An offeror shall identify information that he or she proposes to remain confidential and bind it separately from the remainder of his or her offer.

(b) Requests for public disclosure of information that an offeror has identified as proprietary shall be made to the director in writing. The director shall do the following:

(b) The only factors or criteria that may be used in the evaluation of proposals are those specified in the RFP. The requirements of the RFP shall not be altered.

(c) After identification of the responsible offeror whose proposal appears to be the most advantageous to the state, the state will enter into contract preparation activities with the offeror. If at any time the contract preparation activities are judged to be ineffective, the state may do the following:

(1) Cease all activities with that offeror.

(2) Begin contract preparation activities with the next highest ranked offeror.

This process may continue until a completed contract is executed. The state reserves the right to cease all contract preparation activities at any time and to reject all proposals if the action is determined by the commissioner to be in the best interest of the state. If made in the open market, a manually signed quote must be secured and shall be filed with the requisition. If practicable, two or three quotes shall be secured, but failure to do so shall not prevent the purchase from being made. (*Indiana Department of Administration; 25 IAC 1.1-1-9; filed Dec 15, 1981, 1:45 pm: 5 IR 241; readopted filed Nov 20, 2001, 9:30 a.m.: 25 IR 1265*)

25 IAC 1.1-1-10 Sole source procurement

Authority: IC 4-13.4-3-1

Affected: IC 4-13.4-5-6

Sec. 10. (a) The signature of the governor on a contract satisfies the requirements of this section for the governor's written approval.

(b) In instances where the compatibility of equipment, accessories or replacement parts is the paramount consideration, a

contract may be awarded without formal competition when the Commissioner states in writing his determination that there is only one (1) source which meets the agency's reasonable requirements, on the basis of a written justification submitted by the head of the state agency desiring to procure such supplies.

(c) In the case of high technology supplies, or a combination of supplies and services, such as word processing systems, a contract may be awarded without formal competition when the commissioner states in writing his determination that there is only one (1) source which meets the agency's reasonable requirements, on the basis of a specific written recommendation by the data processing division of the department of administration, developed as the result of a formal analysis of the state agency's needs undertaken by the division which meets the criteria established by the division, including cost factors.

(d) In the case of services not to exceed fifty thousand dollars (\$50,000), a contract may be awarded without formal competition when the Commissioner states in writing his determination that there is only one (1) source which meets the agency's reasonable requirements, on the basis of a written justification submitted by the head of the state agency desiring to procure such services.

(e) A contract may be awarded for a supply or service without competition in other instances when the Commissioner states in writing his determination that there is only one (1) source for the required supply or service. (*Indiana Department of Administration; 25 IAC 1.1-1-10; filed Dec 15, 1981, 1:45 pm: 5 IR 241; filed Jul 5, 1983, 3:22 pm: 6 IR 1371; readopted filed Nov 20, 2001, 9:30 a.m.: 25 IR 1265*)

25 IAC 1.1-1-11 Emergency procurements

Authority: IC 4-13.4-3-1

Affected: IC 4-13.4-5-7

Sec. 11. An emergency condition is a situation which creates a threat to the public health, welfare or safety such as may arise by reason of floods, epidemics, riots, equipment failures, or such other reason as may be proclaimed by the Governor, or determined by the Commissioner. The existence of such conditions create an immediate and serious need for supplies or services that cannot be met through normal procurement methods, and the lack of which would seriously threaten: (1) the functioning of state government; (2) the preservation or protection of property; or (3) the health or safety of any person.

Any state agency may make emergency procurements of up to \$1,500 for the repair of moveable equipment without prior Department of Administration approval when an emergency condition, as defined above, arises and the need cannot be met through normal procurement methods. Whenever practical, however, approval by the Commissioner or Director shall be obtained prior to the procurement. Emergency procurements of \$1,500 or more require the prior approval of the Commissioner or Director, either in writing or orally followed by written confirmation.

