SECTION 1. [50 IAC 2.4-1-1](#) IS AMENDED TO READ AS FOLLOWS:

[50 IAC 2.4-1-1](#) Applicability; provisions; procedures

Authority: [IC 4-22-2-21](#); [IC 6-1.1-4-26](#); [IC 6-1.1-31](#); [IC 6-1.1-35-1](#)

Affected: [IC 5-3-1](#); [IC 6-1.1-4](#); [IC 6-1.1-15](#); [IC 6-1.1-31-5](#)

Sec. 1. (a) This article applies to the assessment of all real property under [IC 6-1.1-4](#).

(b) All real property assessed after ~~February 28, 2014~~, **December 31, 2020**, must be assessed in accordance with the 2014 **2021** Real Property Assessment Manual (**Manual**) and the Real Property Assessment Guidelines for 2014 **2021** (**Guidelines**), incorporated by reference under section 2 of this rule.

(c) The purpose of this rule is to accurately determine "true tax value" as defined in the 2014 **2021** Real Property Assessment Manual and the Real Property Assessment Guidelines for 2014 **2021**, not to mandate that any specific assessment method be followed. The intent of the department of local government finance is that an assessment determined by an assessing official in accordance with this rule, and the Manual and Guidelines incorporated herein by reference, shall be presumed to be correct. Any evidence relevant to the true tax value of the property as of the assessment date may be presented to rebut the presumption of correctness of the assessment. Such evidence may include an appraisal prepared in accordance with generally recognized appraisal standards; however, there is no requirement that an appraisal be presented either to support or to rebut an assessment. Instead, the validity of the assessment shall be evaluated on the basis of all relevant evidence presented. Whether an assessment is correct shall be determined on the basis of whether, in light of the relevant evidence, it reflects the property's true tax value.

(d) If the county assessor elects, under [IC 6-1.1-31-5](#), to consider additional factors not provided for in this rule or the Manual and Guidelines incorporated herein by reference, the county assessor shall submit a written request for approval of such factors by the department of local government finance at least sixty (60) days before the assessments are made and not later than ~~January 1, 2014~~. **November 1, 2020**. To be approved, the

additional factors must assist in the effort to establish true tax value.

SECTION 8. [50 IAC 4.2-1-1.1](#) IS AMENDED TO READ AS FOLLOWS:

[50 IAC 4.2-1-1.1](#) Primary definitions

Authority: [IC 6-1.1-31-1](#)

Affected: [IC 6-1.1-1-11](#); [IC 6-1.1-3-1.5](#)

Sec. 1.1. (a) The definitions in this section apply throughout this article.

(b) "Assessed value" or "valuation" means an amount equal to the true tax value of property rounded to the nearest ten dollars (\$10).

(c) "Assessing official" means a:

- (1) township assessor, if any;
- (2) county assessor; or
- (3) member of a county property tax assessment board of appeals.

(d) "Assessment date" means ~~March 1~~. **January 1.**

(e) "Construction in process" means tangible personal property not placed in service. The term includes tangible personal property that has not been depreciated and is not yet eligible for federal income tax depreciation under the Internal Revenue Code. The term does not include inventory, special tools, leased property, or returnable containers.

(f) "Critical spare parts" means parts that are maintained for possible future replacement of parts in use in operating equipment. Critical spare parts are maintained on-site, sometimes for a considerable period of time, to avoid a disruption of production if replacement of a failed part cannot otherwise be made immediately.

(g) "Department" means the department of local government finance.

~~(g)~~ **(h) "Depreciable personal property" means all personal property that is used in a trade or business, used for the production of income, or held as an investment that should be or is subject to depreciation for federal income tax purposes, except to the extent that property is treated otherwise in this article. has the meaning set forth in [50 IAC 4.2-4-1](#).**

~~(h)~~ **(i) "Filing date" means the ~~May 15~~ date on which every person owning, holding, possessing, or controlling tangible personal property with a tax situs within the state of Indiana as of ~~March 1~~ the assessment date of any year is required to file a personal property tax return. unless an extension of time to file is obtained. As specified in [IC 6-1.1-3-1.5](#), the filing date is May 15, and shall be considered the filing date for a return regardless of any extension period granted or return filed.** If the filing date falls on a Saturday, a Sunday, a national legal holiday recognized by the federal government, or a statewide holiday, the next succeeding business day that is not a Saturday, Sunday, or federal or state holiday becomes the filing date.

~~(i)~~ **(j) "Inventory" means:**

- (1) materials held for processing or for use in production;
- (2) finished or partially finished goods of a manufacturer or processor;
- (3) property held for sale in the ordinary course of trade or business; and

(4) items that qualify as inventory under [50 IAC 4.2-5-1](#).

The term excludes items that are or should be subject to federal tax depreciation and that are or should be reported for Indiana property tax purposes at cost per [50 IAC 4.2-2-2](#) in Pool 1 ([50 IAC 4.2-4-5](#)) including rent to own assets; DVD, CD, and video games held for rent; and equipment held for rent that is fully expensed in its first year.

~~(j) "Nonsubstantial compliance"~~ **(k) "Not substantially compliant"** means a tax return that:

- (1) omits five percent (5%) or more of the **book** cost ~~per books~~ of the tangible personal property at the location in the taxing district for which a return is filed;
- (2) omits leased property and other nonowned personal property assessable under [50 IAC 4.2-2-4\(b\)](#) where such omitted property exceeds five percent (5%) of the total assessed value of all reported personal property; or
- (3) is filed with the intent to evade personal property taxes or assessment.

~~(k) (l)~~ **(l) "Original personal property return"** means a personal property tax return filed with the proper assessing official by May 15 or, if an extension is granted, the extended filing date.

~~(l) (m)~~ **(m) "Personal property"**:

- (1) has the meaning set forth in [IC 6-1.1-1-11](#); and
- (2) also includes nonautomotive equipment attached to excise vehicles.

~~(m) (n)~~ **(n) "Personal property and real property guide"** means a listing of items of machinery, equipment, or structures as to their assessability as real or personal property for Indiana assessment purposes. Generally, if the item is directly used for manufacturing or a process of manufacturing, it is to be considered as personal property. If the item is land or a building improvement, it is to be considered as real property.

~~(n) (o)~~ **(o) "Placed in service"** means the asset is ready and available for a specific use whether in a trade or business, the production of income, or a tax exempt activity. An asset is assessed until it is retired from service. An asset is retired property from service when it is permanently withdrawn from use by:

- (1) sale or exchange of the property;
- (2) conversion to personal use;
- (3) abandonment;
- (4) transfer to a supply or scrap account; or
- (5) property is destroyed.

~~(o) (p)~~ **(p) "Special tools"** includes, but is not limited to, tools, dies, jigs, fixtures, gauges, molds, and patterns acquired or made for the production of products or product models, which are of such specialized nature that their utility generally ceases with the modification or discontinuance of such products or product models. Those items of "special tools" being manufactured or built for sale or lease to another person must be valued as inventory pursuant to [50 IAC 4.2-5](#).

~~(p) (q)~~ **(q) "State board of tax commissioners"** means the department of local government finance.

~~(q) (r)~~ **(r) "Tax rate"** means a tax rate that is levied at a rate of tax per one hundred dollars (\$100) of assessed valuation by each taxing district.

~~(r) (s)~~ **(s) "Tax payment date"** means property taxes that are based on the amount of the March 1 assessment for a given year and are due in two (2) equal installments on May 10 and November 10 of the following year. If any due date falls on a Saturday, a Sunday, a national legal holiday recognized by the federal government, or a statewide holiday, the next succeeding business day that is not a Saturday, Sunday, or federal or state holiday becomes the due date.

~~(s) (t)~~ **(t) "Taxing district"** means an area within a township having tax levies and rates different from the tax levies and rates in other areas within the same township.

~~(t) (u)~~ **(u) "True tax value"** as used in this article means the resultant value of property determined in accordance

with the rules issued by the department, exclusive of those portions of the rules related to determining assessed value.

Affected: [IC 6-1.1-8-3](#)

Sec. 1. (a) A personal property tax return must be filed in each taxing district where property has a tax situs

subject to the qualifications contained in this article. A return may cover all business locations in a single taxing district. However, if the property is located in two (2) or more taxing districts within the same township, a separate return must be filed reporting the property in each of the taxing districts.

(b) Personal property that is owned by a person who is a resident of this state shall be assessed at the place where the owner is a resident except where personal property has a tax situs on the assessment date at another location in the state and the property is regularly used or permanently located, in which instance the assessment shall be made in such location.

(c) Personal property that is owned by a person who is a nonresident of this state shall be assessed at the place where the owner's principal office within this state is located, except where personal property has a tax situs on the assessment date at another location within the state where it is regularly used or permanently located. In such an instance, the return or returns should be filed in the taxing district where the property is permanently located or regularly used. When the owner does not have a principal office in the state, the property will be assessed where located on the assessment date.

(d) To the extent that residence determines the place of assessment of personal property held by a fiduciary in ~~their~~ **its** fiduciary capacity, the residence of the fiduciary shall govern, except that in the assessment of personal property of an estate of a deceased person, the actual residence in this state of the deceased person immediately before death shall be applicable until such property has been distributed.

(e) ~~Questions regarding proper place of assessment.~~ If a controversy arises concerning the appropriate taxing district for assessing personal property, the determination made as follows shall be summary and final:

(1) The county assessor shall determine the correct taxing district for assessment purposes if a question arises as to the appropriate taxing district within the county.

(2) The department shall determine the proper county for assessment if the question arises as to which county within the state is the proper tax situs.

(f) A taxpayer that is described in [IC 6-1.1-8-3\(b\)](#), that is, a taxpayer whose property is subject to state distributable property assessment under [50 IAC 5.1](#), may elect to file under [IC 6-1.1-8-3\(c\)\(6\)](#) if found eligible under that statute.

Sec. 4. (a) The owner of any personal property on the assessment date of a year is liable for the taxes imposed for that year on the property. The owner of any personal property is generally the holder of legal title except when:

- (1) title passes on ~~March 1~~ **January 1** of any year, only the person last obtaining title on said date shall be deemed to have title on ~~March 1~~; **January 1**; and
- (2) personal property is security for a debt and the debtor is in possession of such property, such debtor shall be deemed to be the owner.

(b) ~~Possessory interests.~~ A person holding, possessing, or controlling any personal property on the assessment date of a year is liable for the taxes imposed for that year on the property unless ~~they establish the~~ **person establishes** that the property is being assessed and taxed in the name of owner, or the owner is liable for the taxes under a contract with that person and that person files a correct Form 103-N (section 9 of this rule) supplemental information return on or before the due date ~~(May 15 with extension)~~. **(unless an extension is granted)**. When a person other than the owner pays any property taxes as required by this section, that person may recover the amount paid from the owner unless the parties have agreed to other terms in a contract.

(c) The assessor shall assess the taxable property in the name of the owner of the property to the extent the owner has been identified. A person holding, possessing, controlling, or occupying any personal property on the assessment date of the year is liable for the taxes imposed for that year on the property unless they establish that the property is being assessed and taxed in the name of the owner or the owner is liable for the taxes under contract with that person and that person files a correct Form 103-N (section 9 of this rule) supplemental information return on or before the due date ~~(May 15 with extension)~~. **(unless an extension is granted)**.

Sec. 5.1. (a) A taxpayer may file an amended personal property tax return after the later of the following:

- (1) If no extension was granted under [IC 6-1.1-3-7](#)(b), an amended return must be filed within ~~six (6)~~ **twelve (12)** months of the original due date of the **original timely filed** return.
- (2) If an extension was granted under [IC 6-1.1-3-7](#)(b), an amended return must be filed within ~~six (6)~~ **twelve (12)** months of the extended filing date.

(b) A taxpayer who files a personal property tax return under [IC 6-1.1-3](#) may file no more than one (1) amended return under [IC 6-1.1-3-7.5](#).

(c) A taxpayer may claim on an amended personal property tax return any adjustment or exemption that would have been allowable as if the adjustment or exemption had been claimed on the original personal property return.

(d) A taxpayer must file the amended return on the same form prescribed by the department for the filing of an original personal property return, indicating that it is amended in a conspicuous place on the front of the return. The amended personal property return must be completed and filed with the township assessor, if any, or county assessor in the same manner as is required for the original personal property return.

(e) Except as provided in this article, an amended return remains subject to the review and adjustment of assessing officials in the same manner as original personal property returns.

(f) ~~The township assessor, if any, or the county assessor must report the assessed value resulting from an amended return to the county auditor on forms prescribed by the department.~~

~~(g) Within ten (10) days of receipt of an amended return submitted under subsection (e), the county auditor shall reflect the assessed value resulting from amended returns on the auditor's records of assessed valuation.~~

[50 IAC 4.2-2-10](#) Penalties

Authority: [IC 6-1.1-31-1](#)

Affected: [IC 6-1.1-3-7](#); [IC 6-1.1-3-7.5](#); [IC 6-1.1-3-9](#); [IC 6-1.1-3-14](#); [IC 6-1.1-5-13](#)

Sec. 10. (a) Any person who willfully makes and subscribes any return, statement, or other document which is verified under oath, which is certified as to the truth of the information contained therein, or which contains a written declaration that is made under the penalties of perjury, and ~~which~~ **that** he or she does not believe to be true and correct in every material respect shall be guilty of a crime and shall be subject to the same penalties as provided by law for perjury.

(b) If a person subject to [IC 6-1.1-3-7](#)(c) fails to include on a personal property return the information, if any, that the department requires under [IC 6-1.1-3-9](#) or [IC 6-1.1-5-13](#), the county auditor shall add a penalty to the property tax installment next due for the return. The amount of the penalty is twenty-five dollars (\$25). The purpose of this penalty is to require a full disclosure of the information related to the value, nature, or location of personal property on the personal property tax return for ~~that the~~ **the** year ~~which that~~ **that** is necessary for an assessing official to review the return. If this information is not provided, a thorough review of the return as required by law cannot take place.

(c) Failure to file a return or be granted an extension of time to file a return by May 15 as required by law will result in the imposition of a twenty-five dollar (\$25) penalty. In addition, if the return is not filed within thirty (30) days after such return is due, a penalty equal to twenty percent (20%) of the tax determined to be due will be imposed with respect to the personal property ~~which that~~ **that** should have been reported on the return. No return shall be considered due within the meaning of this article until the expiration of a period of any extension of time ~~which that~~ **that** may have been granted ~~pursuant to~~ **under** section 3 of this rule.

(d) If the total assessed value that a person reports on a **an original** personal property return is **discovered by the assessing official or the property tax assessment board of appeals during a review conducted under [IC 6-1.1-3-14](#) and [50 IAC 4.2-3.1](#)** to be less than the total assessed value that the person is required by law to report and if the amount of the undervaluation exceeds five percent (5%) of the value that should have been reported on the return, then the county auditor shall add a penalty of twenty percent (20%) of the additional taxes finally determined to be due as a result of the undervaluation. **However, a penalty under this subsection shall not be imposed on a taxpayer who filed an amended personal property return under [IC 6-1.1-3-7.5](#) to correct the taxpayer's undervaluation before Form 111/PP has been mailed to the taxpayer.**

(e) The purpose of the twenty percent (20%) penalty is to ensure a complete disclosure of all information required by the department on the prescribed self-assessment personal property forms. This enables the township assessor, county board of review, and department to carry out their statutory duties of examining returns each year to determine if they substantially comply with the rules of the department. This examination cannot take place if all required information is not shown on the self-assessment return form. It is not the purpose of this provision to impose a penalty on a person who has made a complete disclosure of information required on the assessment return form.

(f) If the person filing the self-assessment personal property return shows that the person is claiming an exemption or taking an adjustment for abnormal obsolescence or permanently retired equipment on the return form and has complied with all of the requirements for claiming that exemption or adjustment, no penalty should be added to the extent of the amounts accounted for on the return form.

