

Emergency Rule
LSA Document #19-491(E)

DIGEST

Temporarily amends [312 IAC 1-1-26](#) by removing subdivision (2), which sets the shore of Lake Michigan at five hundred eighty-one and five-tenths (581.5) feet I.G.L.D. 1985, from the definition of "ordinary high watermark". Effective September 16, 2019.

SECTION 1. (a) This SECTION supersedes [312 IAC 1-1-26](#).

(b) "Ordinary high watermark" means the following:

(1) The line on the shore of a waterway established by the fluctuations of water and indicated by physical characteristics. Examples of these physical characteristics include the following:

- (A) A clear and natural line impressed on the bank.**
- (B) Shelving.**
- (C) Changes in character of the soil.**
- (D) The destruction of terrestrial vegetation.**
- (E) The presence of litter or debris.**

SECTION 2. This document takes effect on September 16, 2019.

SECTION 3. This document expires on September 14, 2020.
