IC 4-22-2.1-5 Statement Concerning Rules Affecting Small Businesses

The proposed rule will not impose requirements or costs on small businesses under [IC 4-22-2.1-5](#). This rule will make legal citation references consistent with amendments to [IC 15-16-5](#), will include employees of nonprofit organizations in the definition of public applicator, will eliminate reference to an outdated registration fee, will add a reference to a new applicator certification category designation, and will add references to both pesticides and fertilizers regulated by the State Chemist. Because these changes focus primarily on clarification of existing provisions and no new fees or regulatory requirements are being created, this rule will not impose any compliance costs to small businesses. In addition, the inclusion of nonprofit organizations in the definition of public pesticide applicator will eliminate any licensing fees that these individuals would have paid.
