OMPP modified the existing reimbursement methodology at [405 IAC 1-14.6-7](#) to describe nursing facilities that qualify for the capital rate add-on as being facilities that house a population of which at least one-quarter is under 21 years of age on December 31, 2006, that have certain maximum room occupancies, and that have certain minimum room sizes. Related exemptions from the capital component overall rate ceiling and the maximum allowable increase respectively in [405 IAC 1-14.6-9\(c\)\(4\)](#) and [405 IAC 1-14.6-23](#) are also described. The agency promulgated this rule due to the need for modernized pediatric long-term care facilities in the state.