(g) In considering whether or not a taxpayer has made a full and complete disclosure of information, the complete return package must be considered. A complete return package consists of the return form itself (Form 102 or 103) (section 9 of this rule) and all necessary supplemental forms and supporting schedules that must be filed with the return.

(h) If a person has complied with all of the requirements for claiming an exemption or adjustment for abnormal obsolescence or permanently retired equipment, then the increase in assessed value that results from a denial of the exemption or change in the amount of adjustment is considered to be interpretive difference not subject to the twenty percent (20%) penalty for undervaluation for purposes of this subsection. However, all other amounts not fully disclosed through omission or undervaluation that represent property subject to the reporting requirements of this article and the laws of this state are subject to the twenty percent (20%) penalty.

~~(e)~~ (i) Claims for deductions, exemptions, abnormal obsolescence, permanently retired equipment, and mathematical errors on the face of the return are excluded from the five percent (5%) undervaluation threshold of subsection (d).

(b) A notice of audit of assessment ~~on Form 116~~ will be mailed to the taxpayer advising the taxpayer at least ten (10) days in advance of the date, time, and place of the scheduled audit.

(c) The taxpayer is required to make available to the auditor of the department sufficient books, records, federal and state income tax returns, and related data to determine the assessment of the property in question. If the books, records, tax returns, and related data are not made available, a subpoena or a subpoena duces tecum will be issued to obtain this information unless in the judgment of the department other action would be more appropriate.

(d) Upon the completion of the audit, the auditor from the department shall make his **or her** findings and proposed assessed valuation known to the taxpayer.

Sec. 9. (a) The report required by section 8(e) of this rule, proposed assessment, and related information shall be considered by the department in determining the assessment of the taxpayer.

(b) If the taxpayer does not agree with the assessment recommended by the auditor, the taxpayer may petition the department to consider additional information, provided that the petition is made before the determination of the final assessment.

(c) If the taxpayer wants a hearing, the taxpayer must submit a letter requesting an administrative hearing to the department. Accompanying the letter should be a written brief or statement, along with any evidence, supporting the taxpayer's request for a hearing. The brief or statement should include a concise statement of the question in dispute and a summary of laws, regulations, and facts in support of such question.

(d) The department may hold an administrative hearing or appoint personnel to hold an administrative hearing at its discretion provided that the taxpayer has properly requested a hearing and the department determines that the taxpayer's facts and circumstances warrant an administrative hearing. The discussion at the hearing will be limited to the issues presented in the request for hearing unless, at the discretion of the department, it determines other issues should be discussed.

(e) If a hearing is held by the department, the department shall issue written findings of fact and conclusions of law related **to** the administrative hearing.

(f) A written notice ~~Form 148~~, of the final assessment will be given to the taxpayer, township assessor (if one exists), county assessor, and county auditor when an audit was conducted by ~~the~~ department on its own initiative.

~~(g) Any change in assessment by the department must be made and the notice of the assessment sent not later than October 1 of the year following the year of the assessment. - (1) There is a three (3) year limitation on the ability to change an assessment when a taxpayer has ~~not~~ filed a property tax return ~~in substantial compliance~~ **that is not substantially compliant** with the provisions of this article.
- (2) A ten (10) year limitation on the ability to change an assessment when a taxpayer is required to file a tax return as provided by law under this article and fails to file a return.
- (3) An unlimited statute of limitations applies to the ability to change an assessment when the taxpayer files a fraudulent personal property return or files a return with the intent to evade the payment of property taxes.

SECTION 22. [50 IAC 4.2-4-3](#) IS AMENDED TO READ AS FOLLOWS:

[50 IAC 4.2-4-3](#) Fully depreciated, retired, or nominally valued property; computer equipment; report and valuation

Authority: [IC 6-1.1-31-1](#)

Affected: [IC 6-1.1-1-11](#); [IC 6-1.1-3](#)

Sec. 3. (a) Depreciable personal property that has not been retired from use must be reported for personal property assessment purposes whether or not the cost of the property has been:

- (1) removed from;
- (2) recorded on; or
- (3) recorded at a nominal value on;

the taxpayer's books and records.

(b) Any fully depreciated personal property that:

- (1) has been written off the taxpayer's books and records; and
- (2) is:

- (A) on hand at the tax situs; and
- (B) not permanently retired;

on the assessment date;

must be reported in the return **at its original acquisition cost or its cost basis**. The cost of the property must be clearly shown as an adjustment in the space provided on the tax return as provided in section 4 of this rule.

(c) "Permanently retired depreciable personal property" means depreciable personal property that has been removed from ~~the manufacturing process on the assessment date, or has been removed from services other than manufacturing~~ **service** on the assessment date, and is awaiting disposition and must be scheduled to be scrapped, removed, or disposed of and will be considered to be permanently retired providing the taxpayer actually scraps or sells such property. **The term includes the following:**

(1) Depreciable personal property that is:

- (A) on hand at the tax situs on the assessment date, included in the cost per books as reported by the taxpayer in its return; and
- (B) permanently retired on the assessment date; ~~as herein defined;~~

is subject to an adjustment ~~as herein provided~~ if the taxpayer so elects.

(2) The cost per books of permanently retired depreciable property can be taken as an adjustment from book cost of depreciable property on the return provided the cost of the property is included in the cost per books actually reported on the return.

(3) In order to qualify for this adjustment, a taxpayer will need to substantiate that the property was:

- (A) permanently retired; and
- (B) not in use.

(d) Permanently retired depreciable personal property should be valued at its net scrap or net sale value. The valuation of this property:

- (1) should be shown separately on the tax return; and
- (2) will not be subject to the thirty percent (30%) limitation of original cost.

(e) Depreciable personal property recorded on the books and records at a nominal or no value must be recorded at its actual acquisition cost determined by reference to the insurable value **or other reliable information** in the year of acquisition for Indiana property tax assessment purposes. This category of property includes, but is not limited to, bulk purchase or the acquisition of a going business concern.

(f) ~~Valuation of computer equipment.~~ Computers are made up of the following three (3) elements:

- (1) Hardware.
- (2) Operational software.
- (3) Application software.

Computers (including hardware and operational software) must be reported at the actual acquisition cost regardless of how this property may be valued on the taxpayers' books and records.

(g) Computers are made up of the following elements:

(1) Hardware, composed of:

- (A) mechanical;
- (B) magnetic;
- (C) electrical; and
- (D) electronic;

devices and other components that constitute the physical computer assembly.

(2) Operational software. The operational program:

- (A) controls the hardware;
- (B) actually makes the machine operational;
- (C) is fundamental and necessary to the functioning of the computer hardware itself;
- (D) performs such functions as loading, scheduling, supervision, and data management;
- (E) represents the internalized instruction codes that translate information into a form usable by the equipment;
- (F) controls the basic operations of the central processing unit to perform arithmetic or logical operations, or both, automatically by means of programmed instructions; and
- (G) is not normally accessible or modifiable by the user.

(3) Application software. The application program is a written sequence of instructions that details the operations the equipment is to perform in order to achieve a specific objective of the user.

(h) If the value recorded on the books and records reflects charges for customer support services such as educational services, maintenance, or application software that relate to future periods and not to the value of the tangible personal property, the charges may be deducted as nonassessable intangible personal property (to the extent that a separate charge or value can be identified).

(i) The true tax value at the time of acquisition of computer application software may be identified using the following:

(1) An independent, professional appraisal:

- (A) must be made in conformance with generally accepted standards for appraisal practice;
- (B) shall not be based on a contingent fee arrangement;
- (C) shall include consideration of the cost, market, and income approaches; and
- (D) shall distinguish the boundary in the equipment between exempt intangible application software and nonexempt tangible operational software.

The appraiser must have demonstrated competence in the valuation of software.

(2) In lieu of an independent professional appraisal, the taxpayer can evaluate existing assets already listed on its books and records and adjust them accordingly to reflect the software content using the valuation methods described in subdivision (1)(C).

(j) The allocation of interest incurred during construction and installation must be made (capitalized) for personal property tax purposes regardless of the fact that Section 263 of the Internal Revenue Code is not applicable in certain cases.

Sec. 6. (a) After the allocation of adjusted cost of depreciable tangible personal property, as provided in section 5 of this rule, it will be necessary to determine the cost by year of acquisition for each pool. The number of years that are required to be segregated by year of acquisition will depend upon the particular pool.

(b) Each pool is required to be segregated as follows:

(1) Pool No. 1 requires the cost to be determined by year of acquisition for the three (3) years immediately preceding the assessment date. The balance of the cost of the assets in this pool will be includable in the fourth category.

(2) Pool No. 2 requires the cost by year of acquisition be determined for the six (6) years preceding the assessment date. The balance of the cost would be includable in the seventh category.

(3) Pool No. 3 requires that cost by year of acquisition be determined for the ten (10) years preceding the assessment date. The balance of such account would be includable in the eleventh category.

(4) Pool No. 4 requires that the cost by year of acquisition be determined for the twelve (12) years preceding the assessment date with the balance of the cost of such pool includable in the thirteenth category.

~~(c) [Voided by P.L.245-2015, SECTION 1, effective July 1, 2015.]~~

~~(d)~~ (c) For Indiana property tax purposes it will be presumed that the disposal of depreciable personal property occurs on a first-in, first-out basis unless the taxpayer establishes that such was not the case. SECTION 24. [50 IAC 4.2-4-8](#) IS AMENDED TO READ AS FOLLOWS:

[50 IAC 4.2-4-8](#) Adjustment for obsolescence

Authority: [IC 6-1.1-31-1](#)

Affected: [IC 6-1.1-3](#)

Sec. 8. (a) A taxpayer may claim an adjustment for abnormal obsolescence as defined in [50 IAC 4.2-9-3](#), on business personal property provided that such taxpayer follows the procedures and meets the requirements regarding an adjustment for abnormal obsolescence contained in ~~50 IAC 9-~~ [50 IAC 4.2-9](#). It includes the impairment of desirability and usefulness brought about by new inventions and improved processes for production, or the impairment of functional capacity or efficiency if the inadequacy or overadequacy causes a loss in value and has made the property incapable of continued use for a prolonged period during the assessment year.

(b) No adjustment will be allowed for normal obsolescence as defined in [59 IAC 9-50 IAC 4.2-9](#). The table to determine true tax value, as provided in section 7(b) of this rule, automatically makes allowance for this type of obsolescence. The values arrived at as a result of this table reflect the application of the double declining balance depreciation method to the point where straight line depreciation would be more beneficial to the taxpayer. This accelerated depreciation, and use of a short useful life and historical cost reflect any physical, functional, or economic obsolescence except to the extent that these items qualify for abnormal obsolescence as defined.

(c) The term "abnormal obsolescence" will be strictly construed and be limited to a situation where unforeseen changes in market values, exceptional technological obsolescence, or destruction by catastrophe occurs, providing that such events have a direct effect upon the valuation of the depreciable personal property of the taxpayer on a going concern basis at the tax situs in question.

(d) The dollar amount of the adjustment for the depreciable personal property pursuant to this section in no event can exceed the tentative true tax value as computed in section 7 of this rule, for the specific unit or units of depreciable personal property on which the taxpayer claims the adjustment. If the property has been incapable of continued use for a prolonged period during the assessment year, for a reason identified as qualifying for abnormal obsolescence, it will be eligible for an adjustment to be computed as follows:

- (1) If the cost-to-cure the cause of the abnormal obsolescence is equal to or less than the anticipated increase in utility, and hence value, it is economically feasible to repair or replace the impaired item and is thus deemed curable. The dollar amount of the cost-to-cure shall be the basis for determining the amount of abnormal obsolescence.
- (2) If the cause of the impairment cannot be corrected, or the cost-to-cure the cause of abnormal obsolescence is in excess of its contribution to the value of the property, it shall be deemed to be incurable. The amount of adjustment therefore shall be based upon the scrap or salvage value of the affected item and shall be limited to the true tax value before adjustment for abnormal obsolescence of the affected item itself.

EXAMPLE 1

Taxpayer ABC has depreciable personal property qualifying for an adjustment for abnormal obsolescence. The cost-to-cure the cause of the abnormal obsolescence is eight hundred thousand dollars (\$800,000) and is less than the anticipated benefits to be obtained from the use of the affected asset. The depreciable asset has an adjusted basis of six million five hundred thousand dollars (\$6,500,000) and an acquisition date and depreciable life that result in a true tax value factor of twenty percent (20%) (the total true tax value, of all of ABC's depreciable personal property in this taxing district, computed by the application of the prescribed pool percentages is greater than thirty percent (30%) of the total adjusted cost). The taxpayer should compute the abnormal obsolescence adjustment as follows:

Reported basis of asset qualifying for abnormal obsolescence adjustment	\$6,500,000	
Prescribed true tax valuation factor	x 20%	
True tax value of item prior to adjustment for abnormal obsolescence		\$1,300,000
Less: cost-to-cure cause of abnormal obsolescence	\$800,000	
Prescribed true tax valuation factor	x 20%	
Allowable adjustment for abnormal obsolescence-to Line 68 61, Schedule A, Form 103		- \$160,000
True tax value of item		<u>\$1,140,000</u>

In no instance may the adjustment for abnormal obsolescence exceed the true tax value of the affected item prior to such adjustment or result in a true tax value less than the scrap or net realizable value of the affected asset.

EXAMPLE 2

Taxpayer XYZ has depreciable personal property qualifying for an adjustment for abnormal obsolescence. The cost-to-cure the cause of the abnormal obsolescence is four hundred sixty thousand dollars (\$460,000) and exceeds the benefits expected from any further use of the affected asset. The depreciable asset has an adjusted basis of two million three hundred thousand dollars (\$2,300,000) and an acquisition date and depreciable life that result in a tentative true tax value factor of twelve percent (12%) (the total true tax value, of all of XYZ's depreciable personal property in this taxing district, computed by the application of the

prescribed pool percentages is less than thirty percent (30%) of the total adjusted cost). The taxpayer is able to demonstrate that the salvage value of the affected item is seventy-two thousand dollars (\$72,000). The taxpayer should compute the adjustment as follows:

Reported basis of asset qualifying for abnormal obsolescence adjustment	\$2,300,000	
Prescribed true tax valuation factor	x 30%	
True tax value of item prior to adjustment for abnormal obsolescence		\$690,000
Less: documented net-realizable market value in use		- 72,000
Allowable adjustment for abnormal obsolescence		<u>\$618,000</u>

[50 IAC 4.2-4-10](#) Determination of property as real or personal

Authority: [IC 6-1.1-31-1](#)

Affected: [IC 6-1.1-3](#)

Sec. 10. (a) The following guide is intended to assist in the identification of property as either real or personal. The use of a unit of machinery, equipment, or a structure determines its classification as real or personal property. If the unit is directly used for manufacturing or a process of manufacturing, it is personal property. If the unit is a land or building improvement, it is real property.

(b) Land improvement – Real **includes the following:**

- (1) Retaining walls, piling and mats for general improvement of site, private roads, walks, paved areas, culverts, bridges, viaducts, subways and tunnels, fencing, reservoirs, dikes, dams, ditches, canals, and drainage.
- (2) Fixed river, lake, or tidewater wharves and docks.
- (3) Permanent standard gauge railroad trackage, bridges, and trestles.
- (4) Walls forming storage yards and fire protection dikes.

Note that on-site utility piping, such as sanitary and storm sewers, potable water and fire prevention lines, and gas lines are considered as on-site improvement costs and are valued with the land.

(c) Buildings – Real **includes** structural and other improvements to buildings, including:

- (1) foundations;
- (2) walls;
- (3) floors;
- (4) roof;
- (5) insulation;
- (6) stairways;
- (7) partitions;
- (8) loading and unloading platforms; ~~and~~
- (9) canopies;
- (10) areaways;
- (11) systems for heating;
- (12) air conditioning;
- (13) ~~ventilating~~ **ventilation systems;**
- (14) sanitation;
- (15) fixed fire protection;
- (16) lighting;
- (17) plumbing, and drinking water; **and**
- (18) building elevators and escalators.

