
TITLE 329 SOLID WASTE MANAGEMENT DIVISION

FIRST NOTICE OF COMMENT PERIOD

LSA Document #14-111

SOLID WASTE FACILITY OPERATOR CERTIFICATION PROGRAM**PURPOSE OF NOTICE**

The Indiana Department of Environmental Management (IDEM) is soliciting public comment on amendments to rules at [329 IAC 12](#) concerning the solid waste facility operator certification program. IDEM seeks comment on the affected citations listed and any other provisions of Title 329 that may be affected by this rulemaking.

CITATIONS AFFECTED: [329 IAC 12](#).

AUTHORITY: [IC 13-14-8-1](#); [IC 13-14-8-2](#); [IC 13-14-8-7](#); [IC 13-15-2-1](#); [IC 13-15-10](#); [IC 13-19-3-1](#); [IC 13-19-3-2](#).

SUBJECT MATTER AND BASIC PURPOSE OF RULEMAKING**Basic Purpose and Background**

The solid waste facility operator certification program is required under [IC 13-15-10](#). State law requires the board to adopt rules to establish standards for the training, examination, certification, and renewal certification of operators of solid waste land disposal facilities. In accordance with [IC 13-15-10-2](#), solid waste facilities that are required to have a certified operator cannot obtain or renew a permit to operate unless the facility is operated by an individual certified under this program. Through the program, IDEM is assured that solid waste facilities have a certified and trained operator on-site, and operators have the opportunity to stay current with industry conditions. Since the rules pertaining to the program were last modified, IDEM has received comments about the efficacy of the program and suggestions to improve the program.

In response to external comments and internal considerations, IDEM is proposing to make changes to the solid waste facility operation certification program rules in order to:

- offer more flexibility for the certification and recertification course content;
- provide additional training options for completing required courses;
- extend the period of time allowed between operator recertifications;
- clarify sections throughout the rule; and
- update the rule to adapt to changing conditions in the industry.

These changes will provide more flexibility for persons and entities that are required to comply with certified solid waste facility operator rules, and are intended to decrease the burden on regulated entities. If the time frame for recertification is extended, the cost to comply with the training requirements will go down, therefore reducing costs for regulated entities.

Persons and entities that will be affected by this rulemaking include current and future certified solid waste facility operators, solid waste management facilities, and institutions that provide the accredited tests and training courses for operator certification.

IDEM seeks comment on the affected citations listed, including suggestions for specific language, alternative ways to achieve the purpose of the rulemaking, and any other provisions of Title 329 that may be affected by this rulemaking.

Alternatives to Be Considered Within the Rulemaking

Alternative 1. Offer more flexibility for course content, extend the period of time allowed between operator recertification, clarify sections throughout the rule, and update the rule to current conditions in the industry.

- Is this alternative an incorporation of federal standards, either by reference or full text incorporation? No.
- Is this alternative imposed by federal law or is there a comparable federal law? This alternative is not imposed by federal law and there is no comparable federal law. It is a "state-only" requirement under [IC 13-15-10](#).
- If it is a federal requirement, is it different from federal law? Not applicable.
- If it is different, describe the differences. Not applicable.

Alternative 2. Do not amend [329 IAC 12](#).

- Is this alternative an incorporation of federal standards, either by reference or full text incorporation? No.
- Is this alternative imposed by federal law or is there a comparable federal law? This alternative is not imposed by federal law and there is no comparable federal law. It is a "state-only" requirement.
- If it is a federal requirement, is it different from federal law? Not applicable.
- If it is different, describe the differences. Not applicable.

Applicable Federal Law

None.

Potential Fiscal Impact

Potential Fiscal Impact of Alternative 1. This alternative will have a minimal fiscal impact because it may, in fact, decrease costs to regulated entities if the time frame between recertification is increased.

Potential Fiscal Impact of Alternative 2. This alternative will not have a fiscal impact.

Small Business Assistance Information

IDEM established a compliance and technical assistance program (CTAP) under [IC 13-28-3](#). The program provides assistance to small businesses and information regarding compliance with environmental regulations. In accordance with [IC 13-28-3](#) and [IC 13-28-5](#), there is a small business assistance program ombudsman to provide a point of contact for small businesses affected by environmental regulations. Information on the CTAP program, the monthly CTAP newsletter, and other resources available can be found at:

www.in.gov/idem/ctap

For purposes of [IC 4-22-2-28.1](#), small businesses affected by this rulemaking may contact the Small Business Regulatory Coordinator:
