Taxpayer protests the assessment of an overweight civil penalty.

STATEMENT OF FACTS

Taxpayer is a Wisconsin-based trucking company. On June 9, 2023, the Indiana State Police ("ISP") cited Taxpayer's commercial motor vehicle for an overweight violation for being overweight on a tandem axle group. As a result, the Indiana Department of Revenue ("Department") issued Taxpayer a proposed assessment for an overweight violation under [IC 9-20-18-14.5\(d\)](#).

Taxpayer protested the assessment, requesting a final determination without a hearing. This Letter of Findings results. Additional facts will be provided as necessary.

I. Motor Vehicles - Overweight Penalty.

DISCUSSION

Taxpayer protests the imposition of a penalty for an overweight violation of one of its trucks. Taxpayer argues that the Department should consider the unique facts in this case, including its "strong emphasis on exercising due diligence."

As a threshold issue, it is Taxpayer's responsibility to establish that the existing proposed assessment is incorrect. As stated in [IC 6-8.1-5-1\(c\)](#):

The notice of proposed assessment is prima facie evidence that the [D]epartment's claim for the unpaid tax is valid, including during an action appealed to the tax court under this chapter. The burden of proving that the proposed assessment is wrong rests with the person against whom the proposed assessment is made.

The Department notes that, "when [courts] examine a statute that an agency is 'charged with enforcing. . . [courts] defer to the agency's reasonable interpretation of [the] statute even over an equally reasonable interpretation by another party.'" *Dept. of State Revenue v. Caterpillar, Inc.*, 15 N.E.3d 579, 583 (Ind. 2014). Thus, all interpretations of Indiana tax law contained within this decision shall be entitled to deference.

According to [IC 9-20-1-1](#), "[e]xcept as otherwise provided in [IC Art. 9-20], a person, including a transport operator, may not operate or move upon a highway a vehicle or combination of vehicles of a size or weight exceeding the limitations provided in [IC Art. 9-20]."

According to [IC 9-20-1-2](#), the owner of a vehicle "may not cause or knowingly permit to be operated or moved upon a highway [in Indiana] a vehicle or combination of vehicles of a size or weight exceeding the limitations provided in [IC Art. 9-20]."

[IC 9-20-18-14.5](#) authorizes the Department to impose civil penalties against motor carriers that obtain a permit under IC Art. 9-20 and violate IC Art. 9-20 ("Permit Violation Civil Penalty") or are required, but fail, to obtain a permit under IC Art. 9-20 ("No Permit Civil Penalty"). The Department may also impose a civil penalty for vehicles or loads in excess of the size or weight limits provided in IC Art. 9-20 and for which no permit is available for the excess size or weight ("No Permit Available Civil Penalty").

[IC 6-8.1-1-1](#) states that fees and penalties stemming from IC Art. 9-20 violations are a "listed tax." Under [IC 9-20-18-14.5\(a\)](#) these listed taxes are in addition to and separate from any settlement or agreement made with a local court or political subdivision regarding the traffic stop.

[IC 9-20-18-7](#) provides defenses which taxpayers may rely on when they submit their protest to the Department.

ISP cited Taxpayer's vehicle for being 5,780 pounds overweight on the trailer tandem axle group in violation of [IC 9-20-4-1](#). The Department imposed a "No Permit Available Civil Penalty" in accordance with [IC 9-20-18-14.5\(d\)](#) because Taxpayer was in excess of the legal per axle group weight. Under IC Art. 9-20, no permit is available for instances where axles are overweight.

Taxpayer argues that "company policy" prevents drivers from loading their vehicles but did not provide a copy of the policy to the Department. In support of its position, Taxpayer provided a copy of the Bill of Lading to show the weight of the load. Taxpayer further presents that it has air gauges installed to assist drivers in determining approximate weight, it partners with a scale company to use its scale network, and Taxpayer even pays to cover cost when drivers use scales outside of that network. Taxpayer also provided in its letter that it trains drivers extensively on preventing overweight situations. The training includes exercises on using air gauges; having customers rework loads; sliding tandems; correcting brakes; and being aware of legal weights. Here the company asserts that the driver corrected the load after the ISP officer pointed out the overweight violation. However, the corrections should have been made before the driver left the loading area in compliance with their extensive training. Correcting after a police stop is ineffective for the sake of this protest.

While Taxpayer has not established that the axle group in question was not over the allowed weight, [IC 9-20-18-14.5](#) provides "not more than" language for the Department to consider when generating a proposed assessment amount. Considering Taxpayer's history of compliance at the time of this inspection and information gathered during the protest process, the Department will generate a proposed assessment with a reduced amount as authorized by its statutory discretion and this Letter of Findings.

FINDING

Taxpayer's protest is sustained in part and denied to the extent that Taxpayer did not prove the entire penalty should be removed.