(d) Miscellaneous **includes the following:**

Property	Type
Agricultural irrigation system including distribution system above or below ground	Personal

Air conditioning		
	Building air conditioning for comfort of occupants	Real
	Package units, through the wall commercial	Real
	Special process to maintain controlled temperature and humidity	Personal

Affected: [IC 6-1.1-31](#)

Sec. 7. (a) As an alternative to any other ~~method(s)~~ **method** described in this article, a manufacturer or processor in this state who is in possession of inventory on the assessment date, which it manufactured or processed at the tax situs for which the return is prepared, may value finished goods and work in process inventory as follows:

- (1) The cost of raw materials and supplies, which must include the total cost directly or indirectly incurred, including freight, to bring the property to the location where it will be utilized in the manufacturing process. Manufacturers or processors acquiring manufactured products from related entities shall include in the accountability cost the sum of all costs directly or indirectly incurred in bringing the article to its existing condition and location on the assessment date.
- (2) The cost of all direct production labor.
- (3) The thirty-five percent (35%) valuation adjustment will not be allowed for work in process and finished goods inventory.
- (4) Raw materials and supplies inventories will qualify for the thirty-five percent (35%) valuation adjustment, provided that such items have not entered the manufacturing process.
- (5) Any adjustment taken from inventory valuation must be the same basis on which it was included in the tax return.
- (6) This election must be applied to all locations within this state, except as noted in subdivision (7). If this alternative method is elected, the taxpayer may not use any other method to value inventory for any

subsequent year unless a written request has been approved by the ~~state board~~ **department** prior to the due date of the return.

(7) This election is available only for manufacturers' or processors' finished goods or work in process inventories to the extent that the goods have not entered another level of trade.

(b) ~~Taxpayer's computation.~~ Computations of the adjustments outlined in this section are required to be attached to the tax return ~~and/or~~ **or** computed on Form 106, **or both**, provided by the ~~state board~~ **department** pursuant to [50 IAC 4.2-2-9](#).

[50 IAC 4.2-5-13](#) Valuation adjustment

Authority: [IC 6-1.1-31-1](#)

Affected: [IC 6-1.1-31-7](#)

Sec. 13. Thirty-five percent (35%) of the adjusted cost of inventory ~~as determined pursuant to section 12 of this rule~~, shall be allowable as a valuation adjustment for Indiana property tax purposes. This adjustment is in lieu of all other valuation adjustments except for the abnormal obsolescence adjustment. ~~provided in section 14 of this rule.~~ The amount of this adjustment constitutes an inventory valuation reserve to provide for the normal valuation aspects provided by statute. The prices for farm products prescribed by the ~~state board pursuant to department under 50 IAC 4.2-7-1~~ are computed using the alternative method (section 7 **of this rule**), therefore, the thirty-five percent (35%) valuation adjustment will not be allowed for those items.

[50 IAC 4.2-6-1](#) Tangible personal property not placed in service; reporting

Authority: [IC 6-1.1-31-1](#)

Affected: [IC 6-1.1-31-7](#)

Sec. 1. (a) Tangible personal property, other than inventory as defined in [50 IAC 4.2-5-1](#), with a tax situs within the state on the assessment date ~~which that~~ has not been placed into service must be reported for property assessment purposes.

(b) "Tangible personal property not placed in service on the assessment date" means all property ~~which that~~ has not been depreciated and is not eligible for federal income tax depreciation under Section 167 of the Internal Revenue Code of 1986. Real property as defined by law and rules of the ~~state board~~ **department**, inventory, special tools, leased property, returnable containers, and property described in subsection (d) are not included in this category.

(c) "Construction in process" means "tangible personal property not placed in service." This does not include the inventory of a contractor that is not a part of the real or personal property under construction. A contractor's inventory must be valued and reported as provided in [50 IAC 4.2-5-1](#).

(d) ~~Special.~~ Tangible personal property, normally assessed as inventory and held in abeyance or stored temporarily, and which possession may be transferred to another person to be attached to or become a part of an asset subject to assessment for personal property tax purposes, is taxable as inventory as provided in [50 IAC 4.2-5-1](#), and is not included in the definition of tangible personal property not placed in service.

(e) ~~Valuation.~~ The value of personal property not placed in service, including construction in process as defined in subsection (c), is the cost recorded on the taxpayer's books and records ~~which that~~ is attributable to

such personal property including all expenses incurred in acquiring or producing the assets not yet placed in service, **and includes the following:**

- (1) Acquisitions. In the event the cost as recorded on the regular books and records of the taxpayer does not reflect acquisitions and transfers since the end of the financial period immediately preceding the assessment date, such acquisitions and transfers are required to be included.
- (2) Advance payments or deposits. If the cost as recorded on the regular books and records of the taxpayer reflects advance payments or deposits, and if such amounts were attributable to tangible personal property, this amount shall be allowed as a deduction from book cost.

(f) ~~True tax value.~~ The true tax value of "tangible personal property not placed in service" as defined in subsection (b) is ten percent (10%) of the cost of such property.

(Department of Local Government Finance; [50 IAC 4.2-6-1](#); filed Dec 7, 1988, 9:35 a.m.: 12 IR 857, eff Mar 1, 1989; reinstated by [IC 6-1.1-3-22](#), eff Jul 1, 2003)

SECTION 29. [50 IAC 4.2-6-2](#) IS AMENDED TO READ AS FOLLOWS:

[50 IAC 4.2-6-2](#) Reporting of special tools

Authority: [IC 6-1.1-31-1](#)

Affected: [IC 6-1.1-3-23](#); [IC 6-1.1-31](#)

Sec. 2. (a) "Special tools", as defined in ~~subsection (b)~~ [50 IAC 4.2-1-1.1\(p\)](#), must be reported for Indiana property assessment purposes at the tax situs where located on the assessment date. The owner of any personal property subject to assessment and taxation on the assessment date has the responsibility for reporting such property for assessment and taxation on ~~their~~ **the owner's** personal property tax return. ~~pursuant to [50 IAC 2-2](#).~~

~~(b) "Special tools" includes, but is not limited to, tools, dies, jigs, fixtures, gauges, molds, and patterns acquired or made for the production of products or product models which are of such specialized nature that their utility generally ceases with the modification or discontinuance of such products or product models. Those items of "special tools" being manufactured or built for sale or lease to another person must be valued as inventory pursuant to [50 IAC 4.2-5](#).~~

~~(c) Reporting special tools.~~ **(b)** Special tools are assessable whether the taxpayer elects to depreciate, amortize, treat as deferred cost, or expense at time of purchase or manufacture, and recovers cost through an increased unit price or any other method utilized in recapturing the costs. The owner is required to report special tools on Form 103-T ([50 IAC 4.2-2-9](#)), as an attachment to Form 103 ([50 IAC 4.2-2-9](#)). In addition to the requirement ~~above in this subsection~~, the owner is required to furnish a complete listing on Form 103-T ([50 IAC 4.2-2-9](#)) of all ~~their~~ **the owner's** special tools in the possession of another ~~person(s) pursuant to~~ **person under** [50 IAC 4.2-2-5](#). The ~~person(s)~~ **person** holding, possessing, or controlling special tools, not owned, is required to furnish a complete listing on Form 103-T ([50 IAC 4.2-2-9](#)), of all not owned personal property ~~pursuant to~~ **under** [50 IAC 4.2-2-5](#).

~~(d) Valuation of special tools.~~ **(c)** The total value of special tools, as defined in subsection (b), must be allocated in two (2) groups. The total value of special tools acquired between ~~March 2~~ **January 2** of the prior year and ~~March 1~~ **January 1** of the assessment year must be allocated in one (1) group, and the balance of the total value of the special tools on hand ~~which that~~ were acquired prior to this period must be allocated into the other group. For purposes of this section, expenditures incurred by a taxpayer to refurbish existing special tools are deemed to be special tools acquired during the period in which such special tools were refurbished **as follows:**

- (1) Special tools owned by taxpayer. The total cost of producing or acquiring special tools regardless of the nature, whether capitalized or expensed, must be reported on Form 103-T ([50 IAC 4.2-2-9](#)), and attached to Form 103 ([50 IAC 4.2-2-9](#)).
- (2) Special tools not owned by taxpayer. The total value of special tools not owned by the taxpayer must be based on the original cost to the owner of such special tools, if available. If the original cost to the owner is not available, the value shall be based upon the best information available; however, the true tax value of the special tools not owned by the taxpayer cannot be less than the insured value of such property. Special tools not owned must be reported on Form 103-T ([50 IAC 4.2-2-9](#)), and attached to Form 103 ([50 IAC 4.2-2-9](#)).

~~(e) True tax value of special tools.~~ **(d)** The total true tax value of special tools is the sum of thirty percent (30%)

of the total valuation of "special tools" acquired between ~~March 2~~ **January 2** of the prior year and ~~March 4~~ **January 1** of the current assessment year which are on hand on the assessment date and three percent (3%) of the total valuation of all other special tools on hand.

Sec. 1. (a) In the case of certain types of personal property, which it determines has a readily ascertainable value, the department may determine the true tax value of such property and so designate in [50 IAC 4.2-15](#) or issue instructional bulletins **memorandums and guidance documents** for the unit valuations of such property to be used for personal property tax purposes.

(b) The unit valuations will be ~~published~~ **issued** pursuant to [50 IAC 4.2-1-5](#). However, in providing for the classification of personal property and included in the factors used to determine the true tax value of personal property the ~~state board~~ **department** shall not include the value of land as a cost of producing tangible personal property subject to assessment.

(c) The types of personal property to be valued pursuant to this section will be so designated in [50 IAC 4.2-15](#) or an instructional bulletin **a memorandum or guidance document**.

Authority: [IC 6-1.1-31-1](#)

Affected: [IC 6-1.1-31-7](#)

Sec. 7. (a) The taxpayer may, prior to the filing of the property tax return for the year in question, petition the department pursuant to [50 IAC 4.2-1-6](#), for an administrative adjudication determination regarding an abnormal obsolescence adjustment. If this determination is granted, it will be effective only for the tax year in question and will not be effective for subsequent assessments.

(b) If an administrative adjudication determination is obtained, a copy of the determination is required to be attached to the tax return claiming the adjustment. If the taxpayer has not requested an administrative adjudication determination, ~~they the taxpayer~~ may, if ~~their the taxpayer's~~ circumstances meet the requirements contained ~~herein in this section~~, request an adjustment on the form prescribed by the department when filing the tax return for the year in question. The adjustment or adjustments, if requested, must:

- (1) identify specifically all property for which an adjustment is requested;
- (2) indicate the original cost of the property;
- (3) indicate the true tax value of the property if no adjustment would be allowed; and
- (4) quantify and document the true tax value of the property as a result of the requested adjustment.

Sec. 6. (a) A taxpayer must file Form 103-ERA with the taxpayer's personal property return with the township assessor, if any, or county assessor in which the new manufacturing equipment, new research and development equipment, new logistical distribution equipment, or new information technology equipment is located. Except as provided in subsection (d), the deduction is applied in the amount claimed in the Form 103-ERA that a person files with:

- (1) a timely personal property return under [IC 6-1.1-3-7\(a\)](#) or [IC 6-1.1-3-7\(b\)](#); or
- (2) a timely amended personal property return under [IC 6-1.1-3-7.5](#).

(b) The taxpayer must file an equipment list (Form 103-EL) in the first year that the equipment is claimed. The taxpayer must file a copy of the form SB-1/PP and the resolution granting the deduction from the designating body when required.

(c) Forms 103-ERA and CF-1/PP must be filed under this section in the year in which the new manufacturing equipment, new research and development equipment, new logistical distribution equipment, or new information technology equipment is installed and in each of the immediately succeeding years the deduction is allowed.

(d) The township assessor, if any, or the county assessor may:

- (1) review the deduction schedule; and
- (2) before the March 1 that next succeeds the assessment date for which the deduction is claimed, deny or alter the amount of the deduction. If the assessor does not deny the deduction, the county auditor shall apply the deduction in the amount claimed in the deduction schedule or in the amount as altered by the assessor. An assessor who denies a deduction under this subsection or alters the amount of the deduction shall notify the person that claimed the deduction and the county auditor of the assessor's action. The county auditor shall notify the designating body and the county property tax assessment board of appeals of all deductions applied under this section.

(e) If the ownership of new manufacturing equipment, new research and development equipment, new logistical distribution equipment, or new information technology equipment changes, the deduction continues to apply to that equipment if the new owner:

- (1) continues to use the equipment in compliance with any standards established; and
- (2) files Form 103-ERA required by this section.

(f) The amount of the deduction for the new owner is the percentage that would have applied if the ownership of the property had not changed multiplied by the current assessed value of the equipment for the year the deduction is claimed by the new owner.

(g) A person may appeal a determination of the assessor under subsection (d) to deny or alter the amount of the deduction by requesting in writing a preliminary conference with the assessor not more than forty-five (45) days after the assessor gives the person notice of the determination. Except as provided in subsection (i), an appeal initiated under this subsection is processed and determined in the same manner that an appeal is processed and determined under [IC 6-1.1-15](#).

(h) In the event of noncompliance with the requirements set forth in [IC 6-1.1-12.1-11.3\(a\)](#) for a taxpayer to receive the deduction, a designating body may by resolution waive noncompliance described under [IC 6-1.1-12.1-11.3\(a\)](#) under the terms and conditions specified in the resolution. Before adopting a waiver, the designating body shall conduct a public hearing on the waiver.

(i) The county assessor is recused from any action the county property tax assessment board of appeals takes with respect to an appeal under subsection (g) of a determination by the county assessor. **Provisions related to personal property in economic revitalization areas are provided under [50 IAC 10](#).**

Sec. 4. (a) This section clarifies the liability of persons in the military or naval service for assessment and payment of personal property taxes in the state of Indiana. The Federal Soldiers' and Sailors' Civil Relief Act, as found in 50 U.S.C.A. Appendix, Section 574, provides as follows:

"(1) For the purposes of taxation in respect of any person, or of his personal property, income, or gross income, by any State, Territory, possession, or political subdivision of any of the foregoing, or by the District of Columbia, such person shall not be deemed to have lost a residence or domicile in any State, Territory, possession, or political subdivision of any of the foregoing, or in the District of Columbia, solely by reason of being absent therefrom in compliance with military or naval orders, or to have acquired a residence or domicile in, or to have become a resident in or a resident of, any other State, Territory, possession, or political subdivision of any of the foregoing, or the District of Columbia, while, and solely by reason of being, so absent. For the purposes of taxation in respect of the personal property, income or gross income of any such person by any State, Territory, possession, or political subdivision of any of the foregoing, or the District of Columbia, of which such person is not a resident or in which he is not domiciled, compensation for military and naval service shall not be deemed income for services performed within, or from sources within, such State, Territory, possession, political subdivision, or District, and personal property shall not be deemed to be located or present in or to have a situs for taxation in such State, Territory, possession, political subdivision, or District. Where the owner of personal property is absent from his residence or domicile solely by reason of compliance with military or naval orders, this section applies with respect to personal property, or use thereof, within any tax jurisdiction other than such place of residence or domicile, regardless of where the owner may be serving in compliance with such orders: Provided, That nothing contained in this section shall prevent taxation by any State, Territory, possession, or political subdivision of any of the foregoing, or the District of Columbia in respect of personal property used in or arising from a trade or business, if it otherwise has jurisdiction. This section shall be effective as of September 8, 1939, except that it shall not require the crediting or refunding of any tax paid prior to October 6, 1942."

The purpose thereof was to protect ~~servicemen~~ **servicemembers** from having to pay taxes to states in which they were serving pursuant to military order, which state was not the state of residence by choice of the ~~serviceman~~ **servicemember**.

(b) Indiana law does not provide an exemption from tax liability with respect to ~~servicemen~~ **servicemembers** who are residents of Indiana but rather provides that all personal property shall be assessed to the owner in the township, town, or city which is that of his **or her** residence on the first day of ~~March~~ **January** each year.

