SUMMARY OF FINDINGS UNDER [IC 4-22-2.6-4](#)

The board is required as per [IC 25-17.6-3-12](#) to create rules for the licensing of professional geologists. The last cost benefit, economic impact, and fiscal impact were conducted in 2019 that resulted in an increase in application and renewal fees so that the board would remain solvent. No changes have taken place since then. The licensing board has received no complaints in the last 10 years. The licensing of professional geologists is managed by the Indiana Geological and Water Survey. The survey has successfully and efficiently administered this program since required by statute in June 1980. Licensed professional geologists are independently licensed and therefore have no impact on state agencies and businesses.

REQUEST FOR PUBLIC COMMENTS