The procurement procedure used shall be selected to assure that the required supplies or services can be procured in time to meet the emergency. Given this constraint, such competition as is practicable shall be obtained. The agency head shall make a written determination stating the basis for an emergency procurement and for the selection of the particular contractor. Such determination shall be sent promptly to the Director. (*Indiana Department of Administration; 25 IAC 1.1-1-11; filed Dec 15, 1981, 1:45 pm: 5 IR 241; readopted filed Nov 20, 2001, 9:30 a.m.: 25 IR 1265*)

25 IAC 1.1-1-12 Procurement by federal supply service schedules

Authority: IC 4-13.4-3-1

Affected: IC 4-13.4-5-7

Sec. 12. (a) "Procurement" from federal supply service schedules includes buying, purchasing, renting, leasing, or otherwise acquiring any supplies or services.

(b) Any vendor listed on the current federal supply service schedules who is willing to make those prices available to the State for a fixed period of time shall make this availability known to the Director by filing with him a form available from the Procurement Division and receiving an identifying number.

(c) In the event the Commissioner determines in writing that it is advantageous to the State's interests in efficiency and economy to procure an agency's request for specified supplies or services from federal supply service schedules rather than to conduct a competitive procurement, the Director shall select from the schedules the available (as specified above) vendor whose supplies or services best meet the agency's criteria and offer the best value to the State and shall enter into a contract with said vendor to meet the agency's request.

(d) In the event no appropriate vendor has filed with the Division, the Director may contact up to three scheduled vendors whose supplies or services best meet the agency's criteria and offer the best value to the State and invite them to file. The Director shall make his selection from the vendors who file pursuant to this request within a specified period of time. In the event no vendor files, a selection process other than IC 4-13.4-5-8 [*IC 4-13.4-5-8 was repealed by P.L. 14-1996, SECTION 8, effective July 1, 1996.*] shall be used.

(e) In making a selection among vendors listed on the schedules on any basis other than price, the Director shall justify his selection in writing. (*Indiana Department of Administration; 25 IAC 1.1-1-12; filed Dec 15, 1981, 1:45 pm: 5 IR 242; readopted filed Nov 20, 2001, 9:30 a.m.: 25 IR 1265*)

25 IAC 1.1-1-13 Cancellation or rejection of solicitations

Authority: IC 4-13.4-3-1

Affected: IC 4-13.4-5-9; IC 4-13.4-6-1

Sec. 13. (a) Prior to opening, a solicitation may be cancelled in whole or in part when the Commissioner or Director determines in writing that such action is in the best interest of the State for reasons including, but not limited to:

- (1) The State no longer requires the supplies or services;
- (2) The State no longer can reasonably expect to fund the procurement;
- (3) Proposed amendments to the solicitation would be of such magnitude that a new solicitation is desirable.

When a solicitation is cancelled prior to opening, notice of cancellation shall be sent to all businesses which have received a solicitation.

The notice of cancellation shall: (a) identify the solicitation, and (b) cite the reason for cancellation.

The reason for cancellation shall be made part of the procurement file and shall be available for public inspection.

(b) After opening but prior to award, all bids or proposals may be rejected in whole or in part when the Commissioner or the Director determines in writing that such action is in the State's best interest for reasons including but not limited to:

- (1) The supplies or services being procured are no longer required;
- (2) Ambiguous or otherwise inadequate specifications were part of the solicitation;
- (3) Prices exceed available funds and it would not be appropriate to adjust quantities to come within available funds;
- (4) All otherwise acceptable bids or proposals received are at clearly unreasonable prices;
- (5) There is reason to believe that the bids or proposals may not have been independently arrived at in open competition, may have been collusive, or may have been submitted in bad faith;

A notice of rejection shall be sent to all businesses which submitted bids or proposals.

The reason for rejection shall be made part of the procurement file and shall be available for public inspection.

(c) After opening but prior to award, individual bids or proposals may be formally rejected when the Director or Commissioner makes a written determination that:

- (1) The business that submitted the bid is nonresponsible pursuant to IC 4-13.4-6-1 [*IC 4-13.4 was repealed by P.L. 49-1997, SECTION 86, effective July 1, 1998.*]
- (2) The bid is not responsive in that it does not conform in all material respects to the requirements of the solicitation.
- (3) The supply or service offered is unacceptable by reason of its failure to meet the requirements of the specifications or permissible alternatives or other acceptability criteria set forth in the solicitation.