(c) Mobile homes, if classified and assessed pursuant to ~~50 IAC 3.1 for Assessment of Mobile Homes (Regulation 13)~~ [50 IAC 3.3](#) and when owned by a ~~serviceman~~ **servicemember** who is a nonresident of Indiana, on duty in Indiana pursuant to military or naval orders, such mobile home is exempt from taxation by the state of

Indiana even though physically located in this state, pursuant to the Soldiers' and Sailors' Civil Relief Act. Based upon the foregoing, we are summarizing below the effect of the Soldiers' and Sailors' Civil Relief Act and the laws of the state of Indiana upon the assessment and payment of taxes by a ~~serviceman~~ **servicemember** in the state of Indiana **as follows**:

- (1) Any ~~serviceman~~ **servicemember** who is a resident of another state, but who is temporarily stationed in Indiana pursuant to military or naval orders, is exempt from assessment and payment of personal property taxes in this state, except that used in a trade or business. However, the burden of proof is upon the ~~serviceman~~ **servicemember** and ~~he~~ **the servicemember** should exhibit to the assessor evidence of the fact that ~~he~~ **the servicemember** is a legal resident of another state. This evidence may be either a statement from the commanding officer, copy of orders to report for active duty, official military personnel identification card, or any other document ~~which~~ **that** would disclose the place of the ~~serviceman's~~ **servicemember's** residence or domicile to be other than Indiana.
- (2) Personal property located in Indiana belonging to a nonresident ~~serviceman~~ **servicemember**, not used in trade or business, is exempt from assessment and taxation even though such is left with ~~his wife~~ **the servicemember's spouse**, dependents, or others, in those situations ~~in which he~~ **where the servicemember** has been transferred to another state or overseas pursuant to military order.
- (3) The exemption under subdivisions (1) and (2) would also extend to a mobile home of any nonresident ~~serviceman~~ **servicemember**.
- (4) The ~~above~~ exemptions **in subdivisions (1) through (3)** do not extend to personal property used in or arising from a trade or business, in which case a nonresident ~~serviceman~~ **servicemember** is subject to assessment therefore in the same manner as an Indiana resident.
- (5) Any ~~serviceman~~ **servicemember** who is a legal resident of the state of Indiana is subject to assessment in this state.
- (6) By the provisions of [IC 6-1.1-37-7](#), the penalties for failure to file an assessment return shall not be applicable to any person, or the dependents of any person, in the military or naval forces of the United States on the assessment date covered by the provisions of the Federal Soldiers' and Sailors' Civil Relief Act.

Affected: [IC 6-1.1-3](#)

Sec. 8. ~~(a)~~ In recognition of the fact that certain intangible charges may be included in the base year value of the subject equipment, the ~~board~~ **department** has authorized the following adjustment procedure:

- (1) Base year value for leased data processing equipment shall be the current commercial published selling price for new equipment.
- (2) If the current selling price as defined in subdivision (1) includes charges for one (1) or more of the following customer support services, such charges shall be allowable as an adjustment to base year value in Column B, Form 403 **103-Long** ([50 IAC 4.2-2-9](#)), to the extent that such charges can be segregated from the total selling price, supported by adequate records and such adjustments clearly shown on Form 106 ([50 IAC 4.2-2-9](#)). Customer support services shall be limited to the following:

- (A) Educational services. Training and instruction in the use of electronic data processing equipment provided to the user thereof, such as on-site education, classroom instruction, and educational publications.
- (B) Maintenance. This would be tests, measurements, replacements, adjustments, and repairs intended to keep data processing equipment in satisfactory working condition.

Authority: [IC 6-1.1-31-1](#)

Affected: [IC 6-1.1-3](#)

Sec. 14. Pursuant to [50 IAC 4.2-8-7\(d\)](#), the department has prescribed the following for the computation of the present value of leased personal property:

- (1) If ownership of the property is transferred to the lessee (or may transfer if one (1) of the parties exercises an option) at or before the end of the lease, the term of the lease shall be the term used for computation of the present value.
- (2) If title to the property is not transferred to the lessee, the prescribed federal tax depreciable life of the asset at the inception of the lease shall be the term for computing the present value.
- (3) If the length of the lease is not specific, the prescribed federal tax depreciable life of the asset at the inception of the lease shall be the term for computing the present value.
- (4) If the lease contains a "balloon" or "bubble" payment, such payment must be included in the present value computation. A "balloon" or "bubble" payment is a lump sum payment scheduled at the inception of, during, or at the conclusion of the lease.
- (5) If the lease indicates the rate of interest included in the payments, such rate shall be used for computing the present value.
- (6) If no interest rate is stated in the lease, the rate to be used in the computation shall be the prime commercial bank loan rate on the ~~March 4~~ **January 1** nearest to the inception of the lease. The interest rates to be used for ~~March 4~~ **January 1** of certain years are as follows: **will be issued each year by the department.**

Year	Interest Rate	Year	Interest Rate
2009	3.25%	2003	4.25%
2008	6.00%	2002	4.75%
2007	8.25%	2001	8.50%
2006	7.50%	2000	8.75%
2005	5.50%	1999	7.75%
2004	4.00%	1998	8.50%

~~The department shall publish subsequent rates annually.~~

(7) If the amount of any payment or payments (including balloon payments) is not known at the inception of the lease, the present value of the lease payments cannot be computed and therefore may not be used as the base year value for personal property tax reporting purposes.

(8) If the present value computed in accordance with this section does not result in a reasonable valuation when other facts and circumstances are considered, the computed present value may not be used as the base year value.

Sec. 3. "Base year value" means the amount, measured in money, that a willing buyer in an arm's-length transaction would pay to acquire the item of property subject to the lease under consideration at the time the lease or bailment was first consummated. For purposes of applying this definition to a specific factual situation, the amount stated in the agreement as the amount ~~which~~ **that** the lessee would have had to pay to acquire the leased property instead of leasing the property will be deemed to be the base year value, provided that the ~~state board~~ **department** does not determine that such amount is unrealistically low in relation to the other terms contained in the agreement. If the alternative acquisition cost is not shown in the lease agreement, the base year value shall be computed in the following order of preference:

- (1) The factory delivered price for the tangible personal property subject to the lease plus freight, installation costs, and a profit factor.
- (2) The present value of the lease payments at the inception of the lease computed in accordance with [50 IAC 4.2-15-14](#).
- (3) The insurable value in the year the lease was first consummated.
- (4) The capitalized value at eight (8) times the annual lease or rental payments.

Sec. 6. (a) The ~~state board~~ **department** may extend the due date for the annual report for a public utility company.

(b) The ~~state board~~ **department** may grant a general extension to all public utility companies or classes of public utility companies. The ~~state board~~ **department** will notify the public utility company of any general extension. A written request by the public utility company is not necessary to exercise the general extension.

(c) An extension of the due date, or an extension beyond the general extension granted under subsection (b), shall be considered by the ~~state board~~ **department** if:

- (1) the public utility company submits a written request for an extension at least five (5) **calendar** days prior to the due date; and
- (2) the public utility company cannot file on or before the due date because of extraordinary and unusual circumstances.

(d) An extension granted by the ~~state board~~ **department** under subsection (c) shall be in writing. A copy of the extension shall accompany the taxpayer's annual report.

(e) An extension granted by the ~~state board~~ **department** under subsection (b) or ~~subsection~~ (c) shall also apply to the report required under section ~~3 2~~ of this rule.

Sec. 8. (a) In completing the annual report, a public utility company shall make a complete disclosure of all information required by the ~~state board~~ **department**.

(b) A public utility company that holds, possesses, controls, or occupies property that it does not own must make a full disclosure, on the forms provided by the ~~state board~~ **department**, of the not-owned property and information relating to that property. The required information shall include the name and address of the owner, model, description, location, quantities on hand, date of installation, value (if known) as required by this article, and any other information requested on the appropriate form. (See special instructions in [50 IAC 5.1-10-3](#) for reporting leased personal property.)

(c) Failure to properly disclose property that a public utility company holds, possesses, or controls shall result in the assessment of the property to the public utility company. See, State Board of Tax Commissioners v. Jewell Grain Company 556 N.E.2d 920 (Ind. 1990).

(d) Information is required to be submitted by the holder, possessor, or controller even if the owner is liable for the taxes under a contract to ensure that the assessing official has the necessary information to correctly assess the property in question.

Sec. 1. (a) Each year the ~~state board~~ **department** shall determine the true tax value of the property of each public utility company. Except for ~~railroad-car~~ **railcar** companies, the ~~state board~~ **department** shall determine the true tax value by first determining the approximate unit value of each public utility company. The value of the distributable property of a public utility company, other than a ~~railroad-car~~ **railcar** company, equals the remainder of:

- (1) the unit value of the company; minus
- (2) the value of the company's fixed property.

(b) The value of the distributable property of a ~~railroad-car~~ **railcar** company equals the value of all of the company's distributable property multiplied by the allocation factor provided in [IC 6-1.1-8-12\(b\)](#).

(c) In order to determine the unit value of a public utility company, the ~~state board~~ **department** may consider the following:

- (1) Book value.
- (2) The cost of replacement or reproduction, less depreciation.
- (3) The cost of establishing and developing the business.
- (4) The amount and market value or sales price of outstanding securities.
- (5) Valuations determined by another governmental agency or indicated by a judicial decision, including, but not limited to, determinations made for rate making purposes.
- (6) Statistics and reports prepared or filed by the company.
- (7) Statistics and reports prepared by another governmental agency or by a private organization if the organization is considered reliable by investors and investment dealers.
- (8) Earnings capitalized at a reasonable rate.

(9) Any other information ~~which~~ **that** the ~~state board~~ **department** considers relevant.

(d) Except for ~~railroad-car~~ **railcar** companies, the ~~state board~~ **department** shall notify each public utility company of its tentative assessment on or before June 1. The ~~state board~~ **department** shall notify each ~~railroad-car~~ **railcar** company of its tentative assessment on or before September 1.

Sec. 3. (a) Each year the ~~state board~~ **department** shall notify each public utility company of:

- (1) the ~~board's~~ **department's** tentative assessment of the company's distributable property; and
- (2) the value of the company's distributable property used by the ~~board~~ **department** to determine the tentative assessment.

(b) The ~~state board~~ **department** shall give the notice on or before September 1, in the case of ~~railroad-car~~ **railcar** companies, and shall give the notice on or before June 1, in the case of all other public utility companies.

(c) Within ten (10) days after a public utility company receives notice of the ~~state board's~~ **department's** tentative assessment, the company may:

- (1) file with the ~~state board~~ **department** its objections to the tentative assessment; and
- (2) demand that the ~~state board~~ **department** hold a hearing on the tentative assessment.

(d) If the public utility company does not file with the ~~state board~~ **department** its objections to the tentative assessment within the time allowed, the tentative assessment is final and may not be appealed.

Sec. 2. (a) Special tooling must be reported for Indiana property assessment purposes at the tax situs where located on the assessment date, regardless of whether such special tooling is capitalized or expensed.

(b) The owner of any personal property subject to assessment and taxation on the assessment date has the responsibility for reporting such property for assessment and taxation. Special tooling must be reported on the appropriate form on the public utility company's annual report to the ~~state board.~~ **department.** If the special tooling is locally assessed personal property, the special tooling must also be reported to the township assessor.

(c) The possessor of not-owned special tooling has the responsibility for disclosing such property to the local assessing officials and the ~~state board.~~ **department.**

(d) The total cost of special tooling is allocated into two (2) groups. The total cost of the special tooling acquired between the immediately preceding assessment date and the current assessment date is allocated into one (1) group (Group I), and the balance of the total cost of the special tooling on hand which was acquired prior to the immediately preceding assessment date is allocated into a second group (Group II). Expenditures incurred by a taxpayer to refurbish existing special tooling are deemed to be special tools acquired during the period in which such special tooling was refurbished.

(e) The total cost of special tooling that is not owned by the possessor must be based on the original cost to the owner of such special tooling, if available. If the original cost to the owner is not available, the cost shall be based upon the best information available; however, the true tax value of the not-owned special tooling shall not be less than the insured value of such property.

(f) The true tax value of special tooling is computed as the sum of:

Sec. 5. (a) The holder, possessor, or controller (lessee) of locally assessed leased property subject to a capital lease is primarily responsible for the reporting of the locally assessed leased property for assessment and taxation.

(b) If the holder, possessor, or controller of the locally assessed leased property is a public utility company and the locally assessed leased property is subject to a capital lease, the locally assessed leased property shall be assessed in the following manner:

(1) The holder, possessor, or controller shall disclose and report the locally assessed leased property on the designated form included with its annual report to the ~~state board~~ **department**. In completing the designated form, the holder, possessor, or controller shall include all of the information required by the form. ~~The holder, possessor, or controller shall also complete Form 1, Annual Report of Local Personal Property, disclosing and reporting the locally assessed leased property for assessment and taxation.~~

(2) The owner (lessor) of locally assessed leased property subject to a capital lease is required to disclose the existence of the leased property to the ~~state board~~ **department** and local assessing officials. The owner shall disclose the locally assessed leased property on the designated form. In completing the designated form, the owner shall include all of the information required by the form.

Authority: [IC 6-1.1-8-42](#); [IC 6-1.1-31-1](#)

Affected: [IC 6-1.1-8-26](#)

Sec. 2. Examples of abnormal obsolescence include the following:

(1) An example of an unforeseen change in market value would be a government ban on the sale of a drug or chemical due to a new discovery or determination, which may cause that item or the production equipment used to produce it to be abnormally obsolete. A specific example of this would be cyclamate. In this case, the property used to produce it may be eligible for abnormal obsolescence, while the inventory (cyclamate) should be valued at the lower of cost or market as provided in ~~[50 IAC 4.2-5-3](#) through [50 IAC 4.2-5-8](#)~~ **[50 IAC 4.2-5-7](#)**.

(2) Abnormal obsolescence due to exceptional technological obsolescence should be recognized to the extent that it causes the subject property to be incapable of use for current production or adaptation to a different use. The invention of a newer, more productive piece of equipment, which would produce a better quality item, or utilization of state of the art technology that produces more efficiently at a lower cost of production, does not cause an older, currently used asset to be considered abnormally obsolete. If the asset is still capable of performing the function for which it was acquired and is producing both on and before the assessment date, no adjustment shall be allowed. The use of historical cost, short useful life, and accelerated federal tax depreciation result in an equitable assessment on the property in question.

(3) Abnormal obsolescence due to catastrophe should be recognized to the extent that it has a direct effect on the value of a particular item. Property ~~which~~ **that** has been destroyed or damaged by catastrophe as of the assessment date would qualify for such an adjustment. A chemical or production process which, due to an irreparable malfunction, emits a toxic gas or deadly chemical into the outside atmosphere would qualify for such an adjustment to the extent the property is incapable of use.

(4) A government order to shut down certain production equipment due to improper emission levels may result in abnormal obsolescence if the cost to cure the delinquent equipment results in incurable obsolescence, that

is, the cost-to-cure exceeds the contribution or increase in value of the impaired item or the impairment cannot be corrected.

Sec. 5. (a) A public utility company **subject to [IC 6-1.1-8](#)** that wishes to obtain an exemption for an industrial waste control facility must annually claim the exemption on the appropriate form, ~~included in its annual report. The public utility company must disclose such information about the property claimed to be exempt as an industrial waste control facility as required on the form.~~ **Schedule A-4, Water Pollution Control Equipment (State Form 47336), with the township or county assessor, as applicable, and as provided by [IC 6-1.1-10-10](#). The township or county assessor, in accord with the determination of the Indiana department of environmental management, and as provided by [IC 6-1.1-10-10](#), shall allow or deny in whole or in part each exemption claim. The public utility company must file its annual return and schedules with the department as required by [IC 6-1.1-8](#) and this article.**

(b) In addition to the requirements of subsection (a), the public utility company must, by registered or certified mail, forward a copy of the exemption claim to the department of environmental management. The department of environmental management shall acknowledge its receipt of the claim.

