
OFFICE OF THE SECRETARY OF FAMILY AND SOCIAL SERVICES**Indiana Family and Social Services Administration
Notice of Public Comment Period for
Statewide Transition Plan for Compliance with
Home and Community-Based Settings Final Rule
August 22, 2018**

Notice is hereby given that the Indiana Family and Social Services Administration (FSSA) will submit to the Centers for Medicare and Medicaid Services (CMS) a revision to Indiana's Statewide Transition Plan for compliance with the Home and Community-Based Services (HCBS) regulations of 42 CFR 441.301(c)(4)-(5) and Section 441.710(a)(1)-(2).

PURPOSE

Effective March 17, 2014, CMS has issued regulations that define the settings in which it is permissible for states to pay for Medicaid HCBS. The purpose of these regulations is to ensure that individuals receive Medicaid HCBS in settings that are integrated and that support full access to the greater community. This includes opportunities to seek employment and work in competitive and integrated settings, engage in community life, control personal resources, and receive services in the community to the same degree as individuals who do not receive HCBS. These changes will maximize the opportunities for participants in HCBS programs to have access to the benefits of community living and to receive services in the most integrated setting.

States must ensure all HCBS settings comply with the federal requirements by completing an assessment of existing state standards including rules, regulations, standards, policies, licensing requirements, and other provider requirements.

FSSA has created a Statewide Transition Plan to assess compliance with the federal regulations and identify strategies and timelines for coming into compliance with the regulations as they relate to all FSSA HCBS programs. States must be in full compliance with the federal requirements by March 17, 2022. Version 8 of Indiana's Statewide Transition Plan includes updated timelines and additional detail on the heightened scrutiny process.
