Overview

Since 2008, the Healthy Indiana Plan (HIP) model has demonstrated remarkable success in activating beneficiaries into engaged participants and improving outcomes. The expanded HIP 2.0 program has seen consistent results since 2015, proving that HIP's consumer driven model is scalable and remains successful in empowering enrollees to become active consumers of healthcare services. Through the HIP Waiver extension, the State's objective is to continue its highly successful HIP 2.0 program for the maximum waiver renewal period of three years in its current form with the following minor technical revisions and program enhancements:

- Expanded healthy incentives program targeting four focus areas: (i) tobacco cessation; (ii) substance use disorder; (iii) chronic disease management; and (iv) employment;
- Tobacco-user POWER account surcharge;
- HIP Plus incentive;
- Reestablish an open enrollment period;
- Facilitate enrollment for pregnant women;
- Other technical updates to the 2015 HIP Special Terms and Conditions, such as continuation of current nonemergency transportation waiver and emergency room copayment policies;
- Facilitate family coverage through HIP Employer Link; and
- Expand access to Substance Use Disorder (SUD) treatment.
