

Emergency Rule
LSA Document #14-290(E)

DIGEST

Temporarily adds provisions supplemental to [345 IAC 3](#) to establish case reporting requirements for swine enteric coronavirus diseases. Temporarily adds provisions supplemental to [345 IAC 3](#) to require the owner of a confirmed positive herd to submit a herd management plan to the state veterinarian. Statutory authority: [IC 15-17-3-21](#); [IC 15-17-10-9](#). Effective July 16, 2014.

SECTION 1. (a) This SECTION is supplemental to [345 IAC 3](#).

(b) The definitions in [IC 15-17-2](#) and this SECTION apply throughout this document:

(1) "Confirmed positive case" means a pig that has:

(A) tested positive for PEDv, PDCoV, or other emerging swine enteric coronavirus by PCR, virus isolation, or viral genetic sequencing; and

(B) has a history of clinical signs consistent with SECD, or is from a swine herd with a history of clinical signs consistent with SECD.

(2) "Confirmed positive herd" means a swine herd with one (1) or more confirmed positive cases.

(3) "Herd management plan" means a plan prepared by a veterinarian that meets the requirements set forth in this rule *[document]*.

(4) "Negative case" means a pig that has tested negative for PEDV, PDCoV, or other emerging swine enteric coronavirus by PCR, virus isolation, or viral genetic sequencing.

(5) "PDCoV" means the porcine delta coronavirus.

(6) "PEDv" means the porcine epidemic diarrhea virus.

(7) "Presumptive positive case" means a pig that has tested positive for PEDv, PDCoV, or other emerging swine enteric coronavirus by PCR, virus isolation, or viral genetic sequencing with either nonspecific, unknown, or no clinical signs or history consistent with SECD.

(8) "SECD" means swine enteric coronavirus disease.

(9) "State veterinarian" means the Indiana state veterinarian.

SECTION 2. (a) This SECTION is supplemental to [345 IAC 3](#).

(b) A herd owner, veterinarian, caretaker, custodian, or laboratory personnel that receives information of a:

(1) presumptive positive case;

(2) confirmed positive case; or

(3) a negative case;

for PEDv, PDCoV, or other emerging swine enteric coronavirus disease in a herd located in Indiana must report that information to the state veterinarian within two (2) business days of receiving the information. If a sample is submitted to a National Animal Health Laboratory Network (NAHLN) laboratory for testing and the result is sent by the laboratory to the state veterinarian, duplicate reporting by the herd owner, veterinarian, caretaker, or custodian is not required.

(c) The information that is required to be submitted in subsection (b) shall be submitted in the form and method required by the state veterinarian.

SECTION 3. (a) This SECTION is supplemental to [345 IAC 3](#).

(b) An owner of a confirmed positive herd must follow and provide the state veterinarian with a copy of a herd management plan developed through a relationship with a herd veterinarian.

(c) The herd management plan shall comprehensively address potential means of transmission and incorporate industry best practices for disease control.

(d) The herd plan required in subsection (b) shall be submitted no later than forty-five (45) days after the date the state veterinarian receives notice of a positive case under section two (2) of this document *[SECTION 2 of this document]*.
