FSSA – OMPP proposes to renew the adult 1915i program BPHC for an additional five years. Simultaneously, a performance measure will be added to the quality assurance process. During quality assurance reviews, the Division of Mental Health and Addiction (DMHA) state evaluation team (SET) will assess that the services provided during a package period are based on the person-centered plan developed with the consumer at time of application or reapplication. Finally, the renewal will also add clarifying language that states services provided face-to-face and by community mental health centers can also be provided through telehealth in compliance with [IC 12-15-1.3-22](#).