The determination shall be made a part of the contract file. (*Indiana Department of Administration; 25 IAC 1.1-1-13; filed Dec 15, 1981, 1:45 pm: 5 IR 242; readopted filed Nov 20, 2001, 9:30 a.m.: 25 IR 1265*)

(1) shall base the determination of responsibility upon any available information; or

(2) may find the prospective contractor nonresponsible if the failure to respond is unreasonable.

(c) The prospective contractor may demonstrate the availability of necessary financing, equipment, facilities, expertise, and personnel by submitting any of the following upon request:

(1) Evidence that the contractor possesses the items.

(2) Acceptable plans to subcontract for the items.

(3) A documented commitment from, or explicit arrangement with, a satisfactory source to provide the items.

(d) Before awarding a contract, the director must be satisfied that the prospective contractor is responsible.

(e) If a bidder or offeror is found nonresponsible, a written determination of nonresponsibility setting forth the basis of the finding shall be:

(1) prepared by the commissioner or director; and

(2) made part of the contract file.

A copy of the determination shall be sent promptly to the nonresponsible bidder or offeror. (*Indiana Department of Administration; 25 IAC 1.1-1-14; filed Dec 15, 1981, 1:45 p.m.: 5 IR 243; readopted filed Nov 20, 2001, 9:30 a.m.: 25 IR 1265; filed Jul 31, 2006, 9:09 a.m.: 20060830-IR-025060004FRA*)

25 IAC 1.1-1-15 Cost or pricing data; contractor certification

Authority: IC 4-13.4-3-1

Affected: IC 4-13.4-6-3; IC 4-13.4-9-1

Sec. 15. Except in cases: (a) where the contract price is based on adequate price competition;

(b) where the contract price is based on established catalog prices or market prices;

(c) where the contract prices are set by law or rule; or

(d) where the Director makes a determination that these requirements may be waived and the reasons for the waiver are stated in writing;

the following requirements shall apply.

An offeror submitting a competitive sealed proposal must submit cost or pricing data which he certifies is accurate, complete and current as of a mutually agreed date prior to the date of the pricing of any contract awarded pursuant to a Request for Proposals, where the total contract price is expected to exceed \$50,000.

A proposed sole source contractor must submit cost or pricing data which he certifies is accurate, complete and current as of a mutually agreed date prior to the date of the pricing of any contract awarded pursuant to the sole source provisions of the law, where the total contract price is expected to exceed \$25,000.

A contractor who wishes to obtain a change order or modification pursuant to IC 4-13.4-9-1 [*IC 4-13.4 was repealed by P.L.49-1997, SECTION 86, effective July 1, 1998.*] must submit cost or pricing data which he certifies is accurate, complete and current as of a mutually agreed date prior to the date of the pricing of any change order or contract modification, whenever the

original contract price exceeds \$50,000 and the amount of the change order or contract modification is expected to exceed \$5,000.

The Director may require the submission of certified cost or pricing data prior to contract award in cases where only one qualified bid is received in response to an invitation for bids. (*Indiana Department of Administration; 25 IAC 1.1-1-15; filed Dec 15, 1981, 1:45 pm: 5 IR 243; readopted filed Nov 20, 2001, 9:30 a.m.: 25 IR 1265*)

25 IAC 1.1-1-16 Types of contracts; prohibited contracts

Authority: IC 4-13-1-7; IC 5-22-3

Affected: IC 5-22-17

Sec. 16. (a) Any type of contract not otherwise prohibited by law, except a cost plus a percentage of cost contract, may be used; however, a firm fixed price contract is preferred. Any other type of contract may be used only when the director or commissioner determines that its use is in Indiana's best interest. Any solicitation shall include notice of the contract terms and conditions.

