

Economic Impact Statement

LSA Document #16-52

IC 4-22-2.1-5 Statement Concerning Rules Affecting Small Businesses

IC 4-22-2.1-5(a) provides that an agency that intends to adopt a rule under IC 4-22-2 that will impose requirements or costs on small businesses must prepare a statement that describes the annual economic impact of the rule on small businesses after the rule is fully implemented as described in IC 4-22-2.1-5(b). That statement must be submitted to the Office of Small Business and Entrepreneurship within the Office of the Lieutenant Governor.

Pursuant to Executive Order 13-03, the Indiana Gaming Commission (Commission) worked with the Office of Management and Budget to review its regulations in Title 68 of the Indiana Administrative Code to determine the current necessity and effectiveness. The proposed rule relates to four specific areas, disciplinary action, deviations from provisions, excursions, and ethics, that were identified as opportunities to clarify, simplify, and update the regulations.

Estimated Number of Small Businesses Affected:

The proposed rule will affect all Commission licensees, employees, and members. Only casino and supplier licensees could qualify as a small business. Pursuant to IC 4-22-2.1-4, a small business is a business entity that satisfies the following requirements:

- (1) On at least fifty percent (50%) of the working days of the business entity occurring during the preceding calendar year, the business entity employed not more than one hundred fifty (150) employees.
- (2) The majority of the employees of the business entity work in Indiana.

Casino licensees affected by the proposed rule do not meet the above definition of a small business because each casino employs more than 150 employees during at least 50% of the working days during the previous calendar year. It is possible that a small business could be affected by this rule in the future if a small business becomes a Commission supplier licensee, but as of now, none will be.

Estimated Administrative Costs Imposed on Small Businesses:

The Commission estimates that there are no costs because the proposed rule affects no small businesses.

Estimated Total Annual Economic Impact on Small Businesses:

The Commission estimates that there will be \$0 total fiscal impact on small businesses as a result of compliance with this proposed rule.

Justification of Requirements or Costs:

The Commission has no justification of requirements or costs because there are none.

Regulatory Flexibility Analysis:

The Commission does not propose an alternative regulatory method.
