

**Letter of Findings Number: 09-0136**  
**Use Tax**  
**For Tax Year 2005**

**NOTICE:** Under IC § 4-22-7-7, this document is required to be published in the Indiana Register and is effective on its date of publication. It shall remain in effect until the date it is superseded or deleted by the publication of a new document in the Indiana Register. The publication of this document will provide the general public with information about the Department's official position concerning a specific issue.

**ISSUES**

**I. Use Tax–Bobcat.**

**Authority:** IC § 6-2.5-5-1; IC § 6-2.5-5-2; IC § 6-8.1-5-1; [45 IAC 2.2-5-4](#).

Taxpayer protests the assessment of use tax on a Bobcat.

**II. Tax Administration–Negligence Penalty.**

**Authority:** IC § 6-8.1-10-2.1; [45 IAC 15-11-2](#).

Taxpayer protests the imposition of a ten percent negligence penalty.

**STATEMENT OF FACTS**

Taxpayer owns a construction company and a cattle farm. In December 2005, Taxpayer bought a Bobcat tractor and provided an exemption certificate to the seller. Therefore, Taxpayer did not pay sales tax on the Bobcat at the time of purchase. The Bobcat is used in the construction business primarily in foundation work and site preparation. The Bobcat is used on the farm in various capacities. As the result of an investigation, the Indiana Department of Revenue ("Department") issued a proposed assessment for use tax on the purchase of the Bobcat. Taxpayer protests the proposed assessment of tax and negligence penalty. Further facts will be supplied as required.

**I. Use Tax–Bobcat.**

**DISCUSSION**

Taxpayer protests the imposition of use tax on the purchase of a Bobcat. Taxpayer acknowledges that the use of the Bobcat in the construction business is taxable, but protests that the use of the Bobcat on the farm is exempt. The Department notes that the burden of proving a proposed assessment wrong rests with the person against whom the proposed assessment is made, as provided by IC § 6-8.1-5-1(c).

The use tax is imposed under IC § 6-2.5-3-2(a), which states:

An excise tax, known as the use tax, is imposed on the storage, use, or consumption of tangible personal property in Indiana if the property was acquired in a retail transaction, regardless of the location of that transaction or of the retail merchant making that transaction

The relevant statutes regarding agricultural exemptions are IC § 6-2.5-5-1 and IC § 6-2.5-5-2. IC § 6-2.5-5-1 states:

Transactions involving animals, feed, seed, plants, fertilizer, insecticides, fungicides, and other tangible personal property are exempt from the state gross retail tax if:

- (1) the person acquiring the property acquires it for his direct use in the direct production of food and food ingredients or commodities for sale or for further use in the production of food and food ingredients or commodities for sale; and
- (2) the person acquiring the property is occupationally engaged in the production of food and food ingredients or commodities which he sells for human or animal consumption or uses for further food and food ingredient or commodity production.

IC § 6-2.5-5-2 states:

(a) Transactions involving agricultural machinery, tools, and equipment are exempt from the state gross retail tax if the person acquiring that property acquires it for his direct use in the direct production, extraction, harvesting, or processing of agricultural commodities.

(b) Transactions involving agricultural machinery or equipment are exempt from the state gross retail tax if:

- (1) the person acquiring the property acquires it for use in conjunction with the production of food and food ingredients or commodities for sale;
- (2) the person acquiring the property is occupationally engaged in the production of food or commodities which he sells for human or animal consumption or uses for further food and food ingredients or commodity production; and
- (3) the machinery or equipment is designed for use in gathering, moving, or spreading animal waste.

Also of relevance is [45 IAC 2.2-5-4](#), which states in relevant part:

...

(c) The following is a partial list of items which are considered subject to the sales tax.

**TAXABLE TRANSACTIONS**

Fences, posts, gates, and fencing materials.

Water supply systems for personal use.

Drains.

Any motor vehicle which is required by the motor vehicle law to be licensed for highway use.

Ditchers and graders.

Paints and brushes.

Refrigerators, freezers, and other household appliances.

Garden and lawn equipment, parts, and supplies.

Electricity for lighting and other non-agricultural use.

Any materials used in the construction or repair of non-exempt: buildings, silos, grain bins, corn cribs, barns, houses, and any other permanent structures.

Items of personal apparel, including footwear, gloves, etc., furnished primarily for the convenience of the workers if the workers are able to participate in the production process without it.

Pumps.

All saws.

All tools, including forks, shovels, hoes, welders, power tools, and hand tools.

Building materials or building hardware such as lumber, cement, nails, plywood, brick, paint.

Plumbing, electrical supplies, and accessories, pumps.

Horses, ponies, or donkeys not used as draft animals in the production of agricultural products.

Food for non-exempt horses, ponies, etc.

Fertilizer, pesticides, herbicides, or seeds to be used for gardens and lawns.

Field tile or culverts.