(b) The following are among the factors that may be considered in selecting a contract type:

- (1) The type or complexity of the supply or service being procured.
- (2) The difficulty of estimating performance costs, such as the inability of Indiana to do any of the following:
 - (A) Develop definitive specifications.
 - (B) Identify the risks to the contractor inherent in the nature of the work to be performed.
 - (C) Otherwise establish clearly the requirements of the contract.
- (3) The administrative costs to both parties.
- (4) The degree to which Indiana must provide technical coordination during the performance of the contract.
- (5) The effect of the choice type on the amount of compensation to be expected.
- (6) The stability of material or commodity market prices or wage levels.
- (7) The urgency of the requirement.
- (8) The length of contract performance.
- (9) Federal requirements.

(c) A contract may contain an option for renewal or extension of its terms, without modification, for a specified period of time.

However:

- (1) exercise of the option is:
 - (A) at the sole discretion of Indiana; and
 - (B) not subject to agreement or acceptance by the contractor;
 - (2) notice of the provision must be included in any solicitation; and
 - (3) the renewal or extension must be approved by the commissioner and the state budget director.
 - (d) A contract for rental or lease may contain an option to purchase. However:
 - (1) exercise of the option is:
 - (A) at the sole discretion of Indiana; and
 - (B) not subject to agreement or acceptance by the contractor;
 - (2) provision of the option must be part of any solicitation;
 - (3) a means of computing the cost of the item to Indiana at fixed intervals, should it exercise its option, that is not more than the actual resale or fair market value of the item at the time of exercising the option must be part of the agreement;
 - (4) Indiana must have the right to cancel the lease or rental agreement, at fixed intervals, without penalty; and
 - (5) exercise of the option to purchase must be subject to the approval of the commissioner and the state budget director.
 - (e) A using agency may not enter into an installment sales contract unless the contract contains the following:
 - (1) A contract clause that permits the department to cancel the contract if the budget director makes a written determination that funds are not appropriated or otherwise available to support continuation of the contract.
 - (2) Other contract terms that the commissioner may require.
 - (f) As used in this section, "quantity purchase agreement" includes a contract for the following:
 - (1) An indefinite amount of specific supplies or services.
 - (2) Supplies or services to furnish:
 - (A) all the actual requirements of a designated using agency or agencies; or
 - (B) a determinable part of the actual requirements, such as a percentage;
- during a specified period of time.

- (g) Indiana may enter into an indefinite quantity contract if:
 - (1) the director determines it appropriate;
 - (2) an approximate quantity or the best information available as to quantity is stated in the solicitation; and
 - (3) the term of the contract is specified.
- (h) Indiana may enter into a requirements contract if:
 - (1) the director determines it appropriate;
 - (2) an approximate quantity or the best information available as to quantity is stated in the solicitation;
 - (3) the term of the contract is specified; and
 - (4) use of this type of contract is limited to instances where actual requirements can be reasonably estimated.
- (i) A solicitation for an indefinite quantity contract or a requirements contract and the resultant contract may reserve the right to Indiana to separately meet requirements of the using agency or agencies.
- (j) The vendor for a quantity purchase agreement may be selected as follows:
 - (1) By means of:
 - (A) an invitation for bids; or
 - (B) a request for proposals.
 - (2) In any other manner not prohibited by law.
- (k) Price adjustments in quantity purchase agreements will be permitted only as follows:
 - (1) Under the terms and conditions specified in the solicitation.
 - (2) If the adjustment is computed by a rule, method, or formula specified in the agreement.
- (l) Upon the termination of a quantity purchase agreement, the director may award the agreement to the vendor quarterly, semiannually, or annually, without further competition, if the vendor consents to the same prices as the original award. A quantity purchase agreement may not be extended unless notice of it was part of the solicitation. No award may extend the total period of the agreement with the vendor beyond a two (2) year term.
- (m) The director shall make every effort to ensure that no more quantity purchase orders than are reasonably necessary for the efficient operation of the governmental bodies affected thereby are in effect at any one (1) time. Although this does not preclude the issuance of more than one (1) quantity purchase order for any specific item, effort shall be made to specify the governmental agency, geographic location, etc. for which each is applicable so that there is little or no overlap. Sec. 17. A fixed price contract with price adjustment provides for variation in the contract price under special conditions defined in the contract. The formula or other basis by which adjustment in contract price can be made shall be specified in the solicitation and resulting contract. Adjustment allowed may be upward, downward, or both. Examples of special conditions for which contract adjustments provisions may be permitted by the Director to be included in a fixed price contract include changes due to rapid and substantial price fluctuations, which can be related to an accepted index (such as contracts for gasoline, heating oils, and dental gold alloy). Authority: IC 4-13.4-3-1; IC 4-13.4-4-1

