Taxpayer protests the assessment of an overweight civil penalty.

STATEMENT OF FACTS

Taxpayer is an out-of-state trucking company. On August 8, 2022, the Indiana State Police ("ISP") cited Taxpayer's commercial motor vehicle for an overweight violation for being overweight on an axle group. As a result, the Indiana Department of Revenue ("Department") issued Taxpayer a proposed assessment for an overweight violation under [IC 9-20-18-14.5\(d\)](#).

Taxpayer protested the assessment and elected to receive a final determination without a hearing. This Letter of Findings results. Additional facts will be provided as necessary.

I. Motor Vehicles - Overweight Penalty.

DISCUSSION

Taxpayer protests the imposition of a penalty for an overweight violation of one of its trucks. Taxpayer argues that a trailer tandem shift caused the vehicle to be overweight an axle group.

As a threshold issue, it is Taxpayer's responsibility to establish that the existing proposed assessment is incorrect. As stated in [IC 6-8.1-5-1\(c\)](#):

The notice of proposed assessment is prima facie evidence that the [D]epartment's claim for the unpaid tax is valid, including during an action appealed to the tax court under this chapter. The burden of proving that the proposed assessment is wrong rests with the person against whom the proposed assessment is made.

The Department notes that, "when [courts] examine a statute that an agency is 'charged with enforcing. . . [courts] defer to the agency's reasonable interpretation of [the] statute even over an equally reasonable interpretation by another party.'" *Dept. of State Revenue v. Caterpillar, Inc.*, 15 N.E.3d 579, 583 (Ind. 2014). Thus, all interpretations of Indiana tax law contained within this decision shall be entitled to deference.

According to [IC 9-20-1-1](#), "[e]xcept as otherwise provided in [IC Art. 9-20], a person, including a transport

operator, may not operate or move upon a highway a vehicle or combination of vehicles of a size or weight exceeding the limitations provided in [IC Art. 9-20]."

According to [IC 9-20-1-2](#), the owner of a vehicle "may not cause or knowingly permit to be operated or moved upon a highway [in Indiana] a vehicle or combination of vehicles of a size or weight exceeding the limitations provided in [IC Art. 9-20]."

[IC 9-20-18-14.5](#) authorizes the Department to impose civil penalties against motor carriers that obtain a permit under IC Art. 9-20 and violate IC Art. 9-20 ("Permit Violation Civil Penalty") or are required, but fail, to obtain a permit under IC Art. 9-20 ("No Permit Civil Penalty"). The Department may also impose a civil penalty for vehicles or loads in excess of the size or weight limits provided in IC Art. 9-20 and for which no permit is available for the excess size or weight ("No Permit Available Civil Penalty").

[IC 6-8.1-1-1](#) states that fees and penalties stemming from IC Art. 9-20 violations are a "listed tax." Under [IC 9-20-18-14.5\(a\)](#) these listed taxes are in addition to and separate from any settlement or agreement made with a local court or political subdivision regarding the traffic stop.

[IC 9-20-18-7](#) provides defenses which taxpayers may rely on when they submit their protest to the Department.

ISP cited Taxpayer's vehicle for being 1,980 pounds overweight on a tandem axle group in violation of [IC 9-20-4-1](#). The Department imposed a "No Permit Available Civil Penalty" in accordance with [IC 9-20-18-14.5\(d\)](#) because Taxpayer was in excess of the 34,000-pound total weight limit. Under IC Art. 9-20, no permit is available for instances where axles are overweight.

Taxpayer claims that the carrier did not know or could not have known that the vehicle was overweight at the time of the inspection. In support of this claim, Taxpayer mentions that the vehicle was not over gross weight and was loaded with more weight than normal on the rear of the trailer. The Taxpayer also explains that, to the extent the vehicle was overweight on an axle group, the driver was able to adjust the trailer tandems to distribute the weight legally before leaving the inspection station.

Taxpayer did not provide any additional documentation to support these claims. However, the ISP Commercial Vehicle Examination Report mentions that the trailer tandem slid to the front of the trailer slider rails. The available information supports the conclusion that the driver did not know and could not have known that the axle group was overweight at the time of the inspection.

However, while the Taxpayer has not established that the axle group in question was within the permitted weight, [IC 9-20-18-14.5](#) provides "not more than" language for the Department to consider when generating a proposed assessment amount. Considering Taxpayer's history of compliance at the time of this inspection and information gathered during the protest process, the Department will generate a proposed assessment with a reduced amount as authorized by its statutory discretion and this Letter of Findings.

FINDING

Taxpayer's protest is sustained in part and denied to the extent that Taxpayer did not prove that the entire penalty should be removed.