Graders, ditchers, front end loaders, or similar equipment (except equipment designed to haul animal waste).

Any replacement parts or accessories for the above items.

(d) Each of the following items is considered exempt from the sales tax ONLY when the purchaser is occupationally engaged in agricultural production and uses the items directly in direct production of agricultural products.

#### EXEMPT TRANSACTIONS

(1) Livestock and poultry sold for raising food for human consumption and breeding stock for such purposes.

(2) Feed and medicines sold for livestock and poultry described in Item (1).

(3) Seeds, plants, fertilizers, fungicides, insecticides, and herbicides.

(4) Implements used in the tilling of land and harvesting of crops therefrom, including tractors and attachments.

(5) Milking machines, filters, strainers, and aerators.

(6) Gasoline and other fuel and oil for farm tractors and for other exempt farm machinery.

(7) Grease and repair parts necessary for the servicing of exempt equipment.

(8) Containers used to package farm products for sale.

(9) Equipment designed to haul animal waste.

(10) Equipment such as needles, syringes, and vaccine pumps.

(e) The fact that an item is purchased for use on the farm does not necessarily make it exempt from sale [sic.] tax. It must be directly used by the farmer in the direct production of agricultural products. The property in question must have an immediate effect on the article being produced. Property has an immediate effect on the article being produced if it is an essential and integral part of an integrated process which produces agricultural products. The fact that a piece of equipment is convenient, necessary, or essential to farming is insufficient in itself to determine if it is used directly in direct production as required to be exempt.

(f) If a farmer makes a purchase tax exempt and later determines that the purchase should have been taxable, a use tax is due on the purchase price and should be remitted to the department of revenue along with the next annual income tax return, except for sales tax on gasoline which must be shown on the claim for motor fuel tax refund.

....

(Emphasis added).

In the course of the protest process, Taxpayer explained that the Bobcat is used approximately sixty-two (62) hours per year on construction activities. Also the Bobcat is used approximately two hundred and seventy-one (271) hours per year on the farm. The Bobcat is therefore used 333 hours per year.

Taxpayer provided a breakdown of the different activities and hours per activity on the farm. As provided by IC § 6-2.5-5-1, IC § 6-2.5-5-2, and [45 IAC 2.2-5-4](#), some activities are taxable and some are non-taxable. Of the eleven farm activities listed, items three (3), five (5), six (6), and eleven (11), are non-taxable since they involve feeding cattle or hauling animal waste. These four activities total ninety-five (95) hours of exempt activity.

Therefore, 28.5 percent of the Bobcat usage is exempt. The Department will recalculate the amount of use tax due using the 28.5 percent exemption rate and will issue a new bill to Taxpayer.

#### FINDING

Taxpayer's protest is sustained to the extent of the exempt percentage discussed above.

## II. Tax Administration–Negligence Penalty.

### DISCUSSION

The Department issued a proposed assessment and the ten percent negligence penalty for the tax years in question. Taxpayer protests the imposition of penalty and states that the equipment discussed in Issue I was used at least for some exempt purposes. The Department refers to IC § 6-8.1-10-2.1(a), which states in relevant part:

If a person:

...

(3) incurs, upon examination by the department, a deficiency that is due to negligence;

...

the person is subject to a penalty.

The Department refers to [45 IAC 15-11-2](#)(b), which states:

Negligence, on behalf of a taxpayer is defined as the failure to use such reasonable care, caution, or diligence as would be expected of an ordinary reasonable taxpayer. Negligence would result from a taxpayer's carelessness, thoughtlessness, disregard or inattention to duties placed upon the taxpayer by the Indiana Code or department regulations. Ignorance of the listed tax laws, rules and/or regulations is treated as negligence. Further, failure to read and follow instructions provided by the department is treated as negligence. Negligence shall be determined on a case by case basis according to the facts and circumstances of each taxpayer.

(Emphasis added.)

[45 IAC 15-11-2](#)(c) provides in pertinent part:

The department shall waive the negligence penalty imposed under [IC 6-8.1-10-1](#) if the taxpayer affirmatively establishes that the failure to file a return, pay the full amount of tax due, timely remit tax held in trust, or pay a deficiency was due to reasonable cause and not due to negligence. In order to establish reasonable cause, the taxpayer must demonstrate that it exercised ordinary business care and prudence in carrying out or failing to carry out a duty giving rise to the penalty imposed under this section.

In this case, Taxpayer incurred an assessment which the Department determined was due to negligence under [45 IAC 15-11-2](#)(b), and so was subject to a penalty under IC § 6-8.1-10-2.1(a). Taxpayer has established that the assessment was due to reasonable cause and not due to negligence, as required by [45 IAC 15-11-2](#)(c).

### FINDING

Taxpayer's protest is sustained.

### CONCLUSION

Taxpayer is sustained on Issue I subject to recalculation using the new exemption rate. Taxpayer is sustained on Issue II regarding imposition of penalty.