Affected: IC 4-13.4-4

Sec. 18. Specifications shall, to the extent practicable, emphasize the functional or performance requirements of an agency's procurement of supplies or services. Using agencies shall include as part of their purchase requisition the supply or service specification or description and all requirements for inspecting, testing or preparing a service or supply item for delivery. The following procedures governing the preparation, maintenance and utilization of specifications, unless otherwise prescribed by the

director, are to be used in the procurement of supplies and services for governmental use.

(a) Specification preparation: (1) Using agencies may prepare and submit individual agency specifications for the procurement of supplies and services. These specifications are subject to procurement division approval and acceptance for use in public purchasing procedures.

(2) Common or general use specifications are to be prepared by the procurement division for all agency use. Wherever practical, agencies shall use specifications developed by the procurement division.

(3) Any specifications developed and used by the United States government or its agencies may be used by the procurement division in the procurement of supplies.

(b) Maintenance of specifications: (1) The procurement division shall maintain a central file of common or general use specifications for all state agency use. Agencies may submit general use specifications to the director for approval and subsequent utilization for the procurement of supplies or services that may be awarded on individual competitive sealed bids, regularly scheduled class bids, or all state agency quantity purchase awards.

(2) Any agency preparing specifications for its use shall maintain a central file of specifications which the division and other agencies may utilize in the procurement of supplies and services.

(c) Specification content: (1) All specifications shall contain the description of the physical or functional characteristics or the nature of a supply or service procurement. This description may also include, with reasonable particularity, the kind, quantity and quality of all materials, equipment goods and supplies to be purchased.

(2) The following types of specifications, and those prescribed by the director from time to time, may be used by the division and agencies in the procurement of supplies and services:

(A) Design-type (also physical or technical)—A description of materials or components to be used, and dimensions to be adhered to, in a detailed, precise manner.

(B) Functional—A description of performance characteristics to be met, without prescribing exactly how they are to be accomplished.

(C) Brand name or equivalent—A specification which uses one (1) or more manufacturer's names or catalogue numbers to describe the standard of quality, performance or other characteristics needed to meet the state agencies requirements, and which provides for the submission of equivalent products.

(D) Common or general use—Those specifications developed and maintained by the division for use by all agencies for recurring procurement needs where the characteristics of supplies or services, as commercially produced or provided, remain relatively stable, although the frequency or volume of procurements may vary.

(3) A specification may provide alternate description of supplies or services where two (2) or more design, functional or performance criteria will satisfactorily meet the state's procurement requirements.

(4) A specification may include a description of any requirement for inspecting, testing or preparing a supply or service for delivery.

(5) To the extent practical, a specification should not include any solicitation or contract term or condition such as a requirement for time or place of bid opening, time of delivery, payment, liquidated damages or qualification of bidders.

(d) Inspection and testing: (1) All supplies and services provided to the state are subject to the division's inspection and testing requirements at all times before, during or after manufacture or delivery. All such inspection and testing requirements may be established as part of individual bid solicitations or as part of operational procedures developed by the director. Those operational procedures may also allow for reasonable charges assessed to supplying vendors to recover costs of inspections or testing as required by the division.

(2) Vendors shall furnish, without additional charges, all reasonable facilities and assistance for the safe and convenient inspections and tests required by the division.

(3) The division shall have the right to reject and return at the vendor's expense, or to require at vendor's expense, the correction or replacement of supplies or services which are defective or do not conform with solicitation or purchase order requirements. All rejection shall be held at the vendor's expense and risk, including all transportation and handling costs, until returned to the vendor or corrected by the vendor.