(c) The department of environmental management may investigate any claim. The department of environmental management may also determine if the property for which the exemption is claimed is being utilized as an industrial waste control facility. Within one hundred twenty (120) days after the copy of the claim is

mailed to the department of environmental management, the department of environmental management may certify its written determination to the state board.

~~(d) The determination of the department of environmental management remains in effect as long as the owner owns the property and uses the property as an industrial waste control facility, or five (5) years, whichever is less.~~

~~(e) During the five (5) years after the department of environmental management's determination, the owner of the industrial waste control facility must notify the state board and the department of environmental management in writing if any of the industrial waste control facility on which the department of environmental management's determination was based is disposed of or removed from service as an industrial waste control facility.~~

~~(f) The department of environmental management may revoke a determination if the department finds that the property is not predominantly used as an industrial waste control facility.~~

~~(g) The state board shall allow or deny the claim for exemption as determined by the department of environmental management. If the department of environmental management fails to act within one hundred twenty (120) days, the state board shall allow the claim if the owner provides proof that a copy of the claim has been mailed to the department of environmental management.~~

~~(h) If the department of environmental management denies the claim for exemption, and the state board has previously issued its tentative assessment, the state board shall issue a revised tentative assessment.~~

~~(i) The attorney general, in O.A.G. NO. 39, 1969, has taken the position that a sewage treatment plant built by and within the premises of a privately owned manufacturing or industrial facility qualifies as an industrial waste control facility, providing the taxpayer follows the procedure for claiming an exemption.~~

Sec. 2. (a) "Installed" means that personal property:

- (1) has been completely assembled;
- (2) is completely functional for the purpose for which it was acquired; and
- (3) is placed in service.

(b) When different pieces of personal property are linked together as part of an integrated production process, personal property will not be considered installed until the integrated production process is completely functional and is **has been** placed in service.

(c) Personal property that is subjected to a preliminary test period or testing process shall not be considered installed until the conclusion of the test period or testing process. However, a test period or testing process may not be longer than is reasonably necessary to complete the needed testing, and therefore personal property that has been placed in service and is in operation for a substantial period of time shall not be considered to be within a test period or testing process.

(d) For purposes of substantiating the date of completion of the installation of property, the owner may use production records or other records that reflect when the property was completely assembled, completely functional for the purpose for which it was acquired, fully operational, and placed in service.

Sec. 6. (a) "Qualifying machinery and equipment" means tangible property used in the direct production, manufacture, fabrication, assembly, extraction, mining, processing, refining, or finishing of other tangible personal property **as follows:**

(1) As used in this subsection, "production, manufacture, fabrication, assembly, extraction, mining, processing, refining, or finishing" is a comprehensive description of the various means of production and circumscribes all of the operations or processes by which a finished product is derived.

(2) As used in this subsection, "direct", within the phrase "used in the direct production, manufacture, fabrication, assembly, extraction, mining, processing, refining, or finishing of other tangible personal property", means an essential or integral part of the operation or process that leads to the creation of other tangible personal property.

(3) The conversion of a solid waste or a hazardous waste into energy or other useful products constitutes use in the direct production, manufacture, fabrication, assembly, extraction, mining, processing, refining, or finishing of other tangible personal property.

(b) Personal property will be qualifying machinery and equipment when it is used within the process that chronologically begins with the material handling equipment that carries or moves the raw material from its on-site storage location to the first machine or production step and ends with the material handling equipment that carries or moves the finished product from its final machine or production step to the in-plant finished good storage site.

(c) Examples of personal property that may be considered qualifying machinery and equipment include, but are not limited to, the following:

- (1) Computer equipment, if used directly to control equipment directly used in the manufacturing process.
- (2) Laboratory equipment, if used directly to test the tangible personal property being produced.
- (3) Testing and inspection equipment, including quality control equipment, used to ensure the specifications or quality of the tangible personal property being produced. However, the equipment must be used:
 - (A) as part of the production process; and
 - (B) to test or inspect the tangible personal property being produced.
- (4) Shelves, racks, or other temporary storage facilities or containers used to transport or convey work-in-progress from one (1) step in the production process to another step in the production process, or for the temporary storage of work-in-progress between one (1) step in the production process to another step in the production process.

(d) Examples of personal property that will not be considered qualifying machinery and equipment include, but are not limited to, the following:

- (1) Computer equipment, if used for such functions as administration, payroll, bookkeeping, drafting, production scheduling, or inventory control.
- (2) Furniture and fixtures, such as office furniture, telephones and telephone equipment, break room fixtures, and employee lockers.
- (3) Maintenance equipment used to repair production equipment.
- (4) Licensed transportation vehicles.
- (5) Warehouse racks, shelving, or other equipment used to store either raw materials or finished goods.
- (6) Equipment used in research and development, including computer equipment used in research and development.

(e) If computer equipment, or other personal property, is both used in direct production and is also used for purposes other than direct production, an allocation shall be made between its use in direct production and its use for purposes other than direct production.

Sec. 6.5. "Qualifying research and development equipment" means new research and development equipment as defined under [IC 6-1.1-12.1-1](#)(12), and properly documented as required by this section. Each item, or group of like items, must be individually identified and itemized as one (1) of the following:

- (1) Laboratory equipment.
- (2) Research and development **equipment**.
- (3) Computer and computer software.
- (4) Telecommunications equipment.
- (5) Testing equipment.

Each item or group of like items must be identified as being devoted to a specified research and development activity. As used in this subsection, "research and development activity" means an activity that can be demonstrated, under commonly recognized industry practices, as being related to the research and development, testing, or improvement of a new or existing product. The documentation required by this subsection may be supported by academic industry literature, internal company documents, or data (including confidential information submitted under [IC 6-1.1-35-9](#)), or any Indiana or United States statute, rule, or regulation that relates

to research and development or the taxation of research and development equipment or activities.

Authority: [IC 6-1.1-12.1-13](#); [IC 6-1.1-31-1](#)

Affected: [IC 6-1.1-12.1](#)

Sec. 2. (a) The designating body may designate a particular area to be an economic revitalization area on its own motion or upon application by a property owner.

(b) If the designating body designates a particular area to be an economic revitalization area on its own motion, no statement of benefits is required. For example, the designating body may declare an industrial park or former industrial site to be an economic revitalization area in order to spur economic development at that location. This subsection shall not be interpreted to exempt an applicant from filing a statement of benefits before the initiation of the redevelopment or rehabilitation of real property, **the occupancy of an eligible vacant building**, or the installation of new ~~manufacturing equipment, or research and development~~ **eligible** equipment for which the applicant desires to claim the deduction.

(c) Where a property owner has applied for designation of an area, the property owner must provide a statement of benefits. The information contained in the statement of benefits will be evaluated by the designating body in making its decision whether to designate the area an economic revitalization area.

(d) The designating body shall determine whether an area should be designated an economic revitalization area and whether a deduction should be allowed. In doing so, the designating body shall make findings addressing the issues specified in [IC 6-1.1-12.1-4.8](#) **as to an eligible vacant building or in** [IC 6-1.1-12.1-3](#) as to property defined in [IC 6-1.1-12.1-1](#)(4) or [IC 6-1.1-12.1-4.5](#)(a) as to new ~~manufacturing equipment, and/or research and development~~ **eligible** equipment. A designating body may not designate an area an economic revitalization area or approve a deduction unless the findings required by statute are made in the affirmative.

(e) If the designating body finds the area should be an economic revitalization area, it shall either:

(1) prepare maps and plats that identify the area; or

(2) prepare a simplified description of the boundaries of the area by describing its location in relation to public ways, streams, or otherwise.

(f) If the designating body makes the findings required in subsection (d) and prepares the information required in subsection (e), the designating body shall pass a preliminary resolution declaring the area to be an economic revitalization area. The resolution must contain a description of the affected area and be filed with the county assessor.

Affected: [IC 6-1.1-12.1-2](#); [IC 6-1.1-12.1-4.5](#)

Sec. 3. (a) In declaring an area to be an economic revitalization area, the designating body may place certain limitations or conditions on the economic revitalization area ~~such as~~ **outlined in [IC 6-1.1-12.1-2](#), including:**

(1) a limitation on the length of time that the area shall be designated as an economic revitalization area; ~~or~~

(2) a limitation on the dollar amount of the allowable deduction; or

(3) **a determination of what happens when a limitation or condition is not met.**

The designating body must specify the limitation or condition in the preliminary resolution.

(b) However, the **limitations or conditions imposed by the** designating body may not ~~reduce the number of years over which a taxpayer is statutorily entitled to receive the economic revitalization area deduction. So, even if the designating body adopts a resolution limiting the designation of the economic revitalization area to one (1) calendar year, the new manufacturing equipment and/or research and development equipment installed during that calendar year will still be eligible for either the five (5) year deduction schedule or the ten (10) year deduction schedule provided in the deduction schedule applicable under [50 IAC 10-1-9](#)(d).~~ **be applied to the economic revitalization area retroactively.**

(c) **The preliminary resolution must contain the number of years the area is designated as an economic revitalization area and the percentage amount of the deduction for each year of the deduction.**

The notice must state that a description of the affected area is available and may be inspected in the county assessor's office. The notice must also specify the date on which the designating body will receive and hear all objections to the preliminary resolution.

(b) After considering the evidence, the designating body shall take final action by:

(1) determining whether the qualifications for an economic revitalization area have been met; and

(2) confirming, modifying and confirming, or rescinding the preliminary resolution.

This determination is final and may be appealed in the manner provided in [IC 6-1.1-12.1-2.5](#).

Sec. 1. (a) A property owner who desires to obtain the economic revitalization area deduction for the rehabilitation or redevelopment of real property **or the occupancy of an eligible vacant building** must file a certified deduction application, on forms prescribed by the ~~state board~~, **department**, with the auditor of the county in which the property is located. Except as otherwise provided in subsection (c) or ~~(e)~~, **(g)**, the deduction application must be filed before May 10 of the year in which the addition to assessed valuation is made.

(b) The ~~state board~~ **department** has prescribed ~~Form 322-ERA~~, **Form 322/RE**, Application for Deduction from Assessed Valuation ~~for~~ **of** Structures in Economic Revitalization Areas (State Form 18379), as the form on which the economic revitalization area deduction for the rehabilitation or redevelopment of real property shall be claimed.

(c) If notice of the addition to assessed valuation or new assessment for any year is not given to the property owner **on or** before April 10 of that year, ~~Form 322-ERA~~ **Form 322/RE** (State Form 18379) may be filed not later than thirty (30) days after the date such a notice is mailed to the property owner at the address shown on the records of the **county or** township assessor.

(d) The department has prescribed Form 322/VBD, Application for Deduction from Assessed Valuation – Real Property Vacant Building Deduction (State Form 53179), as the form on which the economic revitalization area deduction for the rehabilitation, redevelopment, or occupancy of a vacant building that has been unoccupied for at least one (1) year and zoned for commercial or industrial purposes shall be claimed.

(e) If notice of the addition to assessed valuation or new assessment for any year is not given to the property owner before April 10 of that year, Form 322/VBD (State Form 53179) may be filed not later than

thirty (30) days after the date such a notice is mailed to the property owner at the address shown on the records of the county or township assessor.

~~(d)~~ **(f)** A deduction application filed under subsection (a), ~~or~~ (c), **or (e)** is applicable for the year in which the **occupancy of a vacant building occurs or the addition to assessed value or assessment of a new structure or new improvement** is made, and in the immediate following two (2), four (4), five (5), or nine (9) years in an economic revitalization area designated prior to July 1, 2000, and the immediate following second through ninth years in an economic revitalization area designated after June 30, 2000, whichever is applicable, without any additional deduction application being filed.

~~(e)~~ **(g)** A property owner who desires to obtain the economic revitalization area deduction for the rehabilitation or redevelopment of real property, **the occupancy of an eligible vacant building, or the installation of new eligible equipment** but who has failed to file a deduction application within the dates prescribed in subsection (a), ~~or~~ (c), **or (e)** may file a deduction application between ~~March 4~~ **January 1** and May 10 of a subsequent year. The deduction application shall apply to the year in which it is filed and to subsequent years without the filing of any additional deduction application.

Sec. 2. (a) ~~The Indiana Court of Appeals has ruled that the state board has the discretion to consider a late-filed application for the economic revitalization area deduction for new manufacturing equipment. State Board of Tax Commissioners of Indiana v. New Energy Company of Indiana, 585 N.E.2d 38 (Ind. App. 1992). However, this discretion does not extend to late-filed deduction applications for real property. Failure to timely file a deduction application for real property results in its loss for that year.~~

(b) ~~In exercising its discretion as described in subsection (a), the state board shall consider the totality of the facts and circumstances in determining whether or not to approve a late-filed deduction application. Such consideration may be based on one (1) or more of the following factors:~~

- ~~(1) Whether the failure to timely file the deduction application resulted from an act of God, or from the death or serious illness of the person principally responsible for the filing of the deduction application;~~
- ~~(2) Whether the approval of the late-filed deduction application would result in the loss of property tax revenues to the taxing units affected by the deduction;~~
- ~~(3) Whether a public official gave misleading information to the taxpayer that was the proximate cause of the late filing, and whether it was reasonable for the taxpayer to rely on that misleading information;~~
- ~~(4) Whether the lapse between the filing deadline and the date on which the deduction application was actually filed would have prevented local officials from accurately determining the assessed value for budget, rate, and levy purposes;~~
- ~~(5) Whether there is substantial evidence that local officials support the approval of the late-filed application, even if such approval would result in a loss in tax revenues;~~
- ~~(6) Whether the late filing was not due to the taxpayer's negligence;~~
- ~~(7) Any other factor that the state board considers relevant.~~

Sec. 5. (a) **Subject to subsection (b),** the department shall maintain **and** publish ~~and distribute to each assessor-appraiser,~~ a list of courses that have been accredited as approved assessor-appraiser continuing education courses.

(b) Courses that are not included on the list **described in subsection (a)** may be submitted **by an assessor-appraiser** for inclusion and will, at the discretion of the department, be accredited. **A course submitted for inclusion must be substantially related to:**

- (1) property assessment;**
- (2) property appraisal;**
- (3) general real estate principles; or**
- (4) property taxation;**

as evidenced by a course syllabus or other documentary evidence provided by the assessor-appraiser seeking inclusion. A course submitted for inclusion must have been taken or will be taken during the assessor-appraiser's current continuing education cycle. A course added to the list of courses accredited by the department pursuant to this subsection shall be considered accredited. Only one (1) petition to include a course on the list under subsection (a) is sufficient to include the course on the list maintained and published by the department.

Affected: [IC 6-1.1-4](#); [IC 6-1.1-35.5](#); [IC 6-1.1-35.7](#)

Sec. 6. (a) The department may revoke the Level One, Level Two, or Level Three assessor-appraiser certification of an individual for:

- (1) conduct proscribed by [IC 6-1.1-35.5-6\(b\)](#);
- (2) gross incompetence in the performance of an assessment; or
- (3) noncompliance with:
 - (A) the continuing education provisions of this article;
 - (B) the provisions of the contract entered under [IC 6-1.1-4](#); or
 - (C) assessing laws under [IC 6-1.1](#) and rules of the department.

(b) The revocation procedure shall be initiated by the department's issuance of a notice to the respondent. The notice shall:

- (1) be sent by certified mail, return receipt requested;
- (2) contain a clear and concise statement detailing the alleged misconduct;
- (3) state the time and place for a hearing not less than ninety (90) days from the date of mailing the notice; and
- (4) inform the respondent:
 - (A) of the information contained in subsections (d) and (g); and
 - (B) that the failure to attend the hearing without good cause may constitute grounds for default entered in favor of the department, as well as the sanction imposed.

(c) The department shall appoint a hearing officer for purposes of these proceedings. The hearing officer may by prior written notice:

- (1) conduct any prehearing proceedings:
 - (A) requested by either party; or
 - (B) that the hearing officer determines may aid in the ultimate resolution of the proceedings; and
- (2) allow informal discovery subject to any terms and conditions the hearing officer deems to be appropriate.

