tech Community College of Indiana Web

ANOTHER CHOICE

U.S. MILITARY

Another option available for young adults is to attend the training program of one of the armed services before going to college. This is a great opportunity, as tuition is sometimes reimbursed through these organizations. The armed services may be just the road for young adults who are undecided about the path of their future. After all, the armed services trains young minds and rewards them with compensation, as well as the experiences of a lifetime.

RESEARCH YOUR OPTIONS!

You may visit any of these Web sites for additional information:

The Army: www.goarmy.com

The Navy: www.navy.com

The Marines: www.marines.com

The Air Force: www.airforce.com

The Coast Guard: www.cga.edu

Each of the following offers two, four or six-year programs:

Army. The Army defends the interests of the United States and its allies through land-based operations around the world. The Indiana Army National Guard provides similar opportunities. However, the National Guard allows their enlistees to attend the state college of their choice on a full or part time basis while serving with 100 percent tuition paid.

Marines. The only service tasked to be able to operate combined arms in air, land, and sea. The Marines are the nation's premier crisis response force, whether it be defending our nation in war, aiding with natural disaster relief overseas, or calming political unrest.

Air Force. The mission of the Air Force is to preserve national security through the use of advanced aerospace forces.

Coast Guard. The Coast Guard protects U.S. coastlines and inland waterways. Founded in 1876, the United States Coast Guard Academy has a proud tradition as one of the finest and most selective colleges in America. The smallest of the five Federal Service Academies, the Coast Guard provides a four-year Bachelor of Science program with a full scholarship for each individual. Unlike the other Federal Service Academies, however, there are no congressional appointments.

Navy. The Navy defends the right of our country and its allies to travel and trade freely on the world's oceans.
