Sec. 6. If after proper solicitation of bids, only one bid is received, the Director shall make a thorough review of the situation in consort with the operating department to determine whether the one bid should be accepted or rejected and rebid. In making this judgment they should consider the type of work, its competitiveness, the timely need of the project, the possibility of unfavorable prices if rebid, the possible loss of the low bidder if rebid, and the equitable fairness to the single bidder of having his bid divulged to subsequent bidders if the project is rebid. In such instances the Bid Officer shall ask the low bidder, if represented at the opening, to quickly confirm his bid, while the bid opening is still in session, and if an error is alleged to have been made to submit evidence of such error in a timely manner to the Director, for consideration by the State. For bids that exceed seventy-five thousand dollars (\$75,000), the designer, after a full review of the bid and discussion with all interested parties to the bid, shall make recommendation to the director as to acceptance or rejection of the bids. If the director concurs in a recommendation for acceptance, the director shall compose a formal contract for the signature of the commissioner for said work after determining that funds are available. On projects designed by a contract designer, the inspectors or institutional employees shall not give instructions to any contractor or subcontractor directly, except in an emergency,

Sec. 3. Under IC 5-16-5, as amended, partial payments may be temporarily held by the division if the division has received a certificate from a subcontractor asserting that his or her work, having been completed within the past sixty (60) days was billed to the prime contractor and not paid. Copies of the certified claim shall be forwarded to the contractor's bond surety, if applicable, for information and possible action. If, in the opinion of the chief administrative officer of the department having jurisdiction over the property that an emergency exists and a need exists for procuring materials, labor or services outside the normal procurement procedures, he shall inform the Department of Administration and if the Commissioner concurs that an emergency exists, the materials, labor or services can be secured on an emergency basis as set out in IC 5-16-1-1.6 and 25 IAC 2-5-4.