(d) The revocation hearing shall be conducted on the record and as follows:

- (1) The respondent:
 - (A) may be represented by counsel; and
 - (B) shall have the right to:
 - (i) present witnesses and evidence on the respondent's own behalf; and
 - (ii) cross-examine the department's witnesses or evidence.
- (2) The burden of proof shall be on the department to prove the violation or violations alleged by a preponderance of the evidence.
- (3) No continuance shall be granted except upon a showing of good cause.

(e) The hearing officer may consider any of the following in recommending to the commissioner whether respondent's Level One, Level Two, or Level Three assessor-appraiser certification should be revoked:

- (1) The seriousness of the violation that gave rise to the proceedings.
- (2) Whether the violation is likely to recur.
- (3) The respondent's character, including remorse, if any.
- (4) Whether the respondent's continued status as a Level One, Level Two, or Level Three assessor-appraiser would pose an undue risk to the public.
- (5) Any other factor the hearing officer determines to be appropriate under the circumstances.

(f) The hearing officer shall submit a written recommendation for final action to the commissioner. The recommendation shall contain the reasons for the hearing officer's determination of the sanction, if any, to be imposed. The commissioner is not bound by the hearing officer's recommendation.

(g) If the commissioner determines that a violation of section 2(a) of this rule has occurred, the commissioner may take any of the following remedies with respect to the respondent:

- (1) Decline to issue any sanction.
- (2) Issue a written reprimand admonishing the respondent for the violation.
- (3) Suspend the respondent's Level One, Level Two, or Level Three assessor-appraiser certification for a period of up to one (1) year, at the conclusion of which the respondent shall be automatically reinstated, provided that the respondent meets all the educational requirements for a Level One, Level Two, or Level Three assessor-appraiser certification, as applicable to the proceedings.
- (4) Revoke the respondent's certification. ~~for not more than three (3) years.~~

(h) The commissioner may take any of the remedies provided in subsection (g)(1) through (g)(3) if the respondent demonstrates through an affidavit signed under the penalties of perjury that the respondent was unable to satisfy one (1) or more of the conditions required to maintain the respondent's certification due to a natural disaster, accident, or other unanticipated emergency. The commissioner may request supporting documentation to supplement the affidavit.

(i) The commissioner's determination as to which of the actions under subsection (g) to take regarding the respondent's certification shall be based on the following factors:

- (1) The severity of the violation.
- (2) The nature of the natural disaster, accident, or other unanticipated emergency the respondent claims prevented the respondent from satisfying the condition or conditions required to maintain the respondent's certification.
- (3) The respondent's previous compliance with or violation of the conditions required to maintain the respondent's certification.

(j) The determination of the commissioner constitutes a final appealable order of the department.

[50 IAC 15-3-9](#) Voluntary withdrawal of certification

Authority: [IC 6-1.1-31-1](#); [IC 6-1.1-35.5-8.5](#)

Sec. 9. (a) This section does not apply to an assessor-appraiser who has received a notice under section 6(b) of this rule.

(b) An assessor-appraiser who wishes to withdraw his or her certification as an assessor-appraiser must complete and submit to the department a voluntary waiver by U.S. mail, facsimile, or e-mail. A copy of the voluntary waiver is sufficient for submission. However, the voluntary waiver must be signed. The assessor-appraiser's signature on the voluntary waiver indicates that the assessor-appraiser wholly exonerates and holds harmless the department, including its employees, agents, and hearing officers, with respect to the voluntary waiver.

(c) Upon receipt of the voluntary waiver, the department will review the voluntary waiver and verify that the assessor-appraiser qualifies to withdraw his or her assessor-appraiser certification. An assessor-appraiser shall be deemed qualified to withdraw his or her certification if the assessor-appraiser meets the qualifications under subsection (b).

(d) Upon verification that the assessor-appraiser qualifies for a voluntary waiver, the department will acknowledge, in writing, that the assessor-appraiser has withdrawn his or her certification as an assessor-appraiser and his or her name will be removed from the list of certified assessor-appraisers posted on the department's website.

(e) A voluntary waiver under subsection (b) is deemed to be a request to withdraw from all levels of assessor-appraiser certification that the assessor-appraiser has attained as of the date of the voluntary waiver. Submission of the voluntary waiver or a refusal of the department to acknowledge the voluntary waiver because of the assessor-appraiser's ineligibility to voluntarily withdraw certification does not, by itself, constitute grounds for initiating a proceeding under section 6 of this rule.

- (1)** Submission of the completed reinstatement application.
- (2)** Submission of documentation verifying that the applicant has met the applicable requirements under:
 - (A)** section 1 of this rule;
 - (B)** section 3 of this rule; or
 - (C)** section 7 of this rule.

(b) The previous holder of an assessor-appraiser certification may request that the department reinstate a certification that has lapsed or been expired for more than three (3) years upon meeting the following requirements:

- (1)** Submission of the completed reinstatement application.
- (2)** Submission of documentation verifying that the applicant has met the applicable requirements under:
 - (A)** section 1 of this rule;
 - (B)** section 3 of this rule; or
 - (C)** section 7 of this rule.
- (3)** Submission of documentation verifying that the applicant has completed thirty (30) hours of continuing education and met the requirements under section 11 of this rule.

Sec. 11. (a) A continuing education course offered under this rule must meet the following standards:

(1) Be substantially related to:

- (A) property assessment;
- (B) property appraisal;
- (C) general real estate principles; or
- (D) property taxation.

(2) If applicable, course materials must provide an accurate statement of Indiana law, including case law and rules of the department pertaining to property taxation. This does not prohibit commentary, interpretation, or the expression of an opinion regarding Indiana law in the course materials.

(3) If applicable, course materials must provide an accurate statement of generally recognized appraisal principles. This does not prohibit commentary, interpretation, or the expression of an opinion regarding the generally recognized appraisal principles in the course materials.

(b) Continuing education courses offered under this rule are not required to be approved by the department in advance of the course being offered. However, a vendor, course sponsor, or course instructor may submit course materials to the department for review.

(c) Course materials submitted to the department under subsection (b) will be reviewed for accuracy of content to the extent the materials discuss Indiana law, including case law or the rules promulgated by the department. Return of the course materials and any response or comments provided by the department are not to be considered as an endorsement or disapproval of the course materials or any viewpoint expressed in the course materials.

(d) Course materials, to the extent feasible, must include:

(1) a statement that the department does not endorse:

- (A) the substantive content of the course materials;
- (B) the presentation of the course materials; or
- (C) any particular viewpoint expressed in the course materials or in the presentation of the course materials; or

[50 IAC 15-4-2](#) Revocation of certification

Authority: [IC 6-1.1-31-1](#); [IC 6-1.1-31.7-3](#)

Affected: [IC 6-1.1-31.7-4](#)

Sec. 2. (a) In addition to the grounds listed in [IC 6-1.1-31.7-4](#), the following are grounds on which the department may revoke a certification issued to a firm or appraiser under section 1 of this rule: ~~for at least three (3) years:~~

(1) Knowingly misrepresenting any information or acting in a fraudulent manner.

(2) Knowingly holding oneself out as representing an entity in a property assessment appeal without authorization from the entity.

(3) Knowingly submitting false or erroneous information in a property assessment appeal.

(4) Acting with gross incompetence.

(5) Knowingly violating any rule applicable to certification or practice before the department or the property tax assessment board of appeals.

With respect to the ground described in [IC 6-1.1-31.7-4\(a\)\(1\)](#), the department may revoke a certification if the appraiser applicant provided false information knowingly.

(b) If the commissioner determines that a violation of subsection (a) has occurred, the commissioner may take any of the following remedies with respect to the firm or appraiser:

(1) Decline to issue any sanction.

(2) Issue a written reprimand admonishing the firm or appraiser for the violation.

(3) Suspend the firm's or appraiser's certification for a period of up to one (1) year, at the conclusion of which the certification shall be automatically reinstated, provided that the firm or appraiser meets the department's minimum requirements for certification.

(4) Revoke the firm's or appraiser's certification.

(c) In determining which of the remedies provided in subsection (b) to take, the commissioner may request

documents, statements, or information from the firm, appraiser, or any other entity.

(d) The commissioner's determination as to which of the actions under subsection (b) to take regarding the firm's or appraiser's certification shall be based on the following factors:

- (1) The seriousness of the violation.
- (2) Whether the violation is likely to recur.
- (3) The firm's or appraiser's character, including remorse, if any.
- (4) Whether the firm's or appraiser's continued certification would pose an undue risk to the public.

Affected: [IC 6-1.1-15](#); [IC 6-1.1-31.7](#); [IC 6-1.1-35.7-7](#)

Sec. 8. (a) With respect to the grounds by which the department may revoke the certification under [IC 6-1.1-35.7-7](#):

- (1) a violation of the standards of ethics or rules of solicitation adopted by the department, as provided in [IC 6-1.1-35.7-7](#)(5), refers to a violation of section 2(a) or ~~section 6~~ of this rule, or both; and
- (2) "material deception" means a falsehood, made by word or act, with the intent to mislead or misrepresent.

(b) The revocation procedure shall be initiated by the department's issuance of a notice to the respondent. The notice shall:

- (1) be sent by certified mail, return receipt requested;

- (2) contain a clear and concise statement detailing the alleged misconduct;
 - (3) state the time and place for a hearing that is not less than ninety (90) days from the date of mailing the notice; and
 - (4) inform the respondent:
 - (A) of the information contained in subsections (d) and (g); and
 - (B) that the failure to attend the hearing without good cause may constitute grounds for default entered in favor of the **state property tax assessment board of appeals, the Indiana** board, or the department, as well as the sanction imposed.
- (c) The department shall appoint a hearing officer for purposes of these proceedings. The hearing officer may, with prior written notice to the parties:
- (1) conduct any prehearing proceedings:
 - (A) requested by either party; or
 - (B) that the hearing officer determines may aid in the ultimate resolution of the proceedings; and
 - (2) allow informal discovery subject to any terms and conditions the hearing officer deems to be appropriate.
- (d) The revocation hearing shall be conducted on the record subject to the following:
- (1) The respondent:
 - (A) may be represented by counsel; and
 - (B) shall have the right to:
 - (i) present witnesses and evidence on the respondent's own behalf; and
 - (ii) cross-examine the department's witnesses or evidence.
 - (2) The burden of proof shall be on the department to prove the violation or violations alleged by a preponderance of the evidence.
 - (3) No continuance shall be granted except upon a showing of good cause.
- (e) The hearing officer may consider any of the following in recommending to the commissioner whether the respondent's tax representative certification should be revoked:
- (1) The seriousness of the violation that gave rise to the proceedings.
 - (2) Whether the violation is likely to recur.
 - (3) The respondent's character, including remorse, if any.
 - (4) Whether the respondent's continued status as a tax representative would pose an undue risk to the public.
 - (5) Any other factor the hearing officer determines to be appropriate under the circumstances.
- (f) The hearing officer shall submit a recommendation for final action to the commissioner. The recommendation shall contain the reasons for the hearing officer's determination of the sanction, if any, to be imposed. The commissioner is not bound by the recommendation.
- (g) If the commissioner determines that a violation of section 2(a) or ~~section 6~~ of this rule, or both, has occurred, the commissioner may take any of the following remedies with respect to the respondent:
- (1) Decline to issue any sanction.
 - (2) Issue a written reprimand admonishing the respondent for the violation.
 - (3) Suspend the respondent's Level One, Level Two, or Level Three assessor-appraiser certification for a period of up to one (1) year, at the conclusion of which the respondent shall be automatically reinstated, provided that respondent meets all educational requirements for a tax representative certification.
 - (4) Revoke the certification of the respondent. ~~for a period of not less than one (1) year, and not more than three (3) years, at the conclusion of which respondent may petition the department for reinstatement provided that respondent meets all of the criteria for certification under this rule.~~
- (h) The commissioner's determination as to which of the actions under subsection (g) to take regarding the respondent shall be based on any of the following factors:
- (1) The seriousness of the violation that gave rise to the proceedings.
 - (2) Whether the violation is likely to recur.
 - (3) The respondent's character, including remorse, if any, and the respondent's previous compliance with or violation of the rules governing the conduct of a tax representative.
- (i) The determination of the commissioner constitutes a final appealable order of the department.

Sec. 9. (a) The previous holder of a tax representative certification may request that the department reinstate a certification up to three (3) years after the certification lapsed upon meeting the following requirements:

- (1) Submission of the completed reinstatement application.
- (2) Submission of documentation verifying that the applicant has met the requirements under section 2 of this rule.

(b) The previous holder of a tax representative certification may request that the department reinstate a certification that has lapsed or been expired for more than three (3) years upon meeting the following requirements:

- (1) Submission of the completed reinstatement application.
- (2) Submission of documentation verifying that the applicant has met the requirements under section 2 of this rule.
- (3) Submission of documentation verifying that the applicant has completed thirty (30) hours of continuing education and met the requirements under [50 IAC 15-3-10](#).

Authority: [IC 6-1.1-31-1](#); [IC 6-1.1-35.5-8.5](#)

Affected: [IC 6-1.1-35.7](#)

Sec. 10. (a) This section does not apply to a tax representative who received a notice under section 8(b) of this rule.

(b) A tax representative who wishes to withdraw his or her certification as a tax representative must complete and submit to the department a voluntary waiver by U.S. mail, facsimile, or e-mail. A copy of the voluntary waiver is sufficient for submission. However, the voluntary waiver must be signed. The tax representative's signature on the voluntary waiver indicates that the tax representative wholly exonerates and holds harmless the department, including its employees, agents, and hearing officers, with respect to the voluntary waiver.

(c) Upon receipt of the voluntary waiver, the department will review the voluntary waiver and verify that the tax representative qualifies to withdraw his or her tax representative certification. A tax representative shall be deemed qualified to withdraw his or her certification if the tax representative meets the qualifications under subsection (b).

(d) Upon verification that the tax representative qualifies for a voluntary waiver, the department will acknowledge, in writing, that the tax representative has withdrawn his or her certification as a tax representative and his or her name will be removed from the list of tax representatives posted on the

department's website.

(e) Submission of the voluntary waiver or a refusal of the department to acknowledge the voluntary waiver because of the tax representative's ineligibility to voluntarily withdraw certification does not, by itself, constitute grounds for initiating a proceeding under section 8 of this rule.

Sec. 2. (a) A petition for assessment must be filed with the commissioner of the department and contain the following information:

- (1) The name and address of the industrial company to be assessed.
- (2) The county and township in which the industrial company is located.
- (3) A detailed explanation of the reason a new assessment is being sought.
- (4) The names and addresses of the real property owners if the petition is being filed under subsection (b).
- (5) The name and title of the person filing on behalf of the industrial company if the petition is being filed under subsection (c).
- (6) The name and contact information of the individual designated as petitioner's representative.
- (7) A certification from the county auditor that the owners of real property filing under subsection (b) are in fact owners of real property in the township in which the industrial company is located.

(b) Two hundred fifty (250) or more owners of real property in a township may file a petition described under subsection (a) with the department before January 1 of each year that a general reassessment commences under ~~[IC 6-1.1-4-4](#)~~, requesting to have the department assess the real property of an industrial company located in the township.

(c) Prior to submitting a petition to the department under subsection (b), the auditor of the county in which the industrial company is located shall certify the number of petitioners that are owners of real property within the township. The department shall forward a copy of the completed petition to the county auditor and the county assessor of the county in which the industrial company is located within fifteen (15) days of receiving the petition. The county assessor shall forward a copy of the petition to the township assessor who is responsible for the assessment of the industrial company.

(d) An industrial company as defined in [IC 6-1.1-8.7-1](#) may file a petition under subsection (a) with the department requesting that the department assess the real property of an industrial facility owned or used by the company.

Authority: [IC 6-1.1-31-1](#); [IC 6-1.1-31-12](#); [IC 6-1.1-4-4.5](#)

Affected: [IC 6-1.1-4](#); [IC 6-1.1-13](#)

Sec. 1. The purpose of this article is to establish **the** procedures and standards to govern local assessing officials and the department in the annual adjustment of assessed valuations of real property under [IC 6-1.1-4-4.5](#) and [IC 6-1.1-13](#). The procedures, procedural requirements, and standards established by this article:

- (1) shall be followed to attain a just, equal, and uniform basis and level of assessment among taxpayers in a county and from county to county; and
- (2) will ensure that the annual assessed valuations are reflective of current market value-in-use conditions.

(Department of Local Government Finance; [50 IAC 27-1-1](#); filed Apr 8, 2010, 1:45 p.m.: [20100505-IR-050090502FRA](#))

Sec. 3. In making annual adjustments in assessed valuations of real property, local assessing officials are required to do the following:

- (1) Reevaluate the factors that affect value.
- (2) Express the interactions of those factors mathematically.
- (3) Use mass appraisal techniques to estimate updated property values within statistical measures of accuracy.
- (4) Provide notice to taxpayers of an assessment change that results from the application of annual adjustments.
- (5) Adhere to the Uniform Standards of Professional Appraisal Practice in the performance of their duties.

~~These standards may be found at www.appraisalfoundation.org.~~

Affected: [IC 6-1.1-4-4.5](#)

Sec. 10. "Ratio study" ~~is used as a generic term for~~ **means the** sales-based studies designed to evaluate assessment performance. It is a study of the relationship between appraised or assessed values and market value-in-use as reflected by sales or other information.

(Department of Local Government Finance; [50 IAC 27-2-10](#); filed Apr 8, 2010, 1:45 p.m.: [20100505-IR-050090502FRA](#))

Affected: [IC 6-1.1-4-4.5](#)

Sec. 11. "Sales chasing" has the meaning set forth in the IAAO Standard on Ratio Studies ~~(July 2007)~~, **(April 2013)**, which is the practice of using the sale of a property to trigger a reappraisal of that property at or near the selling price. If sales with such appraisal adjustments are used in a ratio study, the practice causes invalid uniformity results and causes invalid appraisal level results, unless similar unsold parcels are reappraised by a method that produces an appraisal level for unsold properties equal to the appraisal level of sold properties. By extension, **this term means** any practice that causes the analyzed sample to misrepresent the assessment performance for the entire population as a result of acts by the assessor's office. **A subtle, possibly inadvertent, variety of sales chasing may occur when the recorded property characteristics of sold properties are differentially changed relative to unsold properties. Then the application of a uniform valuation model to all properties results in the recently sold properties being more accurately appraised than the unsold ones.**

(Department of Local Government Finance; [50 IAC 27-2-11](#); filed Apr 8, 2010, 1:45 p.m.: [20100505-IR-050090502FRA](#))

Sec. 14. "Value calibration analysis" means the process ~~by which~~ **where the** local assessing officials correlate proposed values with verified sales of similar properties within stratified groups as an integral part of performing annual adjustment functions to ensure that adjusted assessments will satisfy performance standards as measured by ratio studies.

Sec. 1. (a) Accuracy of property characteristics data is an essential element in developing accurate valuations for assessment. Accuracy is typically checked by selecting a sample of properties and having the property characteristics data collected again by a supervisor or deputy assessor in the county assessor's office.

(b) Property characteristics data must be continually updated in response to changes brought about by:

- (1) new construction;
- (2) new parcels;
- (3) remodeling;
- (4) demolition; and
- (5) destruction.

(c) The receipt of building permits for all significant construction activity, aerial photographs, and a locally-developed system for making periodic field inspections to identify properties and ensure that property characteristics data are complete and accurate shall be utilized to update property characteristics data in the county.

(d) Property characteristics data of properties whose sales are candidates for use in value calibration analysis and ratio studies shall be independently verified and updated by field inspection within sixty (60) days of the ownership transfer sale date.

(e) The period of time between physical inspections of individual properties in the county shall be not greater than ~~five (5)~~ **four (4)** years. Such inspections may be for any valid reason, such as reassessment, new

construction, or sales data verification. When a physical inspection is conducted, all property characteristics shall be inspected and verified during the visit to the property. The county assessor shall employ a reliable record keeping system for tracking physical inspections and identification of properties requiring inspection because of the ~~five (5)~~ **four (4)** year time limit, **consistent with the county's cyclical reassessment plan approved in accordance with [IC 6-1.1-4-4.2](#).**

(f) The basic physical characteristics of each property used in the ratio study must be the same when assessed and when sold.

(g) The basic physical characteristics of each property used in value calibration analysis must be the same when a new candidate adjusted value is calculated as when the property sold. This means that a snapshot of the physical characteristics of each sold property at the time of the sale must be retained in the database for calibration analysis.

Sec. 2. (a) To the greatest extent possible, county assessors shall use sales of properties occurring after January 1 of the calendar year immediately preceding the ~~March 1~~ **January 1** assessment date in performing value calibration analysis and sales ratio studies under this article for the county. For example, sales beginning on January 1, 2009, **2018**, shall be used for the ~~March 1, 2010~~, **January 1, 2019**, assessment date.

(b) If insufficient sales data satisfying the IAAO Standard for Ratio Studies are available for the county as a whole, county assessors may use data from earlier time periods, time adjusting the data as described in the applicable IAAO standards incorporated by reference in [50 IAC 27-1-4](#).

(c) If data other than described in subsection (a) or (b) are intended for use, the county assessor shall first explain in writing to the director of the ~~assessment~~ **division of data analysis** of the department the reasons for using other data and obtain approval for in writing prior to its use.

(d) If adequate sales data satisfying the IAAO standard are not available, other methods for testing the validity of the assessment prescribed by applicable IAAO standards incorporated by reference in [50 IAC 27-1-4](#) may be used.

(b) The department conducts independent ratio studies annually using the data contained in files submitted to the department by the counties. However, in addition to ratio studies that use the most recent calendar year sales and the subsequent ~~March 4~~ **January 1** assessment data, the department may perform ratio studies using the most recent calendar year sales and the prior year ~~March 4~~ **January 1** assessments, which are usually determined prior to the most recent calendar year sales events, as a means of monitoring sales chasing.

Affected: [IC 6-1.1-14-12](#); [IC 6-1.1-33.5-6](#)

Sec. 5. (a) Except for agricultural land, ratio study statistics shall be calculated based on the methods and procedures contained in the IAAO Standard on Ratio Studies (~~July 2007~~); **(April 2013)**, as incorporated by reference in [50 IAC 27-1-4](#).

(b) The level of assessment, as determined by the median ratio, must fall between 0.90 and 1.10 for any class of property. However, ~~confidence intervals, rather than the median ratio itself, will be used~~ **department may use necessary measures of reliability** to determine **ratio study** compliance. ~~with this benchmark.~~

(c) The coefficient of dispersion (COD) standard for improved residential property is 15.0 or less. ~~Income-producing property, vacant land, and~~ **All** other real property ~~have~~ **has** a COD standard of 20.0 or less.

(d) The price-related differential (PRD) must be between 0.98 and 1.03. However, in accordance with the Standard on Ratio Studies, as incorporated by reference in [50 IAC 27-1-4](#), if there are fewer than twenty (20) sales in a particular township or class of property, the Spearman Rank test will be relied upon to determine if vertical equity has been met for that stratum. This will resolve the well-known sensitivity of the PRD to outliers in small samples.

~~(e) Confidence intervals are a way of capturing the variation in a sample of properties. For example, the median ratio is generally relied upon as the best estimate of the overall level of assessment for a given property stratum. However, the sample median itself is not an exact estimate of the population median, only the assessor's best guess. The accuracy of this estimate improves when more sales are used. For example, one would have more confidence that the sample median represented the actual level of assessment, if the stratum contained fifty (50) sales rather than five (5) sales. A confidence interval consists of a lower and upper bound for the median ratio and a given level of confidence that the actual median ratio is between those two (2) bounds. In all cases, the level of confidence used by the department will be ninety-five percent (95%) (two-tailed).~~

~~(f) (e)~~ The goal is to achieve an overall assessment level **shall be** equal to one hundred percent (100%) of market value-in-use. However, ensuring uniformity in assessment levels among strata is also important. Therefore, the assessment level of each township and major property class (~~residential improved, residential vacant, commercial improved, commercial vacant, industrial improved, and industrial vacant~~); **(improved residential, unimproved residential, improved commercial, unimproved commercial, improved industrial, and unimproved industrial)**, must be within five percent (5%) of the overall assessment level of the county.

(f) The data used for ratio studies shall include the sales ratio data exported from the property tax management system under [50 IAC 26-3-6](#). If the county assessor or township assessor (if any) modifies any of the data exported from the property tax management system for the ratio study classification, an explanation of the modifications shall be provided to the department.

Affected: [IC 6-1.1-13](#)

Sec. 6. (a) The county assessor shall calculate median assessment ratios for each of the following classes of property in the **entire** county and **for** each township in the county **where an adequate sales sample exists as defined in section 5 of this rule:**

- (1) Improved residential.
- (2) Unimproved residential.
- (3) Improved commercial.
- (4) Unimproved commercial.
- (5) Improved industrial.
- (6) Unimproved industrial.
- ~~(7) Agricultural land.~~

(b) If any of the classes of property listed in subsection (a) consists of fewer than twenty-five (25) parcels, no assessment ratio median is required to be calculated for that class.

(c) In calculating assessment ratios, each county assessor shall disregard distributable utility property. The county assessor shall classify locally assessed utility real property according to its use, for example, commercial or industrial, for purposes of calculating assessment ratios.

Affected: [IC 6-1.1-4-4.7](#); [IC 6-1.1-4-27.5](#); [IC 6-1.1-5.5-3](#)

Sec. 7. (a) The county assessor shall retain and properly verify all sales disclosure forms forwarded under [IC 6-1.1-5.5-3](#). In conjunction with IAAO standards incorporated by reference in [50 IAC 27-1-4](#), the county assessor shall utilize the sales verified to perform value calibration analysis to determine whether adjustment factors are required within any neighborhoods and property classes of the county for annual adjustment and equalization as required by this article.

(b) Each county assessor shall complete all sales verification prior to ~~March 31~~ **February 1** for sales occurring before the ~~March 1~~ **January 1** assessment date, including inspection required under [50 IAC 27-3-1](#).

(c) Sales data must be routinely confirmed. Receipt of properly certified sales disclosure forms required by [IC 6-1.1-5.5](#) initiates the verification process and provides important information by which sales data are confirmed.

(d) Sales used in a ratio study must be screened to ensure they reflect the market value-in-use of the real property transferred. Specific objectives of sales screening are to ensure the following:

- (1) Sales used in ratio studies reflect market value-in-use.
- (2) Sales prices reflect only the market value-in-use of the real property transferred and not the value of personal property, financing, leases, or other parcels of real property.
- (3) Only sales that occurred during the period of analysis are used.
- (4) Sales are excluded from the ratio study only with good cause, for example, when they compromise the reliability of the ratio study.

(e) Every arm's length, open market sale that appears to meet the conditions of a market value-in-use transaction shall be included in the ratio study unless one (1) of the following occurs:

- (1) Data for the sale are incomplete, unverifiable, or suspect.
- (2) The sale fails to pass one (1) or more specific tests of acceptability as listed in the IAAO Standard on Ratio Studies, Appendix A (~~July 2007~~), (**April 2013**), as incorporated by reference in [50 IAC 27-1-4](#).

(f) All sales are candidates for the ratio study unless sufficient and compelling information can be documented to show otherwise.

(g) Sale prices used in the ratio study shall be adjusted for financing, assumed long-term leases, personal property, gift programs, and date of sale in accordance with the IAAO Standard on Ratio Studies, Appendix A (~~July 2007~~), (**April 2013**), as incorporated by reference in [50 IAC 27-1-4](#).

(h) When there is more than one (1) confirmed valid sale of the same property during a ratio study period, only the final transaction shall be used in the ratio study.

(i) Sales used for value calibration analysis studies must also have property characteristics at the time of the

sale determined and recorded as required by [50 IAC 27-3-1](#).

(j) Some sales may be valid for value calibration analysis and not valid for sales ratio studies, such as a home site subdivided from a larger parcel of land and sold in an arm's-length transaction. Hence, sales transactions must be coded to indicate which type of validity applies so that valuable market information is available for value calibration and annual adjustment that would not be used for ratio studies.

Affected: [IC 6-1.1-4-4.5](#)

Sec. 1. (a) In the annual adjustment process the county assessor shall reevaluate the factors that affect value each year, express the interactions of those factors mathematically, and use mass appraisal techniques to estimate property values to reflect a property's market value-in-use. ~~Thus,~~ It is necessary to observe and evaluate, but not always to change, the assessment of each property each year in order to achieve current market value-in-use. Value calibration analysis studies performed by the county assessor will indicate where equalization action is needed to ensure annual equalization within the county.

(b) The annual adjustment process does not mean that each assessed valuation must be reviewed or recomputed individually. Instead, adjustment factors based on criteria such as property class, type, location, size, and age will be developed and applied to stratified groups of properties. These adjustment factors shall be derived from market value-in-use calibration analyses.

(c) Adjustment factors are not a substitute for physical reviews and individual reappraisals or reassessments, which are required to correct lack of uniformity within a class of property, and to obtain property characteristics data required by [50 IAC 27-3-1](#).

Sec. 2. (a) The county assessor shall use sales of properties occurring during a time period that is as short as possible and ideally not more than ~~fourteen (14)~~ **twelve (12)** months before the ~~March 4~~ **January 1** assessment and valuation date. A longer time period may be required to produce a representative sample for a property class within the county.

(b) To develop an adequate sample size, the sales used in ratio studies and value calibration analyses may span a period as long as five (5) years provided economic shifts are taken into account, property characteristics are as they were at the time of the sale, and sales prices have been adjusted for time as necessary.

(c) The valuation date is the ~~March 4~~ **January 1** assessment date. Sales occurring before that date shall be time adjusted if appropriate, in accordance with the IAAO standard. The time adjusted sale price shall become the basis for all ensuing analysis undertaken under this article.

Sec. 3. (a) A ratio study or a value calibration analysis study is valid to the extent that the sample is sufficiently representative of the population. A study sample is representative when the distribution of ratios of properties in the sample reflects the distribution of ratios of properties in the population.

(b) To be a representative sample, the sample must proportionally reflect major property characteristics, for example, property class, type, location, size, and age, present in the population of sold and unsold properties. The county assessor must incorporate a quality control program to ensure that sold and unsold parcels are assessed at the same level. See IAAO Standard on Ratio Studies, [Appendix D \(July 2007\)](#); **Appendix E (April 2013)**, as incorporated by reference in [50 IAC 27-1-4](#).

(c) A study sample with fewer than five (5) sales shall not be used due to its exceptionally poor reliability.

Sec. 4. (a) Neighborhoods **and other stratified groupings such as market areas** must have a **sample size** of five (5) or more sales if the ~~sales comparison approach~~ **data in the sample** is used to ~~value improvements or land~~, **compute an adjustment factor for the neighborhood**, unless the assessing official is able to justify the use of fewer sales in the neighborhood within the ratio study narrative. **To increase the sample size, an assessing official must combine sample data from neighborhoods and other groupings that have similar parcel or market characteristics.** For greater assessment precision, a larger sample size is needed. Therefore, in accordance with IAAO standards incorporated by reference in [50 IAC 27-1-4](#), the department will require that adequate sample sizes be used.

(b) If commercial and industrial improved properties have a limited number of sales, for example, fewer than five (5) sales in the strata, the county must use the other approaches to value as outlined in section 8 of this rule, that is, cost tables **and** income data. ~~MLS data, etc.~~

Affected: [IC 6-1.1-4-4.5](#)

Sec. 5. (a) Outlier ratios are very low or high ratios as compared with other ratios in the sample. One (1) extreme outlier can have a controlling influence over some statistical measures. Outlier ratios can result from an erroneous sale price, a nonmarket sale, unusual market variability, a mismatch between property sold and the property assessed, and other reasons listed in the IAAO Standard on Ratio Studies, Standard 5.2 ~~(July 2007)~~; **(April 2013)**, as incorporated by reference in [50 IAC 27-1-4](#).

(b) The preferred method of handling an outlier ratio is to subject it to additional scrutiny to determine whether the sale is a nonmarket transaction or contains an error in fact. If the error can be corrected, for example, data entry error, the property should be kept in the sample. If the error cannot be corrected, if correction of the error would cause the identified outlier to no longer be representative of the population, or if inclusion of the identified outlier would reduce sample representativeness, the sale shall be excluded.

(c) For guidelines on outlier identification and trimming, see **the department requires that assessing officials follow** the IAAO Standard on Ratio Studies, Appendix B (~~July 2007~~); **(April 2013)**, as incorporated by reference in [50 IAC 27-1-4](#).

[50 IAC 27-5-6](#) Review of neighborhood delineations

Authority: [IC 6-1.1-4-4.5](#); [IC 6-1.1-31-1](#); [IC 6-1.1-31-12](#)

Affected: [IC 6-1.1-4-4.5](#)

Sec. 6. (a) The assessing official shall review existing neighborhood delineations to determine if the delineations used adequately placed like property into homogeneous geographic groups. The assessing official may only modify neighborhood boundaries if their neighborhood review identifies inadequacies in the original delineations. This modification may include the development of new neighborhood delineations. If the assessing official determines through review, ratio studies, or **assessment** appeals from previous assessment years that the neighborhood delineations need to be modified, the local assessing official shall proceed in setting new neighborhood boundaries.

(b) The assessing official shall base new neighborhood delineations on geographic areas sharing locational and physical similarities, and stratified groups exhibiting a high degree of similarity in the following:

- (1) Amenities.
- (2) Use.
- (3) Economic trends.
- (4) Building characteristics, such as the following:
 - (A) Improvement quality.
 - (B) Age.
 - (C) Physical characteristics.

(c) In areas where values are erratic or neighborhood delineations are not sufficiently homogeneous, the real property in the area shall be reassessed or further stratified by property characteristics, developing separate factors for various property strata. For example, if older homes in a specific neighborhood are appreciating or depreciating at a more rapid rate than new homes, the two (2) groups should be stratified and analyzed separately with a factor determined for each property type within the specific neighborhood.

(d) It is not sufficient to merely stratify properties and sales according to their classification, that is, residential and commercial, and develop one (1) neighborhood and one (1) annual adjustment factor for the entire class of property. Properties throughout any area within the county, even though they have the same classification, may vary considerably in quality, style, age, location, and amenities and, therefore, may change in value at differing rates. Sales used to develop annual adjustment factors must be comparable to the properties for which the factors are being developed. In other words, the assessor shall endeavor to ensure that adjustment factors are developed from a sample of sales that is representative to the population of parcels to which the factors will ultimately be applied.

(e) The assessing official may also determine that it is inappropriate to apply an annual adjustment factor on both the land and improvements of a property. For example, the assessing official may determine to apply the annual adjustment factor:

- (1) only to the land; or
- (2) to the dwelling and one (1) outbuilding or garage and not on other outbuildings, recent additions, or other

improvements.

In that case, the assessing official shall document the reasons for application of the annual adjustment factor to some, but not all, of the improvements or land.

Sec. 7. (a) The county assessor shall review land values as part of the annual adjustment process.

(b) If the county assessor determines through review, ratio studies, or **assessment** appeals from previous assessment years that the land base rate units need to be modified, the county assessor shall proceed to set new land base rates. The sales comparison approach is the primary approach to land valuation and is always preferred when sufficient sales are available. If there are fewer than five (5) sales in a strata, there are several methods of determining land values in the absence of adequate sales in a neighborhood, including, but not limited to, the following:

- (1) Use land values from a similar neighborhood that has vacant land sales to support the land base rate.
- (2) Extract the land value from valid sales of improved properties.
- (3) Expand the period from which sales are drawn and adjust for time as necessary.

(b) If assessing officials determine that there are fewer than five (5) sales of commercial or industrial improved

- (1) Nationally published cost data from a credible source, such as Craftsman ~~or~~ Marshall and Swift, ~~or R.S. Means~~ and locally developed depreciation tables from the last calendar year preceding the assessment date.
- (2) Income data, rental data, market value-in-use appraisals, and other relevant evidence derived from appeals of ~~the 2002 reassessment~~ **previous reassessments** and adjusted, as applicable, to the January 1 of the year preceding the assessment date.

Authority: [IC 6-1.1-4-4.5](#); [IC 6-1.1-31-1](#); [IC 6-1.1-31-12](#)

Affected: [IC 6-1.1-4-39](#)

Sec. 10. (a) Stratification is the sorting of parcels into relatively homogeneous groups based on use, physical characteristics, and location. Stratification permits analysis of mass appraisal performance within and between property groups. Care must be taken not to over-stratify, that is, to create strata that are too small to achieve statistical reliability. Ultimately, the degree of stratification will be determined largely by available sales data, unless it is cost-effective and practical to add sufficient independent appraisals. ~~If sufficient sales or appraisals are not available for A given stratum it should~~ **must** be combined with similar strata **if sufficient sales or appraisals are not available for that stratum**. Also, systematic sales chasing can occur if when creating adjustments for the market, characteristics are over-stratified. ~~The most~~ Over-stratification is **most likely to occur** with the creation of neighborhoods.

(b) If, upon review of preliminary value calibration analyses, ratio studies, neighborhood delineations, and land values, the assessing official determines that further categorization of property types is necessary to promote uniform and equal assessments, the local assessing official shall attempt stratification before commencing a reassessment to adjust real property market valuations.

(c) The assessing official will need to identify similar groups of property, by property class and property type within neighborhoods, based on criteria such as location, structure type, and age. This dividing of property into groups of similar or homogeneous types for analysis and value adjustment is stratification. Value calibration analyses are generated for various strata and adjustment factors are refined until the assessor determines that ~~(CODs)~~ **the coefficient of dispersion (COD)** and ~~(PRDs)~~ **the price-related differential (PRD)** are within the requirements of this rule. The calibrated adjustment factors are then applied to the valuation of all similarly situated properties so that the assessment statistics fall within the requirements ~~Part 1, Section 9~~ of the IAAO Standard on Ratio Studies. For example, if an examination of the ~~outlier~~ sales indicates that properties on large acreage tracks are undervalued causing the COD to be out of line, and grouping by land size shows an acceptable COD within the group but the median ratio for the larger tracks is lower than the smaller tracks, the assessor might then adjust the excess acreage rate so that the median of the large acreage comes to the same median level as the remaining parcels. After this is accomplished in accordance with section 6 of this rule, the application of overall adjustment factors shall be applied based on the revised value calibration analyses.

(d) In accordance with [IC 6-1.1-4-39](#), stratification, if appropriate, and annual adjustment of real property regularly used to rent or otherwise furnish residential accommodations for periods of thirty (30) days or more and that has more than four (4) rental units shall take into account that the valuation of such property is to be determined by applying the least of the following appraisal approaches:

- (1) The cost approach.
- (2) The sales comparison approach.
- (3) The income capitalization approach.

(e) In accordance with [IC 6-1.1-4-39\(b\)](#), stratification, if appropriate, and annual adjustment of real property that has at least one (1) and not more than four (4) rental units shall take into account that the gross rent multiplier method is the preferred method of valuing such property.

[50 IAC 27-9-2](#) Computer assisted mass appraisal systems

Authority: [IC 6-1.1-4-4.5](#); [IC 6-1.1-31-1](#); [IC 6-1.1-31-12](#)

Affected: [IC 6-1.1-4-4.5](#)

Sec. 2. The local assessing official shall be responsible for ensuring **that** the sales data is included in the database used in the property valuation software employed by the assessors. The local assessing official may also capture this data in other analytical or data capture software systems, but all transfers with a stated consideration must be included in the primary valuation software.

SECTION 177. [50 IAC 27-9-3](#) IS AMENDED TO READ AS FOLLOWS:

[50 IAC 27-9-3](#) Transfer of statistical data

Authority: [IC 6-1.1-4-4.5](#); [IC 6-1.1-31-1](#); [IC 6-1.1-31-12](#)

Affected: [IC 6-1.1-13](#); [IC 6-1.1-14](#)

Sec. 3. (a) County assessors shall forward to the division of data analysis electronic spreadsheets that contain all data used to calculate a **coefficient of dispersion** (COD) and median ratio for the county and each township **on or before March 1**. The data the county assessor provides must, at a minimum, include the following information for each property used to calculate the ~~coefficient of dispersion~~ **COD** and median ratio:

- (1) Parcel number.
- (2) **Township.**
- (3) **Neighborhood code.**
- (4) **Property class code.**

(5) Taxing district.

(6) Sale date.

(7) Sale price.

~~(2) (8) Assessed value of land.~~

~~(3) (9) Assessed value of improvement.~~

(10) Total assessed value.

(11) Ratio.

~~(4) Date of sale.~~

~~(5) Sale price.~~

~~(6) Township.~~

~~(7) School corporation.~~

~~(8) County taxing district number.~~

~~(9) Department taxing district number.~~

~~(10) Condition rating.~~

~~(11) Grade.~~

~~(12) Neighborhood code.~~

~~(13) Property class code.~~

(b) The division will review and verify the accuracy of the computations. If errors are found in the computations, the division will notify the county assessor, who shall correct all errors. Once all errors are corrected, the county assessor shall forward the corrected computations to the division for verification. When this verification is complete, the division will notify the county assessor.

Sec. 1. (a) If the median ratio or **coefficient of dispersion** (COD) calculated for the county and each township in any property classification specified in [50 IAC 27-4-1.5](#), [50 IAC 27-4-6](#), as verified by the department, falls outside the requirements of [50 IAC 27-4-1.4](#), [50 IAC 27-4-5](#), the county assessor shall apply an adjustment factor to bring the median ratio and COD into compliance.

(b) If the county assessor believes that reasons exist why no factor ~~or a factor other than that required to bring the median ratio to one (1.0)~~, should be applied in a particular township, the county assessor shall immediately:

- (1) notify the commissioner in writing of those reasons; and
- (2) request permission to take:

- (A) action other than that mandated in subsection (a); or
- (B) no action.

(c) The commissioner shall act on the request within thirty (30) days of receiving the request. In response to a county assessor's request for permission to take action other than that mandated in subsection (a), the commissioner may:

- (1) require the county assessor to take the action mandated in subsection (a);
- (2) permit the action requested by the county assessor; or
- (3) require the county assessor to take other action short of that required in subsection (a).

Sec. 1. (a) If the **coefficient of dispersion** (COD) calculated for the county or township for any property classification specified in [50 IAC 27-4-1.5](#), [50 IAC 27-4-6](#), as verified by the department, falls outside the requirements of [50 IAC 27-4-1.4](#) [50 IAC 27-4-5](#) and cannot be corrected by use of the annual adjustment and equalization methods specified in this article or [IC 6-1.1-13](#) or [IC 6-1.1-14](#), the county assessor shall reassess the property class in the county or township, whichever is applicable, to bring it into compliance with the requirements of the IAAO standards incorporated by reference by [50 IAC 27-1-4](#).

(b) If the **price-related differential** (PRD) calculated for the county or township for any property classification specified in [50 IAC 27-4-1.5](#), [50 IAC 27-4-6](#), as verified by the department, falls outside the requirements of [50 IAC 27-4-1.4](#) [50 IAC 27-4-5](#) and cannot be corrected by use of the annual adjustment and equalization methods specified in this article, the county assessor shall reassess the property class in the county or township in order to bring it into compliance with the requirements of the IAAO standard.

(c) If the county assessor believes that reasons exist not to reassess a property class in the county under subsection (a) or (b), the county assessor shall immediately:

- (1) notify the commissioner in writing of those reasons; and
- (2) request permission to take:
 - (A) action other than that mandated in subsection (a) or (b); or
 - (B) no action.

(d) The commissioner shall act on the request within thirty (30) days of receiving the request. In response to a county assessor's request for permission to take action other than mandated in subsection (a) or (b), the commissioner may:

- (1) require the county assessor to take the action mandated in subsection (a) or (b);
- (2) permit the action requested by the county assessor; or
- (3) require the county assessor to take other action short of that required in subsection (a) or (b).

[50 IAC 27-11-2](#) Sales chasing

Authority: [IC 6-1.1-4-4.5](#); [IC 6-1.1-31-1](#); [IC 6-1.1-31-12](#)

Affected: [IC 6-1.1-4](#); [IC 6-1.1-13](#); [IC 6-1.1-14](#)

Sec. 2. (a) Sales chasing is the practice of adjusting the value on properties that sold without regard to the market analysis performed in setting values for the population. Sales chasing can occur on an individual basis or ~~done~~ **can occur** systematically. First, on an individual basis, it may occur when individual sales are reviewed with focus on the assessed value to the sales price. In such a situation, the assessor changes characteristics of the property in order for the value to come in line with the sales price. Systematic sales chasing may occur if, when creating adjustments for the market, characteristics are over-stratified. The most common over-stratification is with the creation of neighborhoods.

(b) A subtle, possibly inadvertent, variety of sales chasing occurs when the recorded property characteristics of sold properties are differentially changed relative to unsold properties. Then the application of a uniform valuation model to all properties results in the recently sold properties being more accurately appraised than the unsold ones.

(c) Local assessors shall avoid the practice of sales chasing. The department shall monitor and discourage sales chasing because unless similar unsold parcels are reassessed at the same level as sold parcels, sales chasing causes inequitable treatment of taxpayers by shifting the tax burden to taxpayers who have recently bought property.

(d) As long as sold and unsold parcels are assessed in the same manner and the data describing them are

coded consistently, statistics calculated in a sales ratio study can be used to infer assessment performance for unsold parcels. However, if parcels that sell are selectively reassessed or recoded based on their sales prices or some other criterion, such as listing price, and if such parcels are in the ratio study, sales ratio study uniformity inferences will not be accurate (assessments will appear more uniform than they are).

(e) Local assessors and the department are not required to employ all of the detection techniques described in Appendix D E of the IAAO Standard on Ratio Studies (~~July 2007~~), **(April 2013)**, but shall consider implementing at least one (1) procedure.

(f) Once it is determined that sales chasing probably has occurred and probably is reducing the validity of ratio study statistical measures of level or uniformity, it is necessary for the assessor to redo the ratio study to establish valid measures before any other recommendations, such as reassessment in accordance with [IC 6-1.1-4](#) or equalization action in [IC 6-1.1-14](#), may be made.

Sec. 1. (a) The township:

- (1) is an integral component of the county; and
- (2) shall be analyzed and assessed accordingly.

(b) In those townships with a township assessor, the township assessor shall perform the functions ~~of the county assessor~~ under this article within that township.

Sec. 3. (a) In assessing golf courses by means of the income capitalization method, an assessing official shall derive a value indication for income-producing property by ~~converting the anticipated benefits of ownership of the property.~~ **dividing the three (3) year average net operating income by the cap rate as determined annually by the department.**

(b) Through use of income capitalization, an assessing official shall rely on the economic principles of the following:

- (1) Anticipation.
- (2) Change.
- (3) Supply and demand and competition.
- (4) Substitution.
- (5) Balance and contribution.
- (6) Industry standard cap rates.**

(c) Because a golf course may generate multiple sources of income, including greens fees, membership dues, and concessions, assessing officials shall solicit data for gross income and allowable operating expenses from the golf course operators and use federal tax returns or similar evidence as verification that the submissions are correct.

(d) **The date of assessment is January 1. An assessing official shall examine multiple years of the financial records and federal tax returns up to and including the most current financial records and federal tax returns of the taxpayer for the three (3) immediately preceding years to obtain the average net operating income. The three-year average should include the most current completed financial records and filed federal tax returns for the golf course as of March 1 of the year of assessment, January 1 to ensure that the appropriate income and expense information for the subject property is utilized.** Under [IC 6-1.1-35-9](#), all income and expense information provided to the assessing official is confidential.
